Department of Agriculture 2000 Report of Agriculture

Agricultural crop report

OFFICE OF

AGRICULTURAL COMMISSIONER – SEALER OF WEIGHTS & MEASURES

LOCATION: 12200 AIRPORT ROAD, MARTELL, CALIF. • PHONE (209) 223-6487 • FAX (209) 223-3112
MAIL: 12200 AIRPORT ROAD • JACKSON, CA 95642-9527

May 7, 2001

William J. Lyons Jr., Secretary
California Department of Food and Agriculture
and
The Honorable Board of Supervisors
County of Amador

In accordance with Section 2279 and 2272 of the California Food and Agricultural Code, I am pleased to present the 2000 Crop and Livestock Report of Agricultural Production and Report of Sustainable Agriculture in Amador County.

The total gross valuation for all agricultural commodities produced in 2000 was \$32,673,726. This represents an increase of 14.03 percent from the 1999 gross production values.

Significant commodity group changes when compared to 1999 values were: Fruit and Nut Crops increased by 10.28 percent, Livestock increased by 24.90 percent, Timber increased by 15.37 percent.

The value of the 2000 Wine Grape Production increased by 11.14 percent and is Amador County's leading commodity.

These production values only partially reflect the overall measure of the economic impact agriculture has on the local economy. Processing, transporting, marketing and other farm-related services significantly multiply the value agriculture has to Amador County.

It must be emphasized that this report deals with gross value of production only and does not attempt to reflect net farm income.

I would like to thank all the individuals, producers, processors, government agencies and others whose cooperation and assistance contributed in preparing this report. My sincerest thanks and appreciation must also be extended to Carolyn Scalabrino and Barry Clark as well as all department staff for their efforts in compiling and finalizing this report.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Michael E. Boitano".

Michael E. Boitano
Agricultural Commissioner/Sealer

A special thank you to Scott Oneto of the University of California Cooperative Extension for his participation on the completion of this report.

May 22, 2002

William J. Lyons Jr., Secretary
California Department of Food and Agriculture
and
The Honorable Board of Supervisors
County of Amador

In accordance with Section 2279 and 2272 of the California Food and Agricultural Code, I am pleased to present the 2001 Crop and Livestock Report of Agricultural Production and Report of Sustainable Agriculture in Amador County.

The total gross valuation for all agricultural commodities produced in 2001 was \$27,168,458. This represents a decrease of 16.95 percent from the 2000 gross production values.

Significant commodity group changes when compared to 2000 values were: Livestock decreased by 27.02 percent and Timber decreased by 45.61 percent.

The value of the 2001 Wine Grape Production increased by 1.91 percent and is Amador County's leading commodity.

These production values only partially reflect the overall measure of the economic impact agriculture has on the local economy. Processing, transporting, marketing and other farm-related services significantly multiply the value agriculture has to Amador County.

It must be emphasized that this report deals with gross value of production only and does not attempt to reflect net farm income.

I would like to thank all the individuals, producers, processors, government agencies and others whose cooperation and assistance contributed in preparing this report. My sincerest thanks and appreciation must also be extended to Carolyn Scalabrino and Barry Clark as well as all department staff for their efforts in compiling and finalizing this report.

Respectfully submitted,

A handwritten signature in cursive script that reads "Michael E. Boitano".

May 29, 2003

William J. Lyons, Jr., Secretary
California Department of Food and Agriculture and
The Honorable Board of Supervisors
County of Amador

In accordance with Section 2279 and 2272 of the California Food and Agricultural Code, I am pleased to present the 2002 Agricultural Crop and Livestock Report and Report of Sustainable Agriculture in Amador County .

The total gross valuation for all agricultural commodities produced in 2002 was \$30,405,436. This represents an increase of 12.06 percent from the 2001 gross production values.

Significant commodity group changes when compared to 2001 values were: Livestock increased 57.51 percent and Miscellaneous Production decreased by 26 percent.

The value of the 2002 Wine Grape Production decreased 2.77 percent and is Amador County's leading commodity.

These production values only partially reflect the overall measure of the economic impact agriculture has on the local economy. Processing, transporting, marketing and other farm-related services significantly multiply the value agriculture has to Amador County.

It must be emphasized that this report deals with gross value of production only and does not attempt to reflect net farm income.

I would like to thank all the individuals, producers, processors, government agencies and others whose cooperation and assistance contributed in preparing this report. My sincerest thanks and appreciation must also be extended to Barry Clark and Carolyn Scalabrino as well as all department staff for their efforts in compiling and finalizing this report.

June 6, 2005

A. G. Kawamura Secretary
California Department of Food and Agriculture
and
The Honorable Board of Supervisors
County of Amador

In accordance with Section 2279 and 2272 of the California Food and Agricultural Code, I am pleased to present the 2004 Crop and Livestock Report of Agricultural Production and Report of Sustainable Agriculture in Amador County.

The total gross valuation for all agricultural commodities produced in 2004 was \$32,840,674. This represents an increase of 13.66% from the 2003 gross production values. The increase was due to higher prices for grapes and cattle. It should also be pointed out that there was a 68% drop in timber production in Amador County in 2004.

These production values only partially reflect the overall measure of the economic impact agriculture has on the local economy. Processing, transporting, marketing and other farm-related services significantly multiply the value agriculture has to Amador County.

It must be emphasized that this report deals with gross value of production only and does not attempt to reflect net farm income.

I would like to thank all the individuals, producers, processors, government agencies and others whose cooperation and assistance contributed in preparing this report. My sincerest thanks and appreciation must also be extended to Barry Clark, as well as all the department staff for their efforts in compiling and finalizing this report.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Michael E. Boitano", written in a cursive style.
