Washington, D. C.

PREFACE

This bulletin adds data through 1966 to long-term historical series on feed grains, byproduct feeds, and forages. It also contains revisions made for the period 1959-65, many of which are based on the 1964 Census of Agriculture and the 1963 Census of Manufactures.

Tables in this bulletin generally supersede those on feed grains, byproduct feeds, and forages published in Grain and Feed Statistics, Statistical Bulletin No. 159, June 1962, and its annual supplements issued in 1963, 1964, and 1965. Due to space limitations, however, it was necessary to omit statistics for some of the earlier years from a number of tables. Consequently, it is suggested that Statistical Bulletin No. 159, June 1962, be retained to provide these earlier data. Tables on wheat, rye, and rice, carried in Statistical Bulletin No. 159, are not included in this publication but will be published in a separate bulletin.

This publication will serve as a statistical handbook to the Feed Situation, published 5 times a year by the Economic Research Service. The Feed Situation provides current data for most of the series published here. Supply and utilization tables for feed grains have been reorganized to make them easier to follow and comparable with tables carried in the Feed Situation.

Data are from the records of Economic Research Service, Statistical Reporting Service, Agricultural Stabilization and Conservation Service, Consumer and Marketing Service, and Foreign Agricultural Service of the U.S. Department of Agriculture, as well as other Government and non-government sources. Except for ERS and SRS, sources are generally cited.

This bulletin was prepared in the Feed Section, Economic and Statistical Analysis Division, Economic Research Service, by Jack S. Ross, Dorothy L. Bailey, and Pauline Kosisky, under the general supervision of Malcolm Clough.

FEED STATISTICS Through 1966

Prepared in the Feed Section, Commodity Analysis Branch, Economic and Statistical Analysis Division, Economic Research Service

CONTENTS

	Page
Feed Concentrates, All, Consumed by Livestock and Poultry, 1962-66	2-5
Feed Grains	
Acreage, yield and production, 1919-66	6-8
Acreage, yield and production by regions, 1919-66	9-15
Supply and distribution, 1926-66	16-23
Domestic disappearance and exports, by quarters, 1926-66	24-25
Stocks in all positions, by kinds, by quarters, 1935-66	26-29
Corn grindings and shipment of products by the wet-process, 1940-66	30
Use in producing alcohol, distilled spirits and fermented malt liquors, 1940-66	31-32
Receipts of corn, oats and barley at primary markets, by months, 1940-66	32-33
Disposition, sales and value of sales of feed grains, by farmers, 1945-66	34-35
Prices received by farmers for corn, oats, barley and sorghum grain, 1908-66	36-42
Market prices of corn, oats, barley and sorghum grain, 1920-66	37-41
Parity prices of corn, oats, barley and sorghum grain, 1955-66	37-42
Index numbers of feed grain prices, 1920-66	43
Provisions of the 1961-67 Feed Grain Programs	44-45
Results of the 1961-66 Feed Grain Programs	46-47
Quantities placed under price support, 1933-66	48-49
Disposition of feed grains placed under price support, 1948-65	49-51
Sales of feed grains by CCC, 1954-66	52-53
Distribution of feed grain stocks, 1940-66	53-58
Exports and imports of feed grains, 1930-66	59-65
Canadian supplies and exports of oats and barley, 1953-66	65
Argentine and South African supply and distribution of corn, 1948-66	66
Byproduct Feeds	
High-protein feed supply per animal unit, 1931-65	67
Estimated use for feed, 1940-65	68-69
Production, specified kinds, annual, 1936-65	70
Production and stocks, specified kinds, by months, 1940-66	71-77
Inedible molasses: Supply and distribution, 1952-65	73
Fishmeal: U.S. imports, by months, 1945-66	76
Oilseed meals: Production, stocks, foreign trade and disappearance, by months, 1954-66	78-80
Exports and imports of byproduct feeds, 1943-65	81
Wholesale prices, by months, 1945-66	82-89
Index of wholesale prices of high-protein feeds, 1937-66	90-91
Hay	
Acreage, yield, production, supply and disappearance, 1920-66	92
Production by kinds, 1920-66	93
Production by regions, 1920-66	94
Pasture and range condition, by months, 1910-66	95
Prices received and paid by farmers, and wholesale prices, 1942-66	96-98
Disposition, sales and value of sales of hay, by farmers, 1945-66	98
Prepared Feeds and Other Livestock Rations	
Commercially prepared animal feeds: Production by kinds and States, 1962-64	99-101
Grains, other concentrates, hay and silage fed to milk cows, 1955-66	102
Index of prices paid by farmers for feed, 1945-66	103
Prices paid by farmers for specified feeds, by months, 1951-66	103-104
Prices paid for mixed poultry, dairy, hog and cattle feeds, 1945-66	104-108
Livestock and Poultry-Feed Price Ratios, by months, 1940-66	109-112

1/ Oats, barley, sorghum grain, wheat and rye. Quarterly distribution of sorghum grain for 1926-55 is based on feeding of other grains, distribution of sales, and other related factors. Quarterly feeding of barley, wheat and rye are partly estimated for years prior to 1935.

2/ For breakdown of annual statistics by types of feeds, see table 66, page 68. Quarterly distribution of the feeding of a number of these byproduct feeds was estimated for earlier years, when monthly production and stocks were not officially reported.

3/ Preliminary.

1/ Data not available prior to April 1943.

2/ Owned by Commodity Credit Corporation and stored in bins or other storage owned or controlled by CCC. Additional CCC stocks are included in other off-farm positions.

3/ Grain and grain equivalent of corn products. Compiled from reports of the Bureau of the Census.

4/ Less than 500,000 bushels.

5/ Terminal market, interior mills, elevators and warehouses combined beginning October 1, 1960.

6/ Preliminary.

7/ Estimated quantities used in producing cornmeal (including for [illegible]), flour, hominy grits and flakes: [illegible] the National Agricultural Library.

8/ Residual. Includes minor uses and waste.

9/ Stocks at interior mills, elevators and warehouses not included in [illegible] programs.

1/ Data not available prior to April 1943. 2/ Owned by Commodity Credit Corporation and stored in bins or other storage owned or controlled by CCC. Additional CCC stocks are included in other off-farm positions. 3/ Includes grain and grain equivalent of oat products. Compiled from reports of the Bureau of the Census. 4/ Less than 500,000 bushels. 5/ Terminal market, interior mill, elevator and warehouse combined beginning July 1, 1958. 6/ Preliminary. Includes an allowance for 1966-67 imports. 7/ Used in production of oatmeal and other cereal preparations. Based on the reports of the Bureau of the Census. 8/ Residual; includes other minor uses and waste. 9/ Stocks at interior mills, elevators and warehouses not included in computing 1942-43 disappearance.

1/ October-September year for corn and sorghum grain, July-June year for oats and barley.
2/ Under loan or owned by CCC. Includes an allowance for purchase agreement deliveries of corn after October 1 and oats and barley after July 1.
3/ Imports and exports include grain equivalent of products.
4/ Less than 50,000 tons.
5/ Stocks of grain at interior mills, elevators and warehouses, not included in computing 1942-43 disappearance.
6/ Preliminary.

1/ Corn includes corn as grain, corn meal, grits and wet process products; sorghum, grain only.
2/ Includes corn harvested as grain only.
3/ Less than 500,000 bushels.
4/ Preliminary.
5/ Quarterly disappearance not available prior to 1956.
6/ Quarterly figures for October-June domestic disappearance add to 292 million bushels, leaving a balancing item of -11 million for July-September. Some of the sorghum grain fed and exported in this quarter would come from the 1959 crop.

1/ Season average prices weighted by sales; includes an allowance for unredeemed loans and purchase agreement deliveries valued at the average loan rate for the years 1938-44 and 1948 to date. Monthly prices were weighted by production by States for 1966/67 through 1956/57. This accounts for the season average prices shown being lower than monthly prices in a number of the earlier years. Beginning 1957 average monthly prices were weighted by sales by States and are not entirely comparable with those of earlier years. Season average prices weighted by production were published in Grain and Feed Statistics Through 1956, May 1957 and the supplement to this bulletin for 1960, March 1961. 2/ Preliminary.

1/ Monthly and annual average prices are weighted by carlot sales.
2/ Nominal.
3/ Based on the average price received for corn during August 1909-July 1914 (64.2 cents per bushel) and the index of prices paid by farmers including interest and taxes. Transitional parity 1956 through 1959: For calendar years 1956 and 1957, 95 percent; 1958, 90 percent and 1959, 85 percent of the parity price as computed under the "old parity formula". Beginning January 1960 modernized parity. Parity prices computed on basis of data for the month are legally applicable for the following month.

Compiled from the Chicago Daily Trade Bulletin, 1920 through May 1942, the Chicago Journal of Commerce, and the Wall Street Journal, Chicago edition, June 1942 to date.

1/ The season average price includes an allowance for unredeemed loans and for deliveries to the CCC under purchase agreements, valued at the average loan rate, for the years 1948 to date. Crop year averages, by States, weighted by sales to obtain weighted averages for the United States. Monthly prices were weighted by production by States through 1956/57. 2/ Preliminary. 3/ Modernized parity. Parity prices computed on basis of data for the month are legally applicable for the following month.

1/ The season average price includes an allowance for unredeemed loans and for deliveries to the CCC under purchase agreements, valued at the average loan rate, for the years 1940-44 and 1948 to date. Crop year averages, by States, weighted by sales to obtain weighted averages for the United States. Monthly prices were weighted by production by States through 1956/57. 2/ Preliminary. 3/ Modernized parity. Parity prices computed on basis of data for the month are legally applicable for the following month.

1/ Includes an allowance for unredeemed loans and deliveries to CCC under purchase agreements for the years 1942-44 and 1948 to date. Crop year averages, by States, weighted by sales, to obtain averages for the United States. Monthly prices were weighted by production by States through 1956/57.

2/ Preliminary.

3/ Modernized parity. Parity prices computed on basis of data for the month are legally applicable for the following month.

Barley, per bu.	.[illegible]	.1[illegible]	2/ .[illegible]	3/ .80	.20	1.00	.80	- 0 -	.80
Grain sorghum, per cwt.	1.[illegible]	.[illegible]	[illegible].00	1.[illegible]	.[illegible]	[illegible].0[illegible]	1.[illegible]1	.[illegible]	[illegible].14
Production eligible for price support	Price support loan on total production	Price support payment on normal production		Price support loan on total production	Price support payment on projected production of smaller of planted acreage or [illegible] percent of base		Price support loan on total production	Price support payment on projected production of smaller of planted acreage or [illegible] percent of base	
Yield base for determination of payments	[illegible] average			Projected for 1965 (Base on 1960-[illegible] average adjusted for trend)			Projected for 1967 (Base on 1961-[illegible] average adjusted for trend)		
Acreage Diversion									
Grains included	Corn, grain sorghum, barley, wheat, oats and rye 5/			Corn, grain sorghum, barley, wheat, oats and rye 5/			Corn and grain sorghum, substitution permitted 6/		
Base period	1959 and 1960 (but not in excess of 19[illegible] acreage for oats and rye)			1959 and 1960 (but not in excess of 19[illegible] acreage for oats and rye)			1959 and 1960 (but not in excess of 19[illegible] acreage for oats and rye)		
Acreage to be diverted									
Minimum 1/	[illegible] percent of base			20 percent of base			[illegible] percent of base		
Maximum 2/	[illegible] (or [illegible] acres if larger)			[illegible]0 (or [illegible] acres if larger)			No additional diversion (except for small farms) 7/		
Payment rates for corn, sorghum and barley acreage diversion 3/	County total support rate times:			County total support rate times:			No payment for acreage diversion except small farms		
First [illegible] percent diverted	[illegible] pct. of normal production			No payment (except small farms)			"		
Diversion of [illegible] to [illegible] percent	[illegible] pct. of normal production			[illegible] pct. of projected production			"		
Diversion of [illegible] to [illegible] percent	[illegible] pct. of normal production on all acreage diverted			[illegible] pct. of projected production			"		
Small producer - [illegible]	May divert entire acreage. Payment for [illegible] percent of normal production			May divert entire acreage. Payment on first [illegible] percent based on [illegible] percent of projected production; additional diversion based on [illegible] percent of normal production			May divert entire acreage. Payment on first 80 percent base, on 30 percent of projected production; additional diversion based on 50 percent of projected production 8/		

1/ Minimum diversion to be eligible for diversion payments and price support. 2/ Maximum acreage that can be diverted for payment. 3/ Malting barley on exempt farm - price support loan [illegible] cents - no price support payment. 4/ Malting barley producers electing the exemption will receive price support payments but will receive an additional payment of 1[illegible] cents per bushel. 5/ Farmers signing up for the wheat and feed grain programs may substitute acreages of these grains. Farmers requesting an oats-rye base may substitute wheat for oats and rye. 6/ Barley can be taken from the diversion program. Farms signing up for the wheat and feed grain programs may substitute acreages of wheat and corn-sorghums. Farmers requesting a barley, oat or rye base may substitute wheat for barley, oats and rye (unlike 1[illegible], no diversion required). 7/ Producers can divert for payment up to [illegible] acres if no feed grains are planted. 8/ Oats and rye in 1[illegible] and 19[illegible] based on [illegible] percent of wheat payment rate. 9/ Producers with acres of through 1[illegible] acres may elect to have their support payments reduced [illegible] and be [illegible] as a small producer, provided no feed grains are planted.

1/ Total farms are not the sum of the farms by kinds of grain since individual farms may produce more than one food grain. 2/ Not available by grains. 3/ Includes all farms earning a diversion, price support, or substitute crop payment and farms diverting to substitute crops for which there was no diversion payment. 4/ Excludes acreage in the Conservation Reserve 1961 and 1962; includes acreage in that Program for 1963-66. 5/ Total excludes oats and rye: base acreage, 447,000 acres in 1965 and 237,000 in 1966; acreage diverted, [illegible]5,000 acres in 1965 and about 2,6[illegible]0 in 1966. 6/ Includes farms participating under the oat-rye and wheat substitution provisions of the program. 7/ Excluding oats and rye. 8/ Includes acreage on farms producing malting barley exempt from the acreage diversion provisions of the program. 9/ Acreage diversion not compiled by States. National totals computed on basis on acreages diverted for payment plus estimated acreages diverted at the 2[illegible] percent level without payment. 10/ Includes oat and rye diversion payments of $253,[illegible] in 1965 and about $8,000 in 1966.

Compiled from reports of Agricultural Stabilization and Conservation Service.

1/ The quantities under loans exclude grain from the purchase agreement program placed under loan the following year. 2/ Residual; grain on which loans are repaid or purchase agreement grain not delivered. 3/ Includes deliveries from original program, the reseal program and over deliveries as determined by weight of farm-stored grain when delivered to CCC. 4/ Less than 50,000 bushels. 5/ Loans were not extended. 6/ Estimated; includes an allowance for deliveries of grain from the reseal program. 7/ Beginning 1964, deliveries under the purchase agreement program; contracts under this program did not specify quantities. 8/ Total deliveries will depend on deliveries from the reseal program. Through March 31, 1967, 1.9 million bushels of 1964 corn and 0.2 million of 1965 corn had been delivered to CCC.

Compiled from reports of the Agricultural Stabilization and Conservation Service.

1/ The quantities under loans exclude grain from the purchase agreement program placed under loan the following year. 2/ Residual; grain on which loans are repaid or purchase agreement grain not delivered. 3/ Includes deliveries from original program, the reseal program and over deliveries as determined by weight of farm-stored grain when delivered to CCC. 4/ Loans were not extended. 5/ Beginning 1964, deliveries under the purchase agreement program as contracts under this program did not specify quantities. 6/ Less than 50,000 bushels. 7/ Total deliveries will depend on deliveries from the reseal program. Through March 31, 1967, 15.7 million bushels of 1964 oats and 2.6 million bushels of 1965 oats had been delivered. 8/ Estimated; includes an allowance for deliveries of grain from the reseal program.

Compiled from reports of the Agricultural Stabilization and Conservation Service.

1/ In terms of soybean meal equivalent (44 percent protein content) converted on basis of digestible protein, using the following factors: soybean meal 1943 and earlier years, .90; this factor was increased by one percentage point in each of the succeeding 10 years to allow for increasing protein content, to 1.00 in 1953, which will be used in succeeding years; cottonseed, .8; linseed, .75; peanut, 1.0; copra, .4; tankage and meat meal, 1.1; fish meal, 1.45; dried milk products, .7; gluten feed and meal, .6; brewers' dried grains, .45; distillers' dried grains, .5. 2/ Cottonseed, linseed, peanut and copra meals. 3/ High-protein feed-consuming livestock. Compiled from Livestock-Feed Relationships, Statistical Bulletin #337, November 1966. 4/ Preliminary.

1/ Estimated use for feed is derived by adding production and imports, deducting exports, utilization for food and other nonfeed uses, and adjusting for changes in stocks of cottonseed, soybean, linseed, peanut and copra cakes and meals, brewers' and distillers' dried grains and alfalfa meal. 2/ Beginning January 1959 based on extended coverage of processing plants and also includes poultry and byproduct meal. Not comparable with earlier years. 3/ Data not available prior to 1954. 4/ During 1961/62-1964/65, data derived on the basis of revised calendar year totals which were substantially above the unrevised monthly totals. Data for 1961/62 to date are not comparable with earlier years. 5/ Estimated quantities of molasses, hominy feed, oat millfeeds, and screenings available for livestock feeding; beginning 1954/55, molasses excluded from this group and reported separately. 6/ Preliminary.

1/ Monthly data for October 1961 through December 1964 were derived from the revised calendar year data for 1960-64. The revised data, not reported by months, were substantially above the unrevised monthly totals. 2/ Beginning with calendar 196[illegible], data are based on reports of shipments to feed manufacturers by renderers and fat processors and are not comparable with earlier years which are based on reports of feed manufacturers. 3/ Beginning with January 196[illegible], inedible tallow and grease only; earlier years included small quantities of fish and vegetable oils. 4/ Preliminary.

Compiled from reports of the Bureau of the Census.

1/ Data have been revised beginning with January 1952, by extending coverage to include additional plants and specifying that meat meal should include poultry byproduct meal (feather meal not included). Data for the years prior to 1955 are not comparable with the revised estimates for 1955-66. 2/ Beginning January 1964 meat meal and tankage not reported separately. 3/ Preliminary.

Compiled by the Bureau of the Census beginning January 1[illegible]; for earlier years by the Statistical Reporting Service.

1/ Alfalfa and alfalfa mixtures 1949 to date.
2/ Clover, timothy and mixtures of clover and grasses, 1949 to date.
3/ Grains cut green for hay 1920-48, includes oats fed unthreshed 1949 to date.
4/ Miscellaneous tame hay, including sweetclover. In certain States, contains small quantities formerly classified as wild hay and grains cut for hay.
5/ Production in all States 1920-38, but in no more than 22 principal producing States, 1939 to date.
6/ Included under "other".
7/ Preliminary.
