CONTENTS

Preface xiii
Glenn L. Johnson
Introduction xv
Allen Maunder and Ulf Renborg

OPENING SESSION

Elmhirst Memorial Lecture: Food, economics and entitlements 3
Amartya Sen

Presidential Address: Scope of agricultural economics 21
Glenn L. Johnson

SECTION I – FORCES SHAPING THE FUTURE

Poverty and beyond: the forces shaping the future in Asia 37
Yujiro Hayami

The exploitation and subsidization of agriculture in developing and developed countries 49
Mancur Olson

Forces that will shape future rural development: the case of Northeastern Brazil 60
Pedro Sisnando Leite

Panel Discussion 69

SECTION II – GROWING INTERDEPENDENCIES AND UNCERTAINTIES

Integration of agriculture in the national and world economy: implications for agricultural policies in developing countries 73
Alain de Janvry

The international capital market as a source of instability in international commodity markets 83
G. Edward Schuh

Discussion 90

Regional co-operation in the food sector among developing countries to improve food security 100
Ulrich Koester

Agriculture in an interdependent and uncertain world: implications for markets and prices 114
Alex F. McCalla and Timothy E. Josling

Discussion 122

Farming under uncertainty in the 1980s: some lessons from Canada 127
George L. Brinkman

Peasant farms in economic and social crisis: the case of Poland in the 1980s 139
Jósef St Zegar

Discussion 145

The changing structure of Nigeria's agriculture and prospects for the river basin development reorganisation programme 151
Q. B. O. Anthonio and V. O. Akinyosoye

Adjustment of regional agriculture to expected climatic changes 160
Vladimir Iakimets

Discussion 168

Land resources and distribution of agricultural production in the USSR 170
Victor Nazarenko

The effect of scientific-technological and social progress on development in agrarian labour 178
I. Lukinov

Discussion 184

SECTION III – BALANCING OVERPRODUCTION AND MALNUTRITION

Dealing with the uncertainty of growing food imbalances: international structures and national policies 191
John W. Mellor

Undernutrition: extent and distribution of its incidence 199
T. N. Srinivasan

Discussion 208

Food security policy in sub-Saharan Africa 215
Carl K. Eicher and John M. Staatz

Food insecurity and the foreign exchange constraint in sub-Saharan Africa 230
Colin Kirkpatrick and Dimitris Diakosavvas

Discussion 239

National agricultural policies, surplus problems and international instability 247
Jan de Veer

The world economy: resilient for the rich, stubborn for the starving 259
Günther Fischer, Klaus Frohberg, Kirit S. Parikh and Ferenc Rabar

Discussion 268

SECTION IV – PRESSURE ON NATURAL RESOURCES

Natural resource and environmental dimensions of agricultural development 273
Kenneth R. Farrell and Susan M. Capalbo

The pressure on natural resources in Indonesian agricultural development 284
Achmad T. Birowo and Dibyo Prabowo

Discussion 293

Land utilisation and agricultural development: the case of Hungary 299
Csaba Csáki

An international overview of soil conservation policy 307
Randall A. Kramer

Discussion 313

Natural resources and agricultural development in the tropics: is conflict inevitable? 319
Daniel W. Bromley

Pressure on the Malaysian fisheries arising from current modernisation programmes and management conditions 328
Nik Hashim Mustapha

Discussion 337

SECTION V – HUMAN CAPITAL, TECHNOLOGY AND INSTITUTIONS

From the United States to a world system: technological change, international trade, agricultural policy in the twentieth century 343
Jean-Pierre Berlan

Challenge to studies of biotechnology impacts in the social sciences 353
Walter L. Fishel and Martin Kenney

Discussion 360

The evolution of national agricultural research systems in sub-Saharan Africa 368
Francis S. Idachaba

Agricultural intensification and technical change in sub-Saharan Africa 381
Hans P. Binswanger and Prabhu Pingali

Discussion 386

The role of institutions in formulation of agricultural policy: their repercussions on the challenges of an agriculture in a turbulent world economy 390
Günther Schmitt

Alternative forms of marketing enterprise for the developing countries 404
John C. Abbott

Discussion 413

Self-reliance or dependence of agricultural economics research in developing countries 417
Jean Chataigner and Yves Leon

Irrigation investment in Africa: major issues in the design and implementation of large schemes 424
Mulumba Kamuanga

Discussion 434

Economic reform in rural China 440
Yan Rui-Zhen

Pricing system reform for agricultural products and price policy adjustment in China (1979–1984) 449
An Xi-Ji

Discussion 460

Human capital, structure of production and the basic needs 466
D. P. Chaudhri

Sources of growth of Argentine agriculture and prospects for the 1990s 475
Julio A. Penna

Discussion 486

SECTION VI – STRUCTURE OF AGRICULTURE AND PEOPLE IN RURAL SOCIETIES

The changing structure of agriculture and the future of rural society 493
Howard Newby

Discussion 500

Farmers and rural societies in uncertain food production systems 505
Tadeusz Hunek

The rural-urban balance in rural development 513
Hiroyuki Nishimura

Discussion 526

Changing environment and structural heterogeneity in agriculture 531
Jean-Marc Boussard

Agricultural structure in a service economy 542
Luther Tweeten

Discussion 550

SECTION VII – MARKETS AND TRADE

International markets and price policy: the instability of agriculture 557
Jaime Lamo de Espinosa

New types of multinational firms in the agribusiness sector: implications of their emergence in the least industrialised world 566
Jean-Claude Dufour, Gérard Ghersi and Robert Saint-Louis

Discussion 577

SECTION VIII – THEORETICAL DEVELOPMENTS

Uncertainty in market analysis 585
Alexander H. Sarris

Instability in agricultural markets: the US experience 595
Gordon C. Rausser, James A. Chalfant and Kostas G. Stamoulis

Discussion 604

Agricultural growth and the price of food 611
Yair Mundlak

Exchange rates and trade policy: help or hindrance to agricultural growth? 624
Alberto Valdés

Discussion 633

Farmers and risk 638
Jock R. Anderson, John L. Dillon and J. Brian Hardaker

Measuring production risk using a modified RCRM model 649
John Kerr and K. Kalirajan

The demand for crop insurance 655
W. L. Niewuwoudt and J. B. Bullock

Discussion 661

Integration of production and financial theory in analysing farm firm behaviour 668
Michael Boehlje and L. Lowenberg-DeBoer

Rationing agricultural credit in developing countries: the role and determinants of transaction costs for borrowers 680
Carlos E. Cuevas and Douglas H. Graham

Discussion 686

The role of natural resources in regional agricultural growth 692
Clark Edwards

Land fragmentation in developing countries: the optimal choice and policy implications 703
Scott Simons

Discussion 712

Computer-aided farm management systems: will the promise be fulfilled? 717
Steven T. Sonka

Farm-level information systems as an aid to decision-makers 727
S. B. Harsh, F. Kuhlmann and F. Burg

Impact on farmers' decision-making by farm management and computer sciences in the turbulent economy 734
Yoshihiko Sugai and A. R. Teixeira Filho

Discussion 741

SECTION IX – IMPLICATIONS FOR POLICY AND RESEARCH

Balancing overproduction and malnutrition – implications for policy and research 749
Vijay S. Vyas

Pressure on natural resources – implications for research and policy 754
Günther Weinschenk

Changes in human capital, technology, and institutions: implications for policy and research 769
Wallace E. Huffman

The food chain, markets and prices: implications for research and policy 776
Edward W. Tyrchniewicz

Structure of agriculture: implications for research and policy 781
Philippe Lacombe

SYNOPTIC VIEW

The status and the state of agricultural economics 793
Michel Petit – President Elect

Index of institutional attachment of first named authors 805

Index 809
