Table 18--U.S. agricultural imports: Quantity, value, and unit value by commodity and country, January-December 1982 and 1983, and December 1983 116

SPECIAL NOTICE

This statistical reference presents analytical tables showing current and historical data on U.S. foreign trade in agricultural products. Detailed tables cover commodity and country information for the most recent 2-year period. Statistics for calendar year 1983 are preliminary.

U.S. foreign agricultural trade statistics in this report were derived from official data released by the Bureau of the Census. Agricultural commodities are defined as (1) nonmarine food products and (2) other products of agriculture which have not passed through complex processes of manufacture, such as fibers, raw hides and skins, fats and oils, beer, and wine. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

Exports

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and intransit through the United States from one foreign country to another when documented as such by the U.S. Customs Bureau.

The export data in this report include "exports of domestic merchandise," defined as commodities grown, produced, or manufactured in the United States, and commodities of foreign origin which have been changed from the form in which they were imported. The export value is generally equivalent to a free-alongside-ship (f.a.s.) value at the U.S. port of export, based on the transaction price including inland transportation, insurance, and other costs incurred in placing the merchandise alongside the carrier.

Agricultural exports under specified Government-financed programs (table 13) include shipments under Public Law 480 programs, authorized by Public Law 83-480 as amended; and AID programs, authorized by P.L. 82-165, 83-665, and 87-195 as amended. Commercial exports include, in addition to unassisted commercial transactions, shipments of some commodities with governmental assistance in the form of (1) extension of credit guarantees for relatively short periods repayable in dollars plus interest by USDA's Commodity Credit Corporation, and (2) Export-Import Bank loans and medium-term loan guarantees. Apparent excesses of exports under specified Government programs over total exports, which result in negative values in the column "Agricultural exports outside specified Government programs," may be due to lags in reporting, differences in valuation procedures, or recording the export as destined for the country through which a transshipment occurred.

In commodity-by-country data (table 14), 7-digit Schedule B commodity codes were summed to group totals. Each country listed under the commodity accounted for 0.3 percent or more of the commodity group's export value except for wheat, rice, feed grains, other grain products, corn, wheat and wheat products, grain sorghum, wheat and wheat flour, feed grains and products, and nonfat dry milk.

Imports

Import data consist of "imports for consumption," representing entries for immediate consumption and withdrawals from bonded warehouses. The import value is defined as the "Customs value," based on the foreign market value, export value, or constructed value, and excludes import duties, freight, insurance, and other charges incurred in moving the commodity to the U.S. port.

Imports similar to agricultural commodities produced commercially in the United States and others that are interchangeable in use to any significant extent with such U.S. commodities are termed supplementary or partly competitive. All other commodities are considered complementary or noncompetitive.

In commodity-by-country data (table 18), 7-digit TSUSA commodity codes were summed to group totals. Countries listed under each group accounted for 0.3 percent or more of the commodity group's import value with the following exceptions: Bananas, green coffee, cocoa beans, crude rubber, pork, and raw sugar were listed if they accounted for 0.1 percent or more.

What's Our Fair Share?

Oil Money Spurs Food Imports. . .

At $24 billion, there's a profitable and growing food import market in the oil exporting nations of North Africa and the Middle East. But, Agriculture Department economists say U.S. exporters have missed the boat.

Oil money and profitable investments have spurred food demand in the eight-country area, but the U.S. share of that region's food imports has dropped from 22 percent in 1974 to less than 6 percent in 1982.

A new Economic Research Service report projects import demand for about 80 commodities for Algeria, Libya, Saudi Arabia, United Arab Emirates, Qatar, Kuwait, Iraq, and Iran. It explores U.S. chances for capturing a bigger share of the grain, livestock, oilseed, and high-value product market.

HOW TO ORDER

Ask for **Food import Demand of Eight OPEC Countries** *(FAER-182), 112 pp., GPO stock number 001-000-04336-6.*

Write to Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Make your check or money order for $5.00 payable to SupDocs. You can charge your order to VISA, MasterCard, or to a GPO deposit account; call GPO's order desk at (202) 783-3238. Bulk discounts available.
