A grant of Rs. 7,892.62 was received from the Research Programmes Committee of the Planning Commission for preparation of research papers forming the basis for a Seminar on "Farm Production Planning & Programming." The papers have been submitted to the Research Programmes Committee of the Planning Commission for approval for publication.

5. *International Association of Agricultural Economists :*

Professor D. G. Karve continued as the Regional Secretary for Asia of the International Association of Agricultural Economists. The office work in connection with this assignment of his was attended to by the Office of the Society.

The Twelfth International Conference of Agricultural Economists is proposed to be held in France from August 24th to September 3rd, 1964.

6. *Publications :*

6.1. *The Indian Rural Problem :*

The Society published in November, 1960, the fifth Edition of "The Indian Rural Problem" by Sir Manilal B. Nanavati and Shri J. J. Anjaria. All (2000) copies have been sold out and a manuscript of a thoroughly revised 6th Edition is being sent to the press. Sixteen Scholars have collaborated in the preparation of the revised Edition. Our thanks are due to all these Scholars.

6.2. *Rural Sociology in India :*

The Society published in 1961, the 3rd Revised and Enlarged edition of "Rural Sociology in India" by Dr. A. R. Desai. Most of the copies have been sold out and the proposal for publication of a further edition of this book is under consideration.

6.3 *Report on Seminar on Problems of Farm Production Planning & Programming :*

In collaboration with the Directorate of Economics & Statistics, Ministry of Food & Agriculture, the Society organised a Seminar on "Problems of Farm Production Planning and Programming"

* He regretted his inability to accept the appointment.

from 23rd July to 2nd August 1962 at Vigyan Bhavan, New Delhi. Fifteen papers were received and discussed at the Seminar. Editing work of the Seminar Report is completed and the manuscript based on the papers and proceedings has been sent to the Press.

A grant of Rs. 10,217 was sanctioned by the Ministry of Food & Agriculture for this purpose.

6.4. *Increasing Income and Production in Indian Farming:*

A Research Study on "Increasing Income and Production in Indian Farming—Possibilities with Existing Resource Supplies on Individual Farms" by Dr. D. K. Desai has been published. This publication is offered to the Members of the Society at a (25%) concessional price.

6.5. *Studies in Indian Agricultural Economics :*

Members are aware that on the occasion of the Tenth International Conference of Agricultural Economists held at Mysore in August 1958, the Society published a Volume entitled "Studies in Indian Agricultural Economics." The first edition has been sold out and it has been decided to bring out a second revised edition. The work in connection with this revision is in progress.

7. *World Agricultural Economics and Rural Sociology Abstracts:*

Since 1958 the Society has been preparing brief summaries of books and articles published in India, covering agricultural economics in its broadest sense including rural sociology, on behalf of the above quarterly Journal published by the International Association of Agricultural Librarians and Documentalists in co-operation with the International Association of Agricultural Economists. Four quarterly abstracts were prepared and sent to the Editorial Office of the Association during the year.

8. *Information on Research Work :*

In 1962 the Society undertook collection of information about research work on agricultural economics completed or in progress. Research institutions and research workers have given full co-operation in this work. The information will be included in the October-December 1963 issue of the Journal which is due to be out next month.

9. *Seminars :*

During the year, the Society held two Seminars at Matheran : one on 'Marketing of Agricultural Commodities' from 3rd to 5th November 1963 and the other on "Farm Production Planning & Programming" from 6th to 8th November 1963. The latter Seminar was a follow-up to the Seminar on "Problems of Farm Production Planning and Programming" held at New Delhi in July-August 1962. Seventeen Papers were received for the Marketing Seminar and 5 for the Farm Production Seminar. For each Seminar, one paper was prepared by the staff of the Society. About 30 senior agricultural economists, research workers and experienced administrators participated in the Seminars. I am happy to say that all participants were very well impressed by the quality of discussions as well as the arrangements made for the Seminars. It is proposed to publish the Papers and proceedings of both the Seminars.

10. *Library :*

The Society's library continues to grow. The library regularly receives 130 periodicals of which 61 are foreign journals. All but 5 of these 130 periodicals are received on gift or exchange basis. During 1963 two new journals have been added on gift basis and five on exchange basis.

An index of important articles on agricultural economics continues to be prepared every quarter since January 1961. Important articles on agricultural economics from 85 periodicals are being indexed and classified subject-wise. Copies of this index are supplied to members as also research workers and institutions on request. Eleven issues of the quarterly index have been brought out and circulated to 55 members on the mailing list. Many members as also non-members have found this service helpful.

The Library also continues to provide useful reference facilities to many Government and Semi-Government institutions, students and staff members of the Bombay University and some city colleges and research institutions. Approximately 1800 books and 1000 journals were issued during the year.

11. *Revision of the Constitution :*

During the last few years, the magnitude as well as the variety of the Society's work has grown considerably and the present Constitution is found to be inadequate for the efficient and expeditious

discharge of the responsibilities placed on the Office-bearers. The General Body at its meeting held at Ahmedabad on the 28th December 1962 therefore decided to form a Committee to recommend revision of the Constitution of the Society and authorised the President to nominate the members of the Committee. The following members were nominated :-

1. Sir Manilal B. Nanavati—Chairman
2. Shri S. C. Chaudhri
3. Shri V. M. Jakhade

The recommendations of the Committee in the form of a revised draft of the Constitution, with such amendments as the Executive Committee may suggest will be placed before the General Body for its consideration and adoption.

12. *Membership :*

Members may recall that at the last Annual General Meeting, a decision was taken to make a serious effort to increase the membership of the Society. Accordingly an intensive membership drive was planned and 24 Zonal representatives were appointed for the purpose. I am happy to report that the results have been good. The ordinary membership of the Society increased from 511 at the beginning of the year to 610 as at the end of November 1963 with 157 new members added against 58 who dropped out. Last year we had added 97 new members. The Society has now 43 Donor Members, 12 Honorary Members, 21 Life Members and 610 Ordinary Members, bringing the grand total of all members to the figure of 686.

13. *Accounts :*

The Balance Sheet and Income and Expenditure Account for the year 1962-63 have been published in the July-September, 1963 issue of the Journal. I take this opportunity to convey our grateful thanks to Messrs. Dalal & Shah, Auditors & Chartered Accountants, Bombay, who were good enough to act as Honorary Auditors of our Society for this year also.

14. *Grants :*

14.1. We are very happy to report that the Council on Economic and Cultural Affairs, Inc., New York (now known as The Agricultural Development Council, Inc.) has sanctioned a grant of $ 25,000 a year for a three-year period to enable our Society to promote a programme for strengthening research competence in the field of agricultural economics particularly in agricultural colleges and universities in India. I take this opportunity to convey our grateful thanks to the Board of Trustees of The Agricultural Development Council, Inc., New York, for sanctioning this generous grant to us.

14.2. Since 1953-54 the Society has been receiving from the Ministry of Food and Agriculture of the Government of India an annual grant. The grant which was Rs. 20,000 in the beginning was raised to Rs. 50,000 in 1955-56. For the year 1962-63, a grant of Rs. 50,000 was sanctioned subject to the following terms :

(a) Grant on the item 'salaries' will be limited to 25% of the total salaries bill or a maximum of Rs. 10,000 per annum;

(b) actual expenditure provided for prizes, library books, conference and seminars; and

(c) 75% of the expenditure on printing of the Journal and other publications subject to a maximum of Rs. 25,000 per annum.

As a result of the strict application of the above formula, we have been informed by the Ministry that we will be entitled to receive an amount equivalent to Rs. 27,593.04 instead of Rs. 50,000 for the year 1962-63.

It is obvious that a major item of expenses of a Society like ours is that of salaries particularly of the research staff. It is not possible for such a Society to meet as much as 75% of its expenditure on salaries from net receipts from membership fees and publications. The cut in the Ministry's grant will severely handicap the progress of the Society. We propose to approach the Ministry of Food & Agriculture for a reconsideration of its decision and restoration of the full grant. We do hope, they will comply with our request.

15. *Additional Staff :*

It has been necessary to appoint additional research staff so as to cope up with the growing volume and variety of the Society's work without putting an unduly heavy pressure on the Honorary

office-bearers. It was decided to appoint one Director of Research and one Research Officer. Difficulties were and are being experienced in getting suitable persons. We have however succeeded in securing the services of a suitable person for the post of Deputy Director of Research and we are trying to get a suitable person for the post of Research Officer.

16. It is a matter of gratification that the Society continues to receive whole-hearted help, guidance and co-operation from a large number of very competent persons who serve in an honorary capacity. The Society records its grateful thanks to the Members of the Executive Committee, Members of the Editorial Board of the Journal, Members of the Research Programmes Committee and all others who have rendered valuable services to the Society during the year.

17. Finally, on behalf of all of us, I extend sincere thanks to all members of our staff for the efficiency and loyalty which they have shown in the discharge of their duties.

G. B. KULKARNI
Honorary Secretary and Treasurer.
