California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

El Dorado County

1982-1989

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,
<http://giannini.ucop.edu/>.

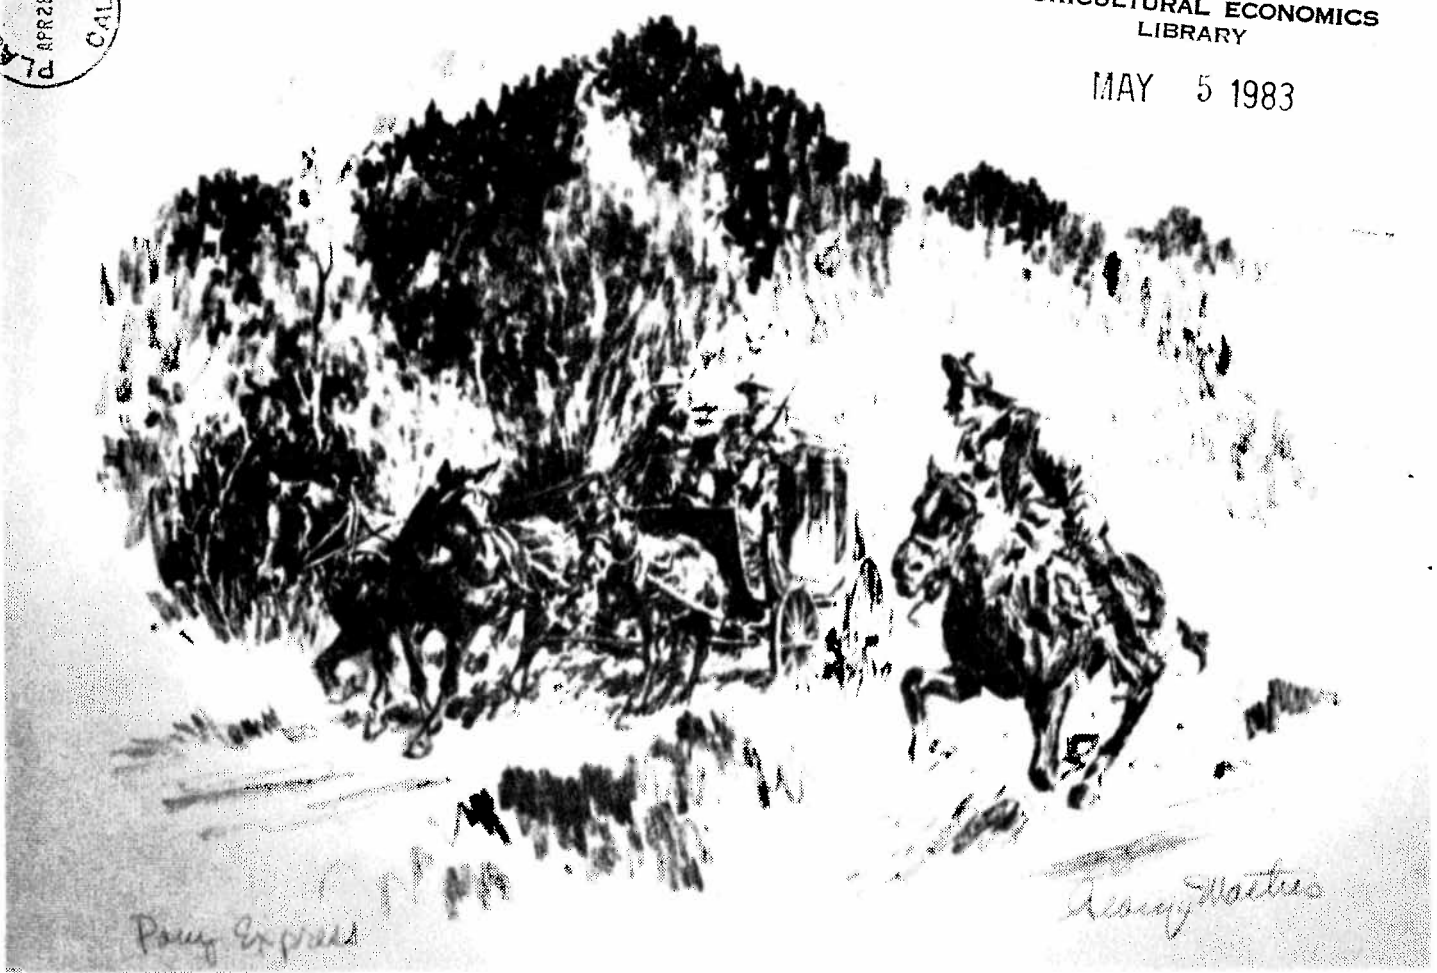

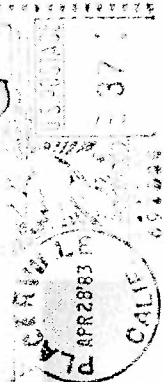

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/>. **Please contact the Library to consult the originals.**

CROP REPORT

Department of Agriculture

PLACERVILLE, CALIFORNIA 95667

March 22, 1983

Mr. Clare Berryhill, Director
California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Thomas L. Stewart, Chairman
W. P. "Dub" Walker
Joseph V. Flynn
Robert E. Door
Patricia Lowe

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California Agricultural Code, I hereby submit the 1982 El Dorado County Crop Report.

The gross agricultural value for 1982 is 23,723,300, a decrease of \$10,708,200 from the gross income reported in 1981. The primary reason for this decrease is that the timber industry, due to a lagging economy, is suffering a severe depression.

The County's grape and fruit industries are expanding with the exception of pears. The County's grape industry at present has over 600 acres planted to grapes with eight wineries now functioning within the County. Some of the wineries have wine tasting facilities, with more wineries anticipating the operation of these facilities for fiscal year 1983-84. The wineries with the tasting rooms are complementary to the County's booming ranch marketing program and are blending extremely well with the recreational and agricultural industries in the County. Ranch marketing activities within the County are expanding beyond the traditional Apple Hill marketing area. Enough agricultural activity is now occurring on the western slope of El Dorado County to cause the Agricultural Council of the County Chamber of Commerce to consider a ranch marketing and recreational promotional program for this growing industry.

This report was compiled by Carl Locher, Jr., Deputy Agricultural Commissioner, El Dorado County Department of Agriculture. We would like to express our appreciation to the many individuals and organizations that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

CROP REPORT

Department of Agriculture

PLACERVILLE, CALIFORNIA 95667

March 27, 1984

Director Clare Berryhill, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Patricia Lowe, Chairman
W. P. "Dub" Walker
Joseph V. Flynn
Thomas L. Stewart
Robert E. Dorr

Dear Director and Board Members:

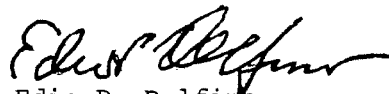

In accordance with provisions of Section 2279 of the California Agricultural Code, I hereby submit the 1983 El Dorado County Crop Report.

The gross agricultural value for 1983 is \$27,765,800. An increase of \$4,038,000 can be primarily attributed to timber and timber by-products, Christmas trees, and miscellaneous agricultural products. The County pear industry's gross income was severely reduced by a poor crop and poor prices.

The County's grape and fruit industries are continuing to expand; however, at a slower pace than in 1982. There are nine wineries now functioning within El Dorado County, most of which have wine tasting facilities at their winery sites. El Dorado County wines are gaining worldwide recognition due to their exceptionally fine varietal wine qualities. Ranch marketing activities within the County are expanding beyond the traditional Apple Hill marketing area with particular emphasis in the Somerset area. The Agricultural Council of the Chamber of Commerce is developing a ranch marketing and recreational promotional program for these growing industries.

This report was compiled by Carl Locher, Jr., Deputy Agricultural Commissioner, El Dorado County Department of Agriculture. We would like to express our appreciation to the many individuals and organizations that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

Ag. Comm

1984
Agricultural
CROP REPORT

Department of Agriculture

PLACERVILLE, CALIFORNIA 95867

March 26, 1985

Director Clare Berryhill, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Robert E. Dorr, Chairman
Patricia R. Lowe
James R. Sweeney
Joseph V. Flynn
Thomas L. Stewart

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California Agricultural Code, I hereby submit the 1984 El Dorado County Crop Report.

The gross agricultural value for 1984 is \$28,121,500 -- an increase of \$225,000. The increase is primarily attributed to the livestock and poultry industries. The County's apple industry was severely affected by weather and reflected a million dollar plus reduction in gross income. Growers are continuing to remove pear orchards and replacing them with other agricultural crops.

The County's wine, grape and fruit industries continue to expand. The countywide ranch marketing program achieved moderate success during 1984. Interest for this program is increasing throughout the western slope of the County. The Somerset and Georgetown areas are becoming more aggressive in developing ranch marketing programs similar to that in Apple Hill. The Agricultural Council of the El Dorado County Chamber of Commerce is continuing to serve as the focal point for a countywide marketing program. It is anticipated that by the end of 1985 this program will have developed sufficient strength to proceed with its own Board of Directors.

This report was compiled by Carl Locher, Jr., Deputy Agricultural Commissioner, El Dorado County Department of Agriculture. We would like to express our appreciation to the many individuals and organizations that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

CROP REPORT

Department of Agriculture

PLACERVILLE, CALIFORNIA 95667

March 26, 1986

Director Clare Berryhill, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Joseph V. Flynn, Chairman
Robert E. Dorr
Patricia R. Lowe
James R. Sweeney
Thomas L. Stewart

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California
Agricultural Code, I hereby submit the 1985 El Dorado County Crop
Report.

The gross agricultural value for 1985 is \$33,774,300 -- an increase of
over \$5,500,000. The increase is primarily attributed to the fruit and
nut crop industries. The County's apple industry produced a record
crop of over 16,000 tons. The pear industry income was also boosted
with a price of \$216.00 per ton for cannery fruit. The County's fruit
and nut crops are continuing to change with reductions in pear acreage
and an increase in other fruit acreage.

The County's roadside marketing program is continuing to expand
throughout the County. The ranch marketing program sponsored by the
Agricultural Council, El Dorado County Chamber of Commerce continued to
be successful during the 1985 season. Interest in this program is
increasing throughout the western slope of the County -- groups have
developed in the Georgetown and Gold Hill areas.

The monetary values recorded in this report are F.O.B. the plant and do
not reflect net returns or profits realized by the grower.

This report was compiled by Carl Locher, Jr., Deputy Agricultural
Commissioner, El Dorado County Department of Agriculture. We would like
to express our appreciation to the many individuals and organizations
that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

**Agricultural
CROP REPORT**

Department of Agriculture
PLACERVILLE, CALIFORNIA 95667

March 24, 1987

Director Clare Berryhill, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
James R. Sweeney, Chairman
Robert E. Dorr
Patricia R. Lowe
Michael visman
John Cefalu

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California
Agricultural Code, I hereby submit the 1986 El Dorado County Crop
Report.

The gross agricultural value for 1986 is \$36,798,200 -- an increase of
approximately 3,000,000. The increase is directly attributed to an
additional \$5,000,000 in the timber industry. The fruit industry reflects a
\$2,000,000 decrease, primarily because of a short crop. Livestock and
poultry have remained constant. The County's fruit and nut industry are
continuing to change and expand. The pear industry continues to decrease in
acreage and production.

The County's roadside marketing program is continuing to expand throughout
the County. The ranch marketing program sponsored by the Agricultural
Council, El Dorado County Chamber of Commerce is also expanding rapidly.
This ranch marketing program, coupled with the recreational industry, is
proving to be extremely beneficial to the County's economic base.
Interest in this program continues to increase throughout the western slope
of the County.

The monetary values recorded in this report are F.O.B. the plant and do
not reflect net returns or profits realized by the grower.

This report was compiled by Carl Locher, Jr., Deputy Agricultural
Commissioner, El Dorado County Department of Agriculture. We would like
to express our appreciation to the many individuals and organizations
that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

Agricultural CROP REPORT

Department of Agriculture

PLACERVILLE, CALIFORNIA 95667

OFFICE
311 FAIR LANE
TELEPHONE 628-2305

April 12, 1988

Director Jack C. Parnell, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Partricia R. Lowe, Chairman
John Cefalu
Robert E. Dorr
James R. Sweeney
Michael Visman

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California
Agricultural Code, I hereby submit the 1987 El Dorado County Crop
Report.

The gross agricultural value for 1987 is \$35,318,300 -- a decrease of
approximately \$1,000,000. The decrease is a result of lower gross
income for cattlemen and a reduced timber harvest on both private and
government timberlands. The fruit industry reflected a \$1,000,000
increase primarily because of a large apple crop and expanding dry
varietal wine grapes and cherry industries. The pear industry continues
to decrease in acreage and production. 1987 was the first year that
some plum and pear growers experienced RED INK. "Red ink" is a term
used when a grower's crop is packed and shipped and returns less money
than the costs incurred in the packing and shipping of that product. In
other words, the grower receives a bill for his crop instead of a check.

The County's roadside marketing program continues to expand throughout
the County. A few roadside marketing operations are now opening in June
with cherries and closing in March with stored apples. The wine
industry in El Dorado County now boasts of 14 wineries, most of which
are open weekends throughout the year. El Dorado County's ranch
marketing program, coupled with the recreational industry, is continuing
to expand its contribution to the County's economic base. Interest in
the ranch marketing program continues to increase throughout the western
slope of the County.

The monetary values recorded in this report are F.O.B. the plant and do
not reflect net returns or profits realized by the grower.

This report was compiled by Carl Locher, Jr., Deputy Agricultural
Commissioner, El Dorado County Department of Agriculture. We would like
to express our appreciation to the many individuals and organizations
that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

Agricultural

El Dorado County **CROP REPORT**

April 26, 1989

Director Jack C. Parnell, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
Robert E. Dorr, Chairman
Patricia Lowe
John Cefalu
James R. Sweeney
Michael Visman

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California
Agricultural Code, I hereby submit the 1988 El Dorado County Crop
Report.

The gross agricultural value for 1988 is \$37,369,600, and increase of
approximately \$2,051,300. The increase is accredited to livestock and
poultry production, and timber sales. The fruit industry, because of
adverse weather conditions and alternate bearing on apples, recorded a
decrease of \$2,000,000.

The County's roadside marketing program continues to expand with more
agricultural production acres devoted to this industry. More roadside
marketing programs are opening earlier in the spring and closing later in
the winter.

The County's wine industry continues to attract state and national
interest, and more of the County's agricultural lands are being sold for
the express purpose of grape and wine production.

The monetary values recorded in this report are F.O.B. the plant and do
not reflect net returns or profits realized by the grower.

This report was compiled by Carl Locher, Jr., Deputy Agricultural
Commissioner, El Dorado County Department of Agriculture. We would like
to express our appreciation to the many individuals and organizations
that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner

Director Henry Voss, California Department of Food and Agriculture
and the
El Dorado County Board of Supervisors
John Cefalu, Chairman
Robert Dorr
Patricia Lowe
James Sweeney
Gene Chappie

Dear Director and Board Members:

In accordance with provisions of Section 2279 of the California Agricultural Code, I hereby submit the 1989 El Dorado County Crop Report.

The gross agricultural value for 1989 is \$44,764,100, an increase of approximately \$7,500,000. The increase is credited to the fruit and nut industry and timber sales. The fruit and nut industry increase is attributed to a large 1989 crop and new agricultural crops.

The County's roadside marketing program is continuing to expand. Of particular interest, is that a county-wide marketing organization is being formed patterned after Apple Hill. It is the goal of this organization to promote ranch marketing county-wide with distinctive routes to better identify this growing industry.

The County's wine industry continues to grow in production and the wines produced from this industry are being recognized as premium dry wines by the wine trade.

The monetary values records in this report are F.O.B. the plant and do not reflect net returns or profits realized by the grower.

This report was compiled by Carl Locher, Jr., Deputy Agricultural Commissioner. We would like to express our appreciation to the many individuals and organizations that contributed information to make this report possible.

Sincerely,

Edio P. Delfino
Agricultural Commissioner
