1971 SUMMARY OF FEDERAL MILK ORDER MARKET STATISTICS

Federal milk marketing orders are established under the authority of the Agricultural Marketing Agreement Act of 1937, as amended. The Secretary of Agriculture is authorized by this statute, under certain conditions and with producer approval, to issue milk marketing orders which require handlers to pay at least the minimum specified prices for milk purchased from producers. The complete orders are published in the United States Code of Federal Regulations, Parts 1,000 to 1,199.

This is an annual summary of statistical data published in a monthly report which also is entitled, "Federal Milk Order Market Statistics." These data have been compiled from reports made by market administrators who administer these orders in the respective markets. The data for 1971 are preliminary; those for 1970 are revised.

Similar data for the 1947-70 period may be found in the following publications:

1/ Revised data for 1969 and preliminary for 1970.

2/ Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders. In most States, yearly deliveries are estimated from the deliveries in one month, therefore, yearly estimates may be slightly overstated or understated.

3/ Computed from data contained in "Milk Production, Disposition, and Income," 1969-70, "Minnesota Dairy Summary," issue #247, and "Wisconsin Agricultural Statistics," 1971 issue #200-71.

4/ Percentage Federal order deliveries are of milk sold to plants and dealers that is eligible for fluid use ("Grade A" in most States).

5/ Not published to avoid disclosing individual operations for manufacturing grade milk.

Footnotes for Table 44.

1/ In-area sales represent total fluid sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

2/ Totals for individual items are not necessarily the sum of the individual markets' data due to combining of restricted data in individual markets.

3/ Represents all Federal milk order markets in effect as of December 31, 1971 except New York-New Jersey, Upstate Michigan, Fort Smith, and Western Colorado.

4/ Sales by New York-New Jersey regulated handlers inside the marketing area. Data represent sales for the months of January and February only.

5/ Includes small quantities of whole milk equivalent of concentrated milk.

6a/ Includes flavored whole milk; 6b/ Includes plain lowfat and skim milk; 6c/ Includes eggnog.

7/ Included with buttermilk.

8/ Annual sales represent the area after the merger and expansion of Delaware Valley, Upper Chesapeake Bay, and Washington, D.C., August 1, 1970; and Tri-State, Cincinnati, Columbus, Miami Valley, and Northwestern Ohio, August 1, 1970.

9/ Included with skim milk, plain.

10/ Included with skim milk, solids added.

11/ Included with buttermilk.

12/ Included with heavy cream.

13/ Included with lowfat (2%) milk, solids added.

14/ Annual sales represent the area as defined after October 1, 1970, Eastern Ohio-Western Pennsylvania; and January 1, 1971, Central Illinois.

15/ Less than 0.05 thousand pounds.

16/ Included with mixtures.

17/ Included with sour cream.
