# SYNDICATE BANK

## A PIONEER

The **Syndicate Bank** has been a pioneer in extending several types of banking services, and agricultural finance is one amongst them. By providing medium and short term finance in selected areas to meet the needs of the farmers and expert technical advice through its Farm Representatives, it has helped to increase crop yields.

The **Syndicate** has worked with a socialistic purpose from inception and **no man is too small for a Bank account—whether for a deposit or a loan—has been its motto.**

Every Man's Bank for Every Banking Need

## TOWARDS FULL EMPLOYMENT

Unemployment is now as big a problem for most of the world as it was in the 1930's.

This is the programme for eliminating unemployment drawn up by an International team of 27 development specialists.

This pilot mission sent to Colombia, at the invitation of President Carlos Lleras Restrepo, prepared—with the UN and the help of 11 other international agencies—this thought-provoking report which forms part of the World Employment Programme launched by the ILO last year.

# WORLD ATLAS OF AGRICULTURE

The World Atlas of Agriculture under the aegis of the International Association of Agricultural Economist is to present for the first time by means of medium-scale maps on a uniform basis, a view of agricultural resources and conditions covering all the inhabited land. It is a timely and indispensable undertaking and must rank not only as a major contribution to our knowledge but also as a tangible reminder of what can be achieved through international cooperation. The Atlas should be of special interest to the many thousands of laymen who need to be informed, and at the same time a source of information and guidance to public administrations, industries. banks, universities, research institutes, scientists, agricultural economists, in general to all public or specialized librairies and to those responsible for policy in promoting food supplies and above all in their effective distribution among under-nourished populations.

■

The World Atlas of Agriculture comprises **four volumes of monographs** format 24 x 34 cm, pellior bound with gold imprint. 500 pages circa per volume illustrating for each state or territory: physical environment and communications; main features of population; exploitation of resources, ownership and land tenure; land utilization; crops and animal husbandry; agricultural economy. Several statistical tables and numerous drawings illustrating natural regions, rainfall, population density, main agricultural products and animal husbandry, land tenure and types of farming. **An Atlas** format 34 x 48 cm, loose leaf binding, pellior cover with gold imprint. 62 full size 8-colour plates – 246 pages – 8 page introduction 20 colour tones corresponding to types of vegetation or cultivation and variously coloured symbols denoting special cultivations. The Atlas is composed by four series of maps. Each series will be enclosed with the volume of monographs to which it appertains.
The volumes appear as per the following publication schedule: **1st volume** – Europe-U.S.S.R.-Asia Minor – published in May 1969, **2nd volume** – Americas – published in July 1970, **3rd volume** – South and East Asia-Oceania – to be published in February 1971 and **4th volume** – Africa – to be published in March 1972.

provides the comprehensive coverage of world literature essential for all those concerned with agricultural research, policy, or advisory services and for all specialized agricultural and economic libraries. Each quarterly number includes more than 1,000 abstracts classified in ten sections :

**Policy (International, National and Regional, Agrarian Reform, Land Use, etc.)**
**Supply, Demand and Prices**
**Marketing**
**International Trade**
**Finance**
**Production Economics (Land, Labour, Capital and Other Inputs, Management and Planning)**
**Co-operatives and Collectives**
**Education, Advisory Services and Research Institutions**
**Rural Sociology**
**Research Methods**

Current author, subject and geographical indexes in each number make it simple to locate references by subject, product or country. Titles are in the original language and English and full bibliographical data are included. Periodic review articles on specialized subjects provide informative surveys and comprehensive bibliographies of world literature. Recent articles still available as offprints have dealt with : The Adoption and Diffusion of Agricultural Practices; The Evaluation of Extra-Market Benefits; The Growth of Work Study and Allied Techniques in Agriculture; Human Factors and Farm Management; Social and Economic Development in Chinese Communist Agriculture; Organization and Planning in Soviet Agriculture.

Heavy subsidies contributed by Governments of the British Commonwealth and the Republic of Ireland have kept subscriptions down to £5.15s. per year for subscribers in contributing countries and £11.5s. ($29.50) for those in other countries.

# GUIDELINES FOR SUBMISSION OF PAPERS BY AUTHORS

**1. Subjects:** The objective of the *Journal* is to provide a forum for dissemination and exchange of findings of research on agricultural economics. Purely descriptive material is not appropriate for such a journal. Papers dealing with *(i)* new developments in research and methods of analysis, or *(ii)* which apply existing empirical research methods and techniques to new problems or situations, or *(iii)* which attempt to test new hypotheses/ theoretical formulations or modifications of existing theories or policies to explain economic phenomena especially in the Indian context, or *(iv)* papers based on research done by the authors bringing out new facts or data presented in an analytical frame will be preferred. Younger economists are advised to seek guidance from their seniors in the preparation of the paper for the *Journal.* A one-page statement indicating the author's own assessment of the importance and relevance of the findings reported in his paper in the context of recent researches would be welcome.

**2. Size of Paper : In view of the exorbitant increase in the cost of printing, it has become necessary to restrict the length of the papers accepted for publication to 20 (double space) typed pages (of the size 8½-by-11 inches) including tables and appendices (with margins on all sides of at least 1½ inches). Papers exceeding this size limit will be returned to the authors. The authors may however send along with their papers such "supporting material" as may be of help to the referees in evaluating them. Abstracts not exceeding 100 words should be submitted in duplicate along with the paper.**

**3. Copies :** Two copies of each paper should be submitted along with a processing fee of Rs. 15/- either by M.O. or crossed I.P.O. ($ 4.00 or £ 2.50) drawn in the name of the Indian Society of Agricultural Economics, to meet partly the postage and other incidental charges.

**4. Author's identification :** To protect the anonymity of authors while referring the Papers for expert opinion on their merits, authors are advised to avoid disclosing their identity in the text and to attach a separate page showing the name(s) and affiliation(s) of the author(s) along with any footnotes containing bibliographical information or acknowledgements.

**5. Mathematical notations :** Only essential mathematical notations may be used; it is prohibitively costly to typeset such notations. All statistical formulae should be neatly typed.

**6. Figures-Charts and Tables :** Professional assistance should be availed of while presenting figures and charts. They should be drawn in black ink which can be easily reproduced by photographic process. Typescript is not suitable for reproduction. Roman numerals may be used for tables.

**7. Footnotes :** Footnotes should be numbered consecutively in plain arabic superscripts.

**8. References and citations :** Only cited works should be included in the reference list. Please follow the style of citations as in previous issues of this *Journal.*

**9. General :** While sending papers the authors should state that the material has not been published elsewhere or is not being published or being considered for publication elsewhere.

**10. Reprints :** Ten free reprints of the paper would be given to the author; additional reprints, if required, are supplied at cost which may be ascertained from the Editor.
