The Giannini Foundation Information Series publishes items of timely interest for specific readerships. The Series was initiated in 1963. Reports are numbered serially within years. In 1978, the Information Series was incorporated into the University of California, Division of Agricultural Sciences Bulletin Series and that practice continued through 1983. The Information Series is once again issued solely by the Giannini Foundation. Reports are no longer Bulletins though they continue to be identified with the University's Division of Agriculture and Natural Resources. Single copies of this report may be requested from Agriculture and Natural Resources Publications, 6701 San Pablo Avenue, Oakland, CA 94608.

Other publications of the Foundation and all publications of Foundation members are listed in the Giannini Reporter issued periodically.
