Order from Food Research Institute

PORTUGAL AND AFRICA, 1815-1910

R. J. Hammond \$8.50

A narrative and interpretive history with chief emphasis upon the period 1870-1910. The present volume is the first in English to relate events in Portugal itself to developments in Portuguese Africa. It strives to make intelligible the Portuguese view on imperial questions, a matter that has generally been neglected except by Portuguese historians. In doing so, it affords a fresh view of British, as well as Portuguese, policy during the heyday of European expansion in Africa.

THE PAPALOAPAN PROJECT: AGRICULTURAL
DEVELOPMENT IN THE MEXICAN TROPICS

Thomas T. Poleman \$4.50

"a thoroughly documented and convincing analysis of the first major attempt by a Latin American government to solve the pressing man/land relationship problem through a large-scale combined reclamation, agriculture, and colonization effort."—*Hispanic American Historical Review*.
