INVESTIGATING FOOD SAFETY

Contents

The *National Food Review* is published quarterly by the Commodity Economics Division, Economic Research Service, U.S. Department of Agriculture.

The Secretary of Agriculture has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this Department. Funds for printing this publication have been approved by the Director of the Office of Management and Budget.

Contents of the *National Food Review* may be reprinted without permission. The use of commercial or trade names does not imply approval or constitute endorsement by USDA or ERS. The views in this issue are those of the authors and do not necessarily represent those of USDA or the Office of Management and Budget.

Subscriptions are \$10.00 a year to U.S. addresses (\$12.50 foreign). Multi-year subscriptions are also available. For fast service, call toll free 1-800-999-6779 (8:30 am to 5:00 pm ET) and charge your order to Visa or MasterCard. To order by mail, send your check or money order payable to ERS/NASS to: ERS/NASS, Box 1608, Rockville, MD 20850. Please include your complete address and daytime telephone. Refunds cannot be issued.

Investigating Food Safety

- | | |
|----|--|
| 1 | The Economics of Food Safety
Scientific developments are changing knowledge about food safety. |
| 9 | Consumer Demand for Safer Foods
Americans are concerned about food safety and are willing to spend more for safer food. |
| 12 | Changing Pesticide Regulations: A Promise for Safer Produce
EPA and FDA share responsibility for regulating pesticide residues in fruits and vegetables. |
| 17 | The Food Industry Responds to Consumers' Pesticide Fears
Private residue testing, organic food sales, and public education campaigns are being used. |
| 21 | Livestock Hormones in the United States
Hormones are widely used in beef production. |
| 25 | Regulating Food Safety: The Case of Animal Growth Hormones
Previous food safety issues are influencing the debate over animal growth hormones. |
| 31 | Safe Meat and Poultry
FSIS conducts meat and poultry inspections, and educates the public about food safety. |
| 34 | The European Ban on Livestock Hormones and Implications for International Trade
Differences in U.S. and EC beef production have helped to intensify the dispute over hormones. |
| 37 | Harmonizing Food Safety and Other Health-Related Regulations for Agricultural Trade
A U.S. goal in current GATT negotiations is to eliminate the illegitimate use of health regulations. |
