# SOUTHERN JOURNAL OF AGRICULTURAL ECONOMICS

## Guidelines for Submission of Manuscripts

Articles are reviewed on a continuous basis. Only manuscripts that closely adhere to the following established guidelines will receive prompt and favorable attention by our Editorial Council.

1. **COVER LETTER.** Indicate why you believe the material would interest SOUTHERN JOURNAL readers and whether the material has been presented, offered for publication, or published in a similar form elsewhere.
2. **LENGTH.** No page limit is imposed. Article should be written in a clear and concise manner.
3. **THE JOURNAL** uses a system of blind reviews. Thus all papers should have a cover page attached with the name of the authors, acknowledgments and institutional information. The paper itself *should not* show the identity of the author.
4. **TYPING.** All material should be double-spaced, including footnotes, quotations, references, and tables. Type on 8½ by 11 inch standard weight paper with at least 1¼ inch margins on all sides.
5. **STYLE.** Consult a 1980 issue of this JOURNAL. Be consistent.
6. **MATHEMATICAL NOTATIONS.** Use standard type to maximum extent. Overuse of mathematical symbols often limits readership and is costly to typeset. Where such notation is essential, use separate characters for superscripts and subscripts, avoid capital letters in superscripts and subscripts, and use asterisks, primes, and small English letter subscripts as substitutes for overbars, tildes, carets and the like.
7. **FOOTNOTES.** Number consecutively throughout paper. On a separate page following the article, list the number footnotes. Footnotes should be only explanatory, never for citations or directives to other literature. Reference citations must be incorporated into the text.
8. **REFERENCES.** Place all references, alphabetized by author, in a list at the end of the paper entitled "References." Only cited works should be included in the reference list. All citations should appear in the text and contain the author's name and page numbers, when necessary. Citations can be inserted parenthetically, e.g., (Doe) or (Doe, p. 5). Specify the date of publication if the same author appears more than once in the reference list, e.g., (Doe 1971, p. 5). If the author's name appears as part of the sentence, a parenthetical reference is unnecessary unless you need to cite page numbers or a date.
9. **TABLES.** All tables are photographed, rather than typeset, and should be double-space typed (if possible) on a separate page. Clear copy must be assured. Omit vertical rules. Titles should be in all caps, starting from left margin, and completely convey information in the Table (see a recent JOURNAL issue). Omit periods at end of title. Use small English letters if explanatory footnotes are necessary. The printer will make any necessary reductions.
10. **CHARTS AND FIGURES.** These are also photographed, requiring the same precautions as item No. 9. Prepare Charts and Figures on separate white pages, with a dark ink. Clean paste-ups are permissible.
11. **COPIES.** Send three clean copies (all may be good Xerox). Authors should assure maximum readability and completeness in all copies. Critical reviews by colleagues should always be made before submission.
12. **ABSTRACT.** An abstract not to exceed 100 words should be attached as the first page of each manuscript copy at the time of initial submission, DO NOT identify the authors on the abstract.
13. **MAILING.** Send manuscripts to the Editor via first class mail.
