# Water - Energy - Food Nexus Narratives and Resource Securities

A Global South Perspective

Edited by  
Tafadzwa Mabhaudhi, Aidan Senzanje,  
Albert Modi, Graham Jewitt, Festo Massawe

# Contents

|                           |      |
|---------------------------|------|
| <b>CONTRIBUTORS</b> ..... | xiii |
| <b>FOREWORD</b> .....     | xvii |

|                  |  |    |
|------------------|--|----|
| <b>CHAPTER 1</b> | The water–energy–food nexus: its transition into a transformative approach.....  | 1  |
|                  | Sylvester Mpendeli, Luxon Nhamo, Aidan Senzanje, Graham Jewitt, Albert Modi, Festo Massawe and Tafadzwanashe Mabhaudhi |    |
|                  | <b>1. Introduction</b> .....   | 1  |
|                  | 1.1 Defining the WEF nexus and nexus planning .....  | 3  |
|                  | <b>2. The evolution of nexus planning</b> .....  | 5  |
|                  | 2.1 Factors driving nexus planning use in resource management.....   | 5  |
|                  | 2.2 Nexus planning before and after 2015.....  | 7  |
|                  | <b>3. Benefits for adopting nexus planning</b> .....   | 9  |
|                  | <b>4. Concluding remarks</b> .....   | 10 |
|                  | References .....   | 10 |

|                  |  |    |
|------------------|--|----|
| <b>CHAPTER 2</b> | Some quantitative water–energy–food nexus analysis approaches and their data requirements..... | 15 |
|                  | Jafaru M. Egjeya, Johann Görgens and Neill Goosen  |    |
|                  | <b>1. Introduction</b> .....   | 15 |
|                  | <b>2. WEF resource management tools</b> .....  | 18 |
|                  | 2.1 CLEWs.....   | 18 |
|                  | 2.2 Water, Energy, Food Nexus Tool 2.0 .....   | 21 |
|                  | 2.3 REMap.....   | 22 |
|                  | 2.4 MuSIASEM .....   | 22 |
|                  | <b>3. Alternative methodologies, approaches, and frameworks</b> .....                          | 24 |
|                  | 3.1 Economic analysis models.....  | 24 |
|                  | 3.2 Environmental impact related .....   | 26 |
|                  | 3.3 Systems analysis.....  | 26 |
|                  | 3.4 Statistics .....   | 27 |
|                  | 3.5 Indicators and metrics.....  | 28 |
|                  | <b>4. Data challenges of quantitative nexus research</b> .....                                 | 28 |

|                  |   |           |
|------------------|---|-----------|
|                  | 5. Conclusions .....  | 29        |
|                  | References .....  | 29        |
| <b>CHAPTER 3</b> | <b>EO-WEF: a Earth Observations for Water, Energy, and Food nexus geotool for spatial data visualization and generation .....</b> | <b>33</b> |
|                  | Zolo Kiala, Graham Jewitt, Aidan Senzanje, Onesimo Mutanga, Timothy Dube and Tafadzwanashe Mabhaudhi                              |           |
|                  | 1. Introduction .....   | 33        |
|                  | 2. Method .....   | 35        |
|                  | 2.1 Predesign steps of EO-WEF .....   | 35        |
|                  | 2.2 Software design.....  | 36        |
|                  | 2.3 How to use the EO-WEF? .....  | 37        |
|                  | 3. Capability of EO-WEF for generating data for the different sectors of the Songwe nexus.....                                    | 39        |
|                  | 3.1 Water sector .....  | 39        |
|                  | 3.2 Climate sector .....  | 41        |
|                  | 3.3 Land sectors.....   | 41        |
|                  | 3.4 Socioeconomic, food, and energy sectors.....  | 41        |
|                  | 4. Further development.....   | 45        |
|                  | 5. Conclusion .....   | 45        |
|                  | References .....  | 45        |
| <b>CHAPTER 4</b> | <b>Scales of application of the WEF nexus approach .....</b>  | <b>49</b> |
|                  | Janez Sušnik, Sara Masia and Graham Jewitt  |           |
|                  | 1. Introduction .....   | 49        |
|                  | 2. The local scale: household to subnational .....  | 51        |
|                  | 3. The national scale.....  | 56        |
|                  | 4. Higher-level nexus studies .....   | 59        |
|                  | 5. Spatial interactions in the nexus .....  | 61        |
|                  | 6. Conclusions .....  | 62        |
|                  | References .....  | 63        |
| <b>CHAPTER 5</b> | <b>Tools and indices for WEF nexus analysis.....</b>  | <b>67</b> |
|                  | Janez Sušnik, Sara Masia, Graham Jewitt and Gareth Simpson  |           |
|                  | 1. Introduction .....   | 67        |
|                  | 2. Tools and approaches to analyze the WEF nexus.....   | 68        |
|                  | 2.1 Conceptual maps and causal loop diagrams .....  | 68        |
|                  | 2.2 System dynamics modeling.....   | 71        |
|                  | 2.3 Agent-based modeling.....   | 74        |
|                  | 2.4 (Multiregion) input–output modeling .....   | 76        |
|                  | 2.5 Life cycle assessment .....   | 77        |
|                  | 2.6 Integrated assessment models .....  | 79        |

|                  |   |            |
|------------------|---|------------|
|                  | <b>3. Indices for WEF nexus performance assessment (analysis).....</b>                | <b>81</b>  |
|                  | 3.1 Human development index.....  | 82         |
|                  | 3.2 Environmental sustainability index.....   | 82         |
|                  | 3.3 Sustainability development goals .....  | 83         |
|                  | 3.4 WEF nexus index .....   | 84         |
|                  | <b>4. Conclusions .....</b>   | <b>85</b>  |
|                  | References .....  | 85         |
| <b>CHAPTER 6</b> | <b>Transboundary WEF nexus analysis: a case study of the Songwe River Basin .....</b> | <b>91</b>  |
|                  | Sara Masia, Janez Sušnik, Graham Jewitt, Zolo Kiála and Tafadzwanashe Mabhaudhi       |            |
|                  | <b>1. Introduction .....</b>  | <b>91</b>  |
|                  | <b>2. Case study description .....</b>  | <b>92</b>  |
|                  | 2.1 The Songwe River Basin Development Programme.....                                 | 93         |
|                  | 2.2 WEF nexus analysis approach for the Songwe River Basin .....                      | 95         |
|                  | 2.3 Conceptualizing the WEF nexus in the Songwe River Basin .....                     | 96         |
|                  | <b>3. Conclusions .....</b>   | <b>106</b> |
|                  | References .....  | 107        |
|                  | Further reading.....  | 108        |
|                  | Websites .....  | 109        |
| <b>CHAPTER 7</b> | <b>Applying the WEF nexus at a local level: a focus on catchment level.....</b>       | <b>111</b> |
|                  | S. Walker, I. Jacobs-Mata, B. Fakudze, M.O. Phahlane and N. Masekwana                 |            |
|                  | <b>1. Introduction .....</b>  | <b>111</b> |
|                  | <b>2. Methodology and data .....</b>  | <b>114</b> |
|                  | <b>3. Progress with WEF nexus application at catchment level.....</b>                 | <b>117</b> |
|                  | 3.1 WEF nexus available models .....  | 117        |
|                  | 3.2 Model selection and description.....  | 119        |
|                  | 3.3 Data sources.....   | 128        |
|                  | 3.4 Spatial scale .....   | 135        |
|                  | 3.5 Time/temporal scale.....  | 135        |
|                  | 3.6 Application of models .....   | 136        |
|                  | <b>4. Way forward and conclusion.....</b>   | <b>137</b> |
|                  | Acknowledgments.....  | 139        |
|                  | References .....  | 139        |

|                  |   |     |
|------------------|---|-----|
| <b>CHAPTER 8</b> | A regional approach to implementing the WEF nexus: a case study of the Southern African Development Community .....                               | 145 |
|                  | Patrice Kandolo Kabeya, Dumisani Mndzebele, Moses Ntlamelle, Duncan Samikwa, Alex Simalabwi, Andrew Takawira, Kidane Jembere and Shamiso Kumbirai |     |
|                  | <b>1.</b> Introduction .....  | 145 |
|                  | 1.1 Status on water, energy, and food security in the SADC region .....   | 146 |
|                  | <b>2.</b> Fostering water, energy, and food security nexus dialogue and multi-sector investment in the SADC region project ....                   | 147 |
|                  | 2.1 SADC WEF nexus conceptualization .....  | 148 |
|                  | <b>3.</b> Key planning, policy, and legal documents that are relevant for water, energy, and food security in the SADC region .....               | 149 |
|                  | 3.1 Regional development context and sustainable development .....  | 149 |
|                  | 3.2 Key energy sector planning, policy, and legal documents .....   | 152 |
|                  | <b>4.</b> Identified challenges related to the water–energy–food nexus approach in the SADC region .....  | 156 |
|                  | 4.1 Inadequate coordination of the three sectors at policy- and decision-making levels.....   | 157 |
|                  | <b>5.</b> Operationalizing the WEF nexus in Southern Africa .....   | 160 |
|                  | 5.1 SADC WEF nexus governance framework .....   | 160 |
|                  | 5.2 Implementing the SADC regional WEF nexus framework .....  | 162 |
|                  | 5.3 SADC WEF nexus screening tool for guiding discourse in the region .....   | 164 |
|                  | 5.4 Capacity development and guiding discourse in the region.....   | 164 |
|                  | <b>6.</b> Key lessons from the implementation of the SADC WEF nexus regional dialogues project.....   | 165 |
|                  | <b>7.</b> Summary and conclusions .....   | 165 |
|                  | References .....  | 166 |
| <b>CHAPTER 9</b> | Exploring the contribution of Tugwi-Mukosi Dam toward water, energy, and food security .....  | 169 |
|                  | Never Mujere and Nelson Chanza  |     |
|                  | <b>1.</b> Introduction .....  | 169 |
|                  | <b>2.</b> The WEF linkage conceptual framework .....  | 171 |

|   |     |
|---|-----|
| 3. Tugwi-Mukosi Dam .....   | 171 |
| 4. Contribution of Tugwi-Mukosi toward water, energy,<br>and food security..... | 174 |
| 4.1 Water security .....  | 174 |
| 4.2 Energy security.....  | 176 |
| 4.3 Food security .....   | 176 |
| 4.4 Promotion of tourism.....   | 176 |
| 5. Discussion .....   | 177 |
| 6. Summary and conclusion and policy implications .....                         | 178 |
| Conflict of interest .....  | 179 |
| Funding .....   | 179 |
| References .....  | 179 |

## CHAPTER 10

|  |     |
|--|-----|
| The water–energy–food nexus as an approach for<br>achieving sustainable development goals 2 (food),<br>6 (water), and 7 (energy) ..... | 181 |
| Aidan Senzanje, M. Mudhara and L. Tirivamwe  |     |
| 1. Introduction .....  | 181 |
| 1.1 The WEF nexus—past to present discourse.....   | 181 |
| 1.2 The WEF nexus as a tool for natural resources<br>management.....   | 183 |
| 2. The SDGs dimensions and the WEF nexus.....  | 185 |
| 2.1 SDG 2—zero hunger .....  | 185 |
| 2.2 SDG 6—clean water and sanitation.....  | 186 |
| 2.3 SDG 7—affordable and clean energy .....  | 187 |
| 3. Food and nutrition security .....   | 187 |
| 4. Synergies and trade-offs in the WEF nexus .....   | 188 |
| 4.1 Synergies and trade-offs in the WEF nexus toward<br>achieving food and nutrition security (SDG 2) .....                            | 188 |
| 4.2 Synergies and trade-offs for achieving clean<br>water and sanitation (SDG 6) .....   | 190 |
| 4.3 Synergies and trade-offs for achieving affordable<br>and clean energy (SDG 7).....   | 190 |
| 5. Drivers of the WEF nexus toward achievement of<br>SDGs 2, 6, and 7.....   | 191 |
| 6. Upscaling and outscaling the WEF nexus as a natural<br>resources management tool for attaining SDGs 2, 6,<br>and 7 .....            | 192 |
| 7. Conclusion .....  | 193 |
| References .....   | 194 |
| Further reading.....   | 197 |

|                   |   |
|-------------------|---|
| <b>CHAPTER 11</b> | Enhancing sustainable human and environmental health through nexus planning..... 199<br>Luxon Nhamo, Sylvester Mpandeli, Shamiso P. Nhamo, Stanley Liphadzi and Tafadzwanashe Mabhaudhi   |
|                   | 1. Introduction ..... 199   |
|                   | 2. Linking socioecological interactions with nexus planning ..... 201   |
|                   | 2.1 Defining the water–health–environment–nutrition nexus ..... 202   |
|                   | 3. Understanding the risk posed by wildlife on human health ..... 203   |
|                   | 3.1 The role of nexus planning in simplifying socioecological systems ..... 203   |
|                   | 3.2 WHEN nexus and sustainability indicators ..... 204  |
|                   | 3.3 Modeling vulnerability and resilience..... 206  |
|                   | 4. Modeling multisector and complex systems..... 208  |
|                   | 5. Calculating WHEN nexus indices for South Africa..... 211   |
|                   | 6. Understanding the integrated health indices ..... 214  |
|                   | 7. Recommendations ..... 216  |
|                   | 8. Conclusions ..... 217  |
|                   | References ..... 217  |
| <b>CHAPTER 12</b> | Financing WEF nexus projects: perspectives from interdisciplinary and multidimensional research challenges ..... 223<br>Maysoun A. Mustafa and Christoph Hinske   |
|                   | 1. Introduction ..... 223   |
|                   | 2. The interlinkages within nexus research..... 224   |
|                   | 3. Transboundary systems and the need for interdisciplinary spaces..... 225   |
|                   | 4. Role of funding in fostering interdisciplinary dialogue..... 226   |
|                   | 5. Shared value within multidimensional challenges ..... 228  |
|                   | 6. The challenge of goal setting..... 230   |
|                   | 7. Advancing nexus research ..... 231   |
|                   | 8. Concluding remarks ..... 232   |
|                   | References ..... 232  |
|                   | Further reading..... 234  |
| <b>CHAPTER 13</b> | The Water–Energy–Food nexus as a rallying point for sustainable development: emerging lessons from South and Southeast Asia ..... 235<br>Andrew Huey Ping Tan, Eng Hwa Yap, Yousif Abdalla Abakr, Alex M. Lechner, Maysoun A. Mustafa and Festo Massawe |
|                   | 1. Introduction ..... 235   |
|                   | 1.1 Brief description of South and Southeast Asia..... 238  |

|                   |  |            |
|-------------------|--|------------|
|                   | 2. A critical review into the WEF of South and Southeast Asia.....   | 238        |
|                   | 3. Case study: WEF in Malaysia .....   | 242        |
|                   | 3.1 Introduction to Malaysia and WEF conceptual framework .....  | 242        |
|                   | 3.2 Complex systems approach and causality.....  | 244        |
|                   | 3.3 Water–Energy–Food nexus in Malaysia—challenges and opportunities .....   | 250        |
|                   | 4. Critical findings and key take-home messages .....  | 251        |
|                   | Nomenclature .....   | 252        |
|                   | References .....   | 253        |
| <b>CHAPTER 14</b> | <b>The water–energy–food nexus: an ecosystems and anthropocentric perspective .....</b>  | <b>257</b> |
