---

The Journal provides a forum for innovative and scholarly work in agricultural and resource economics. Contributions in this field are encouraged, both from members of the Australasian Agricultural and Resource Economics Society and from non-members, in Australia and abroad. First published in 1997, the Journal succeeds the *Australian Journal of Agricultural Economics* and the *Review of Marketing and Agricultural Economics*. It upholds the tradition of these long-established journals. Accordingly, the editors are guided by the following objectives: (i) to maintain a high standard of analytical rigor while offering sufficient variety of content so as to appeal to a broad spectrum of both academic and professional economists and policymakers; and (ii) in maintaining the tradition of its predecessor journals, to combine articles with policy reviews and surveys of key analytical issues in agricultural and resource economics.

Journal of the Australasian  
Agricultural and Resource  
Economics Society

The principal aim of the Australasian Agricultural and Resource Economics Society (AARES) is to encourage research, discussion, extension and policy evaluation in areas related to Australian agriculture, food, natural resources and economic development. The major activities of the Society are publishing the *Australian Journal of Agricultural and Resource Economics* (AJARE), holding an annual internationally-attended conference, workshops and symposia, encouraging and facilitating branch activities, encouraging and facilitating attendance at the triennial congress of the International Association of Agricultural Economists, awarding annual prizes for academic achievement and the best article in AJARE, publishing a newsletter, "AARES News and Views", for members, and an online membership directory. Membership of the Society is open to all persons and organisations interested in agricultural, resource and environmental economics. For more information on AARES visit the website <http://www.aares.org.au>
