SECTION I ENTERPRISE DATA BANK SAS DATA FILE

INTRODUCTION

Section I outlines in depth the enterprise analysis variables stored on the Enterprise Data Bank, SAS File. This file contains 239 variables per enterprise for the years 1982-present. The number of different enterprises, as well as number of farms for each enterprise, will vary from year to year. Subsequent years' data will be added to the overall file when made available. Other SAS files can be developed from this comprehensive enterprise data bank, such as a file that contains only a specific enterprise for a given period.

The enterprise data sources are farms enrolled in the Kansas Farm Management Association program. For each enterprise, the variable values are on a **per operator** basis. Except where indicated by decimal format, the values are whole numbers.

The SAS Enterprise Data Bank provides a means whereby extension, instruction, and research personnel can easily access the data bank to obtain information for numerous projects. Every user has access to the enterprise data bank information using a simple, but standardized, procedure.

**FARM MANAGEMENT DATA BANK
SAS DATA FILE¹**

VARIABLE #	ITEM -- EXPLANATION	DECIMAL FORMAT
SPECIAL DATA ITEMS:		
Farm No.	Farm Number, Enterprise Number, Year of Data 1 -- Association Number 2-3 -- County Number 4-8 -- Farm Number	
Enterprise No.	9-12 -- Enterprise Number ²	
Year	13-15 --Year of Data	
SPECIAL ENTERPRISE/TOTAL FARM DATA:		
001	Farm Type Code ³ Farm typing is done by labor utilization. For farms to be classified as a single enterprise farm, 70 percent of the total labor must be utilized with that enterprise, whereas in a dual enterprise farm, 35 percent of the total labor must be utilized with each enterprise. Farm typing (e.g., vegetable, truck crop) is based on receipts.	9 (2)
002	Enterprise Size Enterprise size varies by the type of enterprise. Type 1 = No. Beef Cows (Beef Cow Herd) Type 2 = No. Head (Livestock Feeding) Type 3 = No. Dairy Cows (Dairy Cow Herd) Type 4 = No. Ewes (Ewe and Lamb) Type 5 = No. Litters (Swine Farrowing)	9 (5)

¹The decimal format is indicated for those variables that carry a decimal. For example, the variable Crop Acres has a decimal format of 9(6).9, which means that there are 6 digits before the decimal and one digit after the decimal.

²See Appendix Table A for list of enterprise numbers by type of enterprise.

³See Appendix Table B for a definition of the various farm types.

VARIABLE #	ITEM-EXPLANATION	DECIMAL FORMAT
003	<p>Type 6 = No. Head (Poultry) Type 7 = No. Acres (Crops)</p> <p>Units of Enterprise Production</p> <p>Units of production vary by the type of enterprise.</p> <p>Type 1 = No. Weaned (Beef Cow Herd) Type 2 = Cwt. Gain Produced (Livestock Feeding) Type 3 = No. Weaned (Dairy Cow Herd) Type 4 = No. Weaned (Ewe and Lamb) Type 5 = No. Weaned (Swine Farrowing) Type 6 = No. Births (Poultry) Type 7 = Net Accrual Gain Units (Crops)</p>	9 (5)
004	<p>Enterprise Storage Code</p> <p>0 – Enterprise was used in Enterprise ProfitLink Summary Report</p> <p>1 – Enterprise was not used in Enterprise ProfitLink Summary Report</p> <p>If an enterprise is code 1, then this enterprise's data were not complete or typical. Thus, the enterprise was removed from that year's Enterprise ProfitLink Summary Report.</p>	9 (1)
005	<p>Enterprise Type</p> <p>The per unit analysis and report format vary by the type of enterprise.</p> <p>Type 1 = Beef Cow Herd Type 2 = Livestock Feeding Type 3 = Dairy Cow Herd Type 4 = Ewe and Lamb Type 5 = Swine Farrowing Type 6 = Poultry Type 7 = Crop</p>	9 (1)
006	<p>Crop Acres</p> <p>Total (owned and rented) crop acres.</p>	9 (6).9

VARIABLE #	ITEM-EXPLANATION	DECIMAL FORMAT
007	Production Work Units Each acre of each different crop and each livestock unit are assigned a "labor factor" as a fraction of a 10-hour day or productive work units.	9 (7).99
008	Capital Managed Total farm assets plus value of rented land.	9 (9).99
009	Value of Farm Production ⁴ Total value computed on accrual basis.	9 (9).99
010	Net Farm Income Equals value of farm production minus accrual operating expenses minus depreciation. Represents a return to operator's labor, management, and equity.	9 (9).99

LIVESTOCK AND GRAIN SALES, INVENTORY, OTHER:

These variables represent livestock and grain sales, ending inventory, and other values that comprise gross accrual income. For each specific type of livestock, grain-hay, inventory, or other, three values are provided: units, pounds, and dollars. For example, raised livestock sales will have the following variables:

011 – Raised Livestock Sales, Units	9 (7).99
012 – Raised Livestock Sales, Pounds	9 (8).9
013 – Raised Livestock Sales, Dollars	9 (9).99

The specific value in each variable will depend on the Enterprise Number. For example, Raised Livestock Sales can contain raised beef, dairy, sheep, swine, poultry, and other livestock sales. For example, the raised livestock sales will include

⁴Variable equalled gross farm income for the period 1982-1997. Value of farm production equals gross farm income minus accrued feed purchased.

VARIABLE #	ITEM-EXPLANATION	DECIMAL FORMAT
	only raised market hog sales for the Swine Farrow-Finish enterprise. ⁵

LIVESTOCK AND GRAIN PURCHASES, INVENTORY, OTHER:

These variables represent livestock and grain purchases, beginning inventory, and other values that comprise gross

⁵The specific value for each variable depends on TI code utilized for cash income and expense transaction. See Appendix Table C for a complete listing of current TI codes. Appendix Table D outlines the changes that have occurred in the TI Codes for grain, hay and forage, cash field crops, and truck crops during the period 1982-present.

VARIABLE #	ITEM-EXPLANATION	DECIMAL FORMAT
------------	------------------	-------------------

accrual purchases. For each specific type of livestock, grain-hay, inventory, or other, three values are provided: units, pounds, and dollars. For example, livestock purchased for resale will have the following variables:

041 – Livestock Purchased for Resale, Units	9 (7).99
042 – Livestock Purchased for Resale, Pounds	9 (8).9
043 – Livestock Purchased for Resale, Dollars	9 (9).99

The specific value in each variable will depend on the Enterprise Number. For example, Livestock Purchased for Resale Purchases can contain beef, dairy, sheep, swine, poultry, and other livestock purchases. For example, the livestock purchased for resale variable will include only feeder pigs for the Swine Finish Feeder Pig enterprise.

041	Livestock Purchased for Resale Purchases, Units
042	Livestock Purchased for Resale Purchases, Pounds
043	Livestock Purchased for Resale Purchases, Dollars
044	Grain-Other Purchased for Resale Purchases, Units
045	Grain-Other Purchased for Resale Purchases, Pounds
046	Grain-Other Purchased for Resale Purchases, Dollars

203	Irrigation Fuel-Pumping Energy, Units	
204	Irrigation Fuel-Pumping Energy, Pounds	
205	Irrigation Fuel-Pumping Energy, Dollars	

TOTAL VARIABLE COSTS, NET RETURNS:

Total variable costs are equal to the sum of variables 122-205.
 Net return above variable expenses is equal to Gross Accrual
 Income minus Total Variable Costs. Decimal format is equal to:

Units	9 (7).99
Pounds	9 (8).9
Dollars	9 (9).99

206	Total Variable Costs, Units
207	Total Variable Costs, Pounds
208	Total Variable Costs, Dollars
209	Net Return above Variable Costs, Units
210	Net Return above Variable Costs, Pounds
211	Net Return above Variable Costs, Dollars

FIXED COSTS:

The unpaid operator labor and interest charge variables represent
 opportunity cost charges on labor and investment minus interest
 paid, respectively. The opportunity cost labor rates and interest
 were:

Labor Rates/Operator:

1982-90 – \$15,000
 1991-96 – \$22,500
 1997-Present – \$27,000

Interest Rates:

1982-90 – 10.0%
 1991-Present – 8.0%

212	Depreciation	9 (9).99
213	Unpaid Operator Labor	9 (9).99
214	Interest Charge	9 (9).99

VARIABLE #	ITEM-EXPLANATION	DECIMAL FORMAT
215	Real Estate Taxes	9 (9).99
TOTAL EXPENSES AND NET RETURNS:		
Total fixed costs are equal to sum of variables 212-215. Total expenses is equal to the sum of Total Variable Costs and Total Fixed Costs. Net return to mgt. is equal to Gross Accrual Income minus Total Expenses. Net return to labor-mgt.-land is equal Net Return to Mgt. plus Unpaid Operator Labor plus Hired Labor. Decimal format is equal to:		
	Units	9 (7).99
	Pounds	9 (8).9
	Dollars	9 (9).99
216	Total Fixed Costs, Units	
217	Total Fixed Costs, Pounds

223	Net Return to Mgt., Pounds	
224	Net Return to Mgt., Dollars	
225	Net Return to Labor-Mgt., Units	
226	Net Return to Labor-Mgt.-Land, Pounds	
227	Net Return to Labor-Mgt.-Land, Dollars	
228	Total Feed Costs, Units	
229	Total Feed Costs, Pounds	
230	Total Feed Costs, Dollars	
231	Total Nonfeed Costs, Units	
232	Total Nonfeed Costs, Pounds	
233	Total Nonfeed Costs, Dollars	
PRODUCTION ITEMS:		
These production variables are specific to enterprise types 1 and 7.		
234	Crop Acres, Owned	9 (6).9
235	Crop Acres, Rented	9 (6).9
236	Crop Production, Owned	9 (9).99
237	Crop Production, Rented	9 (9).99
238	Calving Percent – 1 st 30 Days	9 (7).99
239	Calving Percent – 2 nd 30 Days	9 (7).99

SECTION II
ENTERPRISE DATA BANK SYSTEM
K-MAR-105 DATA FILE AND RETRIEVAL SYSTEM

INTRODUCTION

Section II outlines in depth the enterprise analysis variables stored on the enterprise data bank for use with the K-MAR-105 Retrieval System. The file contains 239 variables per enterprise for the years 1982-present. The number of different enterprises, as well as the number of farms for each enterprise, will vary from year to year. Subsequent years' data will be added to the overall file when made available.

The enterprise data sources are farms enrolled in the Kansas Farm Management Association program. For each enterprise, the variable values are on a **per operator** basis. Except where indicated by decimal format, the values are whole numbers.

Section II must be used when utilizing the K-MAR-105 Retrieval System to access enterprise data from the data file. The Retrieval System includes numerous programs, such as the Enterprise ProfitLink Summary and Enterprise Factor Retrieval. For example, the Enterprise ProfitLink Summary can be used to provide an aggregate analysis of farms for a given enterprise or an aggregate analysis for a given enterprise by county, farm type, or value of farm production.

The variables are accessed through the use of the Table and Item numbers listed under the Retrieval File. Each variable has a four-digit number. For example, if an analysis on Farm Type is desired, then the variable number would be 0007 as obtained from Table 00. For tables that have numerous values, the formula listed with the table is used to obtain the desired variable number. For example, if Livestock Raised Sales dollars from Table 01 are desired, the formula listed with Table 01 is used to obtain the variable number of 0103.

The K-MAR-105 Retrieval System provides a means whereby extension, instruction, and research personnel can easily access the enterprise data bank to obtain aggregate analysis of specific enterprises for numerous projects. Thus, every user has access to the enterprise data bank information through a simple, but standardized, procedure.

APPENDIX TABLE A
ENTERPRISE CODES BY TYPE OF ENTERPRISE*
1982-91

Type 1 - Beef Cow Herd

1000	Beef Cows
1100	Beef Cows
1200	Beef Cows, Grade
1300	Beef Cows, Purebred

Type 2 - Livestock Feeding**

1400	Beef Backgrounding
1500	Beef Fattening
1600	Deferred Steers
1700	Deferred Heifers
1800	Beef Backgrounding-Finishing
1900	Winter-Graze
2500	Dairy Feeding
2600	Dairy Feeding
2700	Dairy Feeding
2800	Dairy Feeding
2900	Dairy Feeding
3400	Sheep Growing
3500	Sheep Fattening (Feeder Lambs)
3600	Sheep Feeding
3700	Sheep Feeding
3800	Sheep Feeding
3900	Sheep Feeding
4400	Swine Fattening - Raised
4500	Swine Fattening - Purchased Feeder Pigs
4600	Swine Feeding
4700	Swine Feeding
4800	Swine Feeding
4900	Swine Feeding
5000	Other Livestock Feeding
5100	Bees
5200	Dogs
5300	Goats
5400	Horses
5500	Rabbits
5600	Furbearing
5700	Other Livestock Feeding
5800	Other Livestock Feeding
5900	Other Livestock Feeding

APPENDIX TABLE A (CONT)
1982-91

Type 3 - Dairy Cow Herd

2000	Dairy Cows
2100	Dairy Cows, Grade (B)
2200	Dairy Cows, Grade (A)
2300	Dairy Cows, Purebred
2400	Dairy Replacement

Type 4 - Ewe and Lamb

3000	Sheep Breeding
3100	Sheep Breeding
3200	Sheep Breeding, Grade
3300	Sheep Breeding, Purebred

Type 5 - Swine Farrowing**

4000	Sow and Litter
4100	Sow and Litter—Sell Feeder Pigs
4200	Sow and Litter, Grade—Sell Finished Pigs
4300	Sow and Litter, Purebred—Sell Finished Pigs

Type 6 - Poultry

6000	Poultry
6100	Broilers
6200	Layers
6300	Ducks
6400	Turkeys
6500	Geese
6600	Guineas

Type 7 - Crops***

6700	Cash Crops (Nonirrigated)
6800	Cash Crops (Irrigated)
6900	Crops, Other
7000	Grain
7100	Barley
7200	Corn
7300	Grain Sorghum
7400	Oats
7500	Rye
7600	Wheat
7700	Other Grains
7800	Sugar Beets
7900	Soybeans

APPENDIX TABLE A (CONT)
1982-91

8000	Hay and Forage
8100	Alfalfa
8200	Brome
8300	Bermuda
8400	Grass, Tame
8500	Native, pasture
8600	Silage
8700	Sudan
8800	Forage Sorghums
8900	Graze Out Small Grains
9000	Cash Crops
9100	Broom Corn
9200	Cowpeas and Mungbeans
9300	Cotton
9400	Mucilage Crops
9500	Peanuts
9600	Tree Nuts
9700	Fruits, Melons, Berries
9800	Safflower, Oilseed, Castorbeans
9900	Vegetables

*Enterprise in bold type are the primary enterprises.

**For these livestock enterprises, third and fourth digits of 10 and 20 in the enterprise number represents drylot and confinement, respectively.

***For irrigated crops, the third and fourth digits of the enterprise number will be between 50 and 90.
