LIST OF PLENARY AND INVITED PAPERS

PRESIDENTIAL ADDRESS

Dr Robin Johnson, Wellington:

The national interest, Westminster tradition and public choice.

PLENARY PAPERS

Australian Wheat Board Address

Professor Jimmye Hillman, University of Arizona: *From Cold War to Cooperation in negotiating Temperate-Zone agriculture and trade policies.*

Professor Bryan Philpott, Victoria University of Wellington: *Agriculture and economic growth.*

Dr Paul O'Mara, ABARE: *Agriculture in an open economy: An Australian perspective.*

Professor Alan Randall, Ohio State University: *Sustainability: Concepts, policies and institutions.*

INVITED PAPERS

Dr Peter Arcus, Arcus Consulting Ltd, Canada: *Whither agricultural economics? A look ahead to the twenty first century.*

Dr Peter Emerson, Environmental Defense Fund, USA: *The environmental side of North American free trade.*

Dr Ann Pomeroy, MAF, Wellington: *A social approach to rural development.*

Ms Megan Cook, DPIE, Canberra: *Rural development and the role of Government: An Australian perspective.*

Dr Will Martin, World Bank, Washington and Dr Julian Alston, University of Saskatchewan: *New approaches to approaching the benefits of technical change.*

Dr John Mullen, NSW Agriculture, Professor Tom Cox, Wisconsin University, and Professor W Foster, North Carolina State University: *R&D and productivity growth in Australian broadacre agriculture.*

*CONTRIBUTED PAPERS TO THE 38TH ANNUAL
CONFERENCE AAES*

- Ahmadi-Esfahani, F, Stanmore, R: Is strategic trade policy relevant for a small country?
- Ahmadi-Esfahani, F, Jenson, P: Contestability, sunk costs and deregulation of the Australian airline industry: Implications for agriculture.
- Baga, L, Nayga, R: Strategic planning, uncertainty and performance: An investigation of New Zealand agribusiness firms.
- Bantilan, C: Sensitivity analysis for research priority setting with multiple objectives at ICRISAT.
- Basri, H, Hardaker, J, Fleming, E: Analysis of Indonesian sugar policy using multiple criteria decision making theory.
- Beare, S, Dann, T: Optimal control in a predator prey environment: an application to fisheries management.
- Bell, B: Wool cluster development in New Zealand.
- Bennett, J: The private provision of conservation benefits.
- Blyth, M, Young, R: Scenario analysis — an alternative to forecasting the future.
- Bramma, K, Batterham, R: Linking farm risk to institutional credit risk.
- Brennan, D, Lindner, R: The welfare costs of patenting embodied technology.
- Brown, C: Policy reform without administrative reform: The case of the Common Agricultural Policy of the EC.
- Carter, C, MacLaren, D: Is there anything 'new' in trade theory for small countries?
- Chadee, D, Johnson, R: Direct income payments: Can they reduce economic distortions caused by farmer assistance?
- Chandra, S: Australian assistance to Chinese agriculture: Prefeasibility study of the Nei Mongol Farm Support Project.
- Chisholm, A, Haszler, H, Edwards, G, Hone, P: The wool debt, the wool stockpile and the national interest: Did Garnaut get it right?
- Coelli, T, Battese, G: Identification of factors which influence the technical efficiency of Indian farmers.
- Coxhead, I, Jayasuriya, S: Trade and tax policy reform and the environment: the economics of soil erosion in developing countries.
- Coyle, P: Starling eradication on the Nullarbor is worthwhile.

- Crellin, I: Telecentres and telecottages: A new approach to rural community development and technology transfer.
- Culpitt, R, Bartholomew, R: Assessing factors affecting farm productivity: A sugar industry example.
- Daké, C, Squire, J: A Target motad analysis of forestry development on a pastoral hill country farm.
- Dar, W, Bantilan, C, Lantican, J, Davis J: Institutionalisation of an information- generation system for research priorities in Philippine agriculture.
- Davenport, S, Curthoys, C, Booth, J: A review of recent developments in adjustment policy.
- Davenport, S, James, C, Buggie, G: Implications of the national competition policy review for agriculture.
- Davis, J, Lubulwa, G: Evaluation of postharvest research on tropical fruits: Methodological issues and results for six projects.
- Douglas, R, Davenport, S: An analysis of income averaging for primary producers.
- Drilon, M, Davidson, B: The feasibility of establishing feed-grain processing centres in the Southern Island of the Philippines.
- Edwards, R, Presser, J: Ex-ante evaluation of rock lobster fishery management arrangements.
- Edwards, G: The economics of restricting exports of wool.
- Fraser, R: Price, quality and regulation: An analysis of price-capping and the reliability of electrical supply.
- Gan, C, Luzar, J and Zwart, T: Hedonic analysis of waterfowl hunting lease attributes: An evaluation of owner-provided services.
- Gimbol, C, Battese, G, Fleming, E: Technical efficiencies of smallholder cocoa producers in Papua New Guinea: a stochastic frontier analysis.
- Godden, D: Mabo and the rural sector.
- Godden, D, Henry, L, Drynan, R, Buckley A, Flitcroft A, Hansen, P, Lysaght, K: Economic evaluation of schools' participation in the Coles-Apple Computer promotion.
- Gow, J, Davidson, B: The rural adjustment scheme and interest group theory.
- Greiner, R: The economics of managing dryland salinity: modelling approach for the Liverpool Plains, N.S.W.
- Greiner, R: The extensification debate in european agriculture.

- Grinter, P, Malcolm, B: An economic evaluation of alternative pest management strategies in Northern Victorian peach orchards.
- Gyles, O, Sappideen, B: Integration of salinity management options into the multi-objective context of natural resource management.
- Gyles, O, Prendergast, B, Young, M: Optimal timing of resource protection: interactions of ground water management with rootzone productivity and salt balance in the Shepparton region.
- Gyles, O, Young, M: Estimating the economic value of irrigation water: theory and market reality in Northern Victoria.
- Hall, N, Phipps, S: Some regional implications of reductions in greenhouse gas emissions from Australian broadacre agriculture.
- Hanson, P: The effect of buyer competition on price differentials between Australian wool selling centres.
- Harris, M: Some simple Guano economics: Conceptual problems in natural resource accounting.
- Harris, S, Batterham, R, Drynan, R: A portfolio approach to cotton marketing.
- Haszler, H: Australia's wool policy debacle — continuing government failure.
- Henry, L, Godden, D: Robustness of estimates of Australia's sustainable population.
- Herath, G, Jackson, J: Evaluation of recreation benefits of algal bloom control in Lake Mokoia; Victoria, Australia.
- Hertzler, G: Decoupling of commodity programmes and other modern fairy tales.
- Hill, C: Water quality improvement in the Darling River — a contingent valuation study.
- Holloway, G: Marketing-sector linkages in agricultural products trade.
- Hone, P: The impact of technological change on the scarcity of land.
- Honybun, D, Malcolm, B: The tax Australia has to have.
- Huang, Z, Fleming, E: Changes in interprovincial inequality of income distribution of rural households in China following the 1978 Reforms.
- Jackson, D, Tapp, N, Thompson, D, Hoadley, J: A stochastic analysis of drought management strategies in the Western Division of NSW.
- Jarvis, P: Papua New Guinea: Strengthening the farm management information system of the Department of Agriculture and Livestock.

- Jarvis, P: Farm management information system: The structure and methodology of an interactive computer information base.
- Jegasothy, K: The consumer response pattern in Western Samoa for food commodities.
- Jones, R, Wall, L, Marshall, G, Darvall, D: A stochastic analysis of on-farm irrigation drainage recycling.
- Kennedy, J: Optimal management of multiple-use forest under risk.
- Kennelly, A, Malcolm, B: A farm management analysis of liming to reduce soil acidity.
- Kingwell, R: Factors affecting supply response in programming models.
- Kohzadi, N, Boyd, M: Chaos in commodity markets: A neural network approach.
- Krasachat, W, Coeli, T, Fleming, E: Technical change and labour demand in Thai agriculture.
- Lightfoot, C: Dutch disease in the Pacific: The economic effects of preferential trade access on a small open economy.
- Lindner, R: Management options in the western rock lobster fishery.
- Locke, C, Ahmadi-Esfahani, F: Agricultural trade consequences of the international debt crisis.
- Lovell, J: Competitive advantage in the Australian Wine Industry.
- Low, J, Griffith, G: Australian farm work injuries: A multiplicity, a liability.
- Lubulwa, G, Davis, J: An economic evaluation of the impacts of fungi and mycotoxins in agricultural products.
- MacLaren, D: From Cairns to Geneva via Uruguay: Has the journey been worth it?
- MacLaren, D: Economics, Agriculture and the GATT.
- Madden, B, Crawford, M: Economic viability of dryland lucerne pasture establishment.
- Mallawaarachchi, T, Young M: Economic costs of cropland erosion: Assessment, analysis and policy implications.
- Margelis, S: The changing world of international beef trade.
- Marshall, G, Jones, R, McGrath, S: Significance of farmer response for estimating agricultural costs of land salinisation.
- Maughan, W: Fraud or competition? Some implications of trademark litigation in the US.

- Miller, E, Curotti, R, Watson, W: An economic analysis of the use of satellite imagery in mapping tree cover across Victoria.
- Morfe, T.A, Jnr, Parton, K: Farm-level economics of annual cropping and soil conservation in the Central Highlands region of Queensland.
- Murray-Prior, R, Wright, V: Farmer decisions and aggregate supply: An explanation of the impact of major price changes.
- Murray-Prior, R: Farmers as scientists: A personal construct theory interpretation of hierarchical decision models.
- Nixon, C: Added value — don't believe the hype.
- Nu, T.H, Hardaker, B, Sinden, J.A: Private and social benefits in agroforestry: a Fijian case study
- Ogisi, M, Hardaker, B: Utility efficient programming: An evaluation.
- Ogisi, M: Potential crushing margin for Linola: An exploratory analysis.
- Onchoke, S, Fleming, E: Primary commodity export revenue variability in the South Pacific Island nations: A variance decomposition application.
- Pannell, D, Morrison D: Methodological choices in evaluation of agricultural research: Towards a decision support system.
- Parminter, I: The economics of sustainable agriculture: A fresh look at the literature.
- Pearse, E, SriRamaratnam, R, Daké, C: Dynamics of supply and demand for New Zealand venison and velvet.
- Penm, J: The interrelationship between general economic activity and industrial production in the major OECD economies.
- Pradhan, J: Adoption of HYV rice technology: A comparative study of structural and reduced-form models.
- Presser, J: Distributive justice in allocating individual catch quota in a fishery.
- Read, M, Malcolm, B: The changing Victorian meat processing industry.
- Rolfe, J: Ulysses revisited — A closer look at the safe minimum standard rule.
- Rolfe, J: The economic significance of chiller assessment characteristics for Queensland beef production.
- Rutherford, A: Competitive advantage: Its applicability to agricultural exports from a study of Australia's live cattle export industry.
- Schmidt, C, Pannell, D: Economics of herbicide resistant weeds.

- Schofield, P, Godden, D: Australian agricultural production and trade under a potential enhanced greenhouse effect.
- Scrimgeour, F: Government subsidies for rural services: An empirical investigation.
- Sinner, J, Nelson, L: A collective responsibility approach to 'non-point source pollution' in agriculture and fisheries.
- Staniford, A: An economic evaluation of the buy-back scheme in the Southern Zone Rock Lobster Fishery.
- Stoneham, G, Daniel, P, Bardsley, P: Regulating and deregulating the dairy industry.
- Stonehouse, P: A targeted policy approach to inducing improved rates of conservation compliance in agriculture.
- Stonehouse, P: Technical and economic comparisons of alternative farming systems.
- Tacconi, L, Bennett, J: The socio-economic assessment of a protected area in Vanuatu.
- Thompson, B, Griffith, G, Piggott, R: Is Australia a price setter or a price taker in the world wheat market.
- Thomson, N: An economic evaluation of the recently terminated sheep lice eradication campaign in Western Australia, 1987- 1993.
- Tisdell, C: Water conflict resolution in Australia: A case of legal battles or negotiation?
- Trewin, R, Erwidodo, Rachmat, M: Improving policy analysis by linking an Indonesian CGE and agricultural sector model.
- Tulpule, V, Dann, T: High-grading in fisheries managed using individual catch quotas.
- Turnbull, D, O'Brien, M, Davidson, B: The structure of the Australian wool industry.
- Vere, D: Establishing the economic evidence of improving pasture productivity change in the New South Wales tablelands.
- Voon, T: Chinese demand for Australian wheat: Application of market share models.
- Wan, G: Measuring input substitution and output expansion effects: A nonparametric approach.
- Whelan, S, MacAulay, T, Batterham R, McClintock, A: Use of Ramsey pricing and other rules for pricing the transport of wheat and coal.

- Whittlesey, N: Measuring state and regional economic effects of land retirement in an irrigated river basin.
- Williams, C: Pricing accuracy and price averaging at cattle auctions.
- Wilson, T, Bartholomew, R, Baker, R: Fees for departmental services: Some economic considerations.
- Wilson, L: Property rights and the development of industrial forestry in Victoria.
- Wright, J, Tulpule, V, Kokic, P, Beare, S: Risk and returns in Australian broadacre agriculture.
- Yabsley, D, Wright, V: Sticky labels on fresh fruit: Marketing sense or nonsense?
- Young, M, Gyles, O, Mahoney, C: Market and technical constraints to water resource reallocation from extensive irrigated agriculture.
- Zhou, Z: Grain supply response in China and India: A comparative study.
