Montague Demment

Assoc. Vice President for International Development Association of Public and Land-grant Universities (APLU)

Professor Emeritus

Department of Plant Sciences

UC Davis

FEEDING 10 BILLION:

A Dialogue between Feed the Future and the International Research Community

Feed the Future is President Obama's global hunger and food security initiative. It is focused on reducing poverty and undernutrition while promoting broad-based economic growth through agricultural development.

- FTF is comprehensive, ambitious and challenging
- 2050 projections: the challenge of 10 billion
- Increase food production while protecting the environment: Sustainable Intensification
- Food systems: from production to consumption
- Whole of government effort
- First 1000 days

The U.S university community thanks USAID and USDA for the opportunity to contribute to FTF and we look forward to continuing the dialogue that has begun with this process.
