...About the authors

Sandra S. Batie

Sandra S. Batie, a Professor of Agricultural Economics at Virginia Polytechnic Institute and State University, has focused her professional efforts on national resources and environmental issues. She has written extensively on these topics, actively participated in policy settings as advisor to many different organizations including the Soil Conservation Society, U.S. Fish and Wildlife Service, and Army Corps of Engineers. In 1980-81, she was Senior Associate with the Conservation Foundation and in 1986-87, Dr. Batie was Senior Fellow with the National Governors' Association.

John M. Antle

John M. Antle is an Associate Professor of Agricultural Economics and Economics at Montana State University. He holds a Ph. D. in economics from the University of Chicago. In 1984-85 he was a Gilbert White Fellow at Resources for the Future. He has written extensively on agricultural development, trade, and production problems in addition to his current work on pesticides and producer risk. His research includes two books, *Pesticide Policy*, *Production Risk*, and *Producer Welfare and Agricultural Productivity: Measurement and Explanation*, both published by Resources for the Future, Inc., and numerous journal articles.

Michael Boehlje

Michael Boehlje is Professor and Head of the Department of Agricultural and Applied Economics at the University of Minnesota. Previously he had been on the faculties of Oklahoma State University and Iowa State University. Dr. Boehlje teaches undergraduate and graduate courses in agricultural finance, is a frequent participant in agricultural finance extension programs with farmers and lenders, a speaker at workshops and is also involved in research on agricultural finance and farm management. He is co-author of three books. The latest, *Financing the Agricultural Sector: Future Challenges and Policy Alternatives*, was published in 1986 by Westview Press.

Peter H. Calkins

What in 1971 seemed an odd switch from an M.A. in Far Eastern languages to Ph. D. studies in agricultural economics has given Peter Calkins a unique vantage point from which to evaluate the Chinese economic scene. Currently Professor of Rural Economy at Universite Laval, Quebec, he has spent 5 years as a researcher and teacher in Taiwan and on the Chinese Mainland, respectively, including a sabbatical year in 1982-83 at Northwest Agricultural University in Shaanxi Province. Since 1984, Calkins has served as chair of the AAEA's Committee on Professional Relations with the People's Republic of China.

Orville G. Bentley

Orville G. Bentley serves as the Nation's first Assistant Secretary for Science and Education. He is responsible for USDA research and education programs in the food and agricultural sources. Dr. Bentley also serves on the Federal Coordinating Council on Science, Engineering, and Technology. Under that Council, he is on the Biotechnology Science Coordinating Committee and the Committee on Life Sciences. Dr. Bentley was appointed by President Gerald Ford to a 3-year term on the first Board for International Food and Agricultural Development (BIFAD).

Glenn Pederson

Glenn Pederson is Associate Professor of Agricultural Finance in the Department of Agricultural and Applied Economics at the University of Minnesota. He received his B.S. and M.S. degrees from the University of Minnesota and his Ph.D. from Michigan State University. Pederson instructs and conducts research in farm and agribusiness financial management, agricultural risk management and analysis of credit institutions and capital markets serving agriculture.
