FOOD RESEARCH INSTITUTE STUDIES

Volume VII, No. 3, 1967

CONTENTS

Environmental, Technological, and Institutional Factors in
the Growth of Rice Production: Philippines, Thailand,
and Taiwan S. C. Hsieh and V. W. Ruttan 307

Introduction, 307—Trends in Rice Production, Area, and Yield in Three
Countries, 308—Differences in Yield Among Regions in the Philippines,
Thailand, and Taiwan, 313—Regional Yield Comparisons Between the Philip-
pines, Thailand, and Taiwan, 325—Technological and Institutional Factors
in Taiwan, 330—The Technological Conditions for Growth, 331—The In-
stitutional Conditions for Growth, 334—Considerations in the Design of a
Strategy for Increasing Rice Production in Southeast Asia, 336—Citations, 339
—Appendix Note, Sources of Data for Rice Area, Production, and Yield, 341

The Demand for United States Farm Output Luther G. Tweeten 343

Demand for Food in the U.S., 344—The Demand Elasticity for Farm Out-
put, 358—Summary and Conclusions, 365—Citations, 366—Appendix, 368
—Appendix Table I, 369

Changes in Output and in Conventional and Nonconventional Inputs
in Japanese Agriculture Since 1880 Saburo Yamada 371

Long-Term Trends of Output and Use of Conventional Inputs in Japanese
Agriculture, 373—Changes in Nonconventional Inputs and Their Influence on
Agricultural Output and Productivity, 388—Interrelationships Between the
Conventional and Nonconventional Inputs, 400—Estimates of the Rates of
Return to Nonconventional Inputs, 402—Concluding Remarks, 404—Cita-
tions, 408—Appendix I, Notes on Estimation of Government Outlays for Non-
conventional Inputs, 410—Appendix Tables, 412
