Are social media skills an asset in a faculty position for

<http://www.facultyfocus.com/articles/trends-in-higher-education/survey-says-80-percent-of-faculty-use-social-media-in-their-teaching/>

Facebook has about equal use in communicating with fellow educators (18%) as with students (12%). Over 61 percent of faculty responding having a Facebook account.

YouTube is used far more often for communicating with students (21%) than for communicating with fellow educators (9%). Approximately 40 percent have a YouTube account.

Twitter is among the best well known among the social networks examined (94%), but has a low rate of faculty having accounts (18%). Plus it gets little use to communicate with students (2%) or fellow educators (4%).

Top social media for communicating with peers: Facebook, LinkedIn, Skype, YouTube

Top social media for communicating with students: YouTube, Facebook, Skype, LinkedIn

Watching a video or listening to a podcast is the most common activity for both faculty personal use (72%) and for use within a class (46%).

Social media use is higher among faculty in the Humanities and Social Sciences than those in Mathematics, Science, Business and Economics.

Faculty teaching online courses are more likely to have social network accounts and to use them to communicate with fellow educators and with students.

Older faculty (those teaching more than 20 years) make substantial use of social networks; in fact, older faculty's use of social media is only slightly lower than that of their younger peers.
