## Contributors

---

**EARL E. HOUSEMAN** is Statistical Assistant to the Administrator of AMS. One of his duties is evaluation and promotion of the development and use of improved statistical methods in the Department including, in particular, techniques for collection, analysis, and interpretation of data. This spring he is on leave from the Department and is in residence as Visiting Professor of Statistics at Cornell University during the second semester of the current school year.

**KENNETH E. OGREN** heads the Marketing Information and Statistics Section of the Market Organization and Costs Branch, AMS. He entered the Department from the University of Minnesota in 1949 through the research internship program.

**KATHRYN PARR'S** work in the same Section includes research in the development of price-spread series in addition to the labor series discussed in this issue.

**EUGENE E. HIXSON** is a mathematical statistician on the staff of the Statistical Clearance Office of AMS.

**ROBERT M. WALSH**, Chief of the Market Development Branch of AMS, entered service with the Department in 1934 as a commodity analyst in the former Bureau of Agricultural Economics. In 1948 he was named Deputy Director of the Fats and Oils Branch of the former Production and Marketing Administration, and in 1952 he became Deputy Assistant Administrator of the former Agricultural Research Administration.

**FREDERICK V. WAUGH**, Director of the Agricultural Economics Division of AMS, needs no introduction to readers of our book review section.

**ROBERT A. POLSON**, Head of the Department of Rural Sociology in Cornell University, is widely known for his distinguished career in the application of sociology to extension work.

**ARTHUR F. RAPER** is Consultant on Community Development in the Foreign Operations Administration, assigned to the Middle East.

**ORLIN J. SCOVILLE** is Head of the Farming Efficiency Section, Production Economics Research Branch, ARS. He has been engaged in economic research, land use planning and farm appraisal work with the Department since 1933. Before he came to Washington in 1954 he was studying economic aspects of soil conservation in Kansas.
