Contributors

ERNEST W. GROVE, Head of the Farm Income Estimates Section, Agricultural Economics Division, AMS, made a special study last year of the effects of price inflation on farmers' economic status. His present article analyzes some of the aspects of inflation that have been beneficial to farmers.

GERALD W. DEAN and HAROLD O. CARTER are Assistant Professors of Agricultural Economics in the Department of Agriculture Economics, College of Agriculture, University of California at Davis.

HARRY SHERR, an Analytical Statistician with the Statistical and Historical Research Branch of AMS, is engaged in the analysis of the current domestic supply and distribution of food and of retail food prices. He has special responsibilities for the preparation of the *National Food Situation*.

B. R. STAUBER is Chief of the Agricultural Price Statistics Branch of AMS, and Chairman of the Department Committee on Mathematics and Statistics of the Graduate School of the U.S. Department of Agriculture.

CHARLES E. RAYMOND, Analytical Statistician, Cotton and Other Fibers Section, Statistical and Historical Research Branch, Agricultural Economics Division, works on current and historical analysis of wool and related fibers, and is responsible for wool outlook and situation reports.

WAYNE V. DEXTER, Secretary of the Outlook and Situation Board of the U.S. Department of Agriculture, edits all Situation reports issued by the Board. In addition, he is editor of publications of the Agricultural Economics Division, AMS.
