Suggestions for Submitting Manuscripts for
Agricultural Economics Research

Contributors can expedite reviewing and printing of their papers by doing these things:

1. **SOURCE.** Indicate in a memorandum how the material submitted is related to the economic research program of the U.S. Department of Agriculture and its cooperating agencies. State your own connection with the program.
2. **CLEARANCE.** Obtain any approval required in your own agency or institution before sending your manuscript to one of the editors of *Agricultural Economics Research*. Attach a copy of such approval to the manuscript.
3. **ABSTRACT.** Include an abstract and at least three keywords when you submit your article. The abstract should not exceed 100 words.
4. **NUMBER OF COPIES.** Submit three good copies.
5. **TYPING.** Double space everything, including abstract and footnotes.
6. **FOOTNOTES.** Number consecutively throughout the paper.
7. **REFERENCES.** Check all references carefully for accuracy and completeness.
8. **CHARTS AND OTHER ARTWORK.** Use charts sparingly for best effect. Keep design as simple as possible to improve communication. Submit all artwork in draft rather than final form, accompanied by neatly prepared pages with essential data for replotting. Complex or detailed charts and other artwork are usually best suited to full page or 2 page treatment (final image size will be 6-5/8" x 4-3/8"). Simpler charts should be designed to fit half page (final image size of 6-5/8" x 4-3/8") or quarter page (final image size of 3-3/8" x 4-3/8").
9. **FINAL TYPING.** Two good copies, double spaced, will be required of final copies of edited and revised manuscripts accepted for publication.

CONTRIBUTORS

J. B. PENN is an agricultural economist with the Commodity Economics Division, ERS.

DARYLL E. RAY is an associate professor of agricultural economics at Oklahoma State University. THEO F. MORIAK is an agricultural economist with the Commodity Economics Division, ERS.
