AGRICULTURAL AND RESOURCE ECONOMICS REVIEW

Foreword: The Economics of Rural and Agricultural Ecosystem Services: Purism versus Practicality ■ *Dana M. Bauer and Robert J. Johnston*

Using Ecological Production Theory to Define and Select Environmental Commodities for Nonmarket Valuation ■ *James Boyd and Alan Krupnick*

Demand-side Value for Ecosystem Services and Implications for Innovative Markets: Experimental Perspectives on the Possibility of Private Markets for Public Goods ■ *Stephen K. Swallow*

Economics and Environmental Markets: Lessons from Water-Quality Trading ■ *James Shortle*

Sustainability Science: A Call to Collaborative Action ■ *David D. Hart and Kathleen P. Bell*

Economic Science and Public Policy ■ *Katherine R. Smith*

Stated Preferences for Intermediate versus Final Ecosystem Services: Disentangling Willingness to Pay for Omitted Outcomes ■ *Robert J. Johnston, Eric T. Schultz, Kathleen Segerson, Elena Y. Besedin, and Mahesh Ramachandran*

The Value of Forever Wild: An Economic Analysis of Land Use in the Adirondacks ■ *Carrie M. Tuttle and Martin D. Heintzelman*

Applying the Ecosystem Services Concept to Public Land Management ■ *Jeffrey D. Kline, Marisa J. Mazzotta, Thomas A. Spies, and Mark E. Harmon*

Valuing Environmental Assets on Rural Lifestyle Properties ■ *Maksym Polyakov, David J. Pannell, Ram Pandit, Sorada Tapsuwan, and Geoff Park*

Social Cost of Biomass Energy from Switchgrass in Western Massachusetts ■ *David Timmons*

Tradeoffs among Ecosystem Services, Performance Certainty, and Cost-efficiency in Implementation of the Chesapeake Bay Total Maximum Daily Load ■ *Lisa A. Wainger, George Van Houtven, Ross Loomis, Jay Messer, Robert Beach, and Marion Deerhake*

Prioritizing Ecosystem Service Protection and Conservation Efforts in the Forest Plantations of the Red Hills ■ *Rebecca Moore*

Modeling the Production of Multiple Ecosystem Services from Agricultural and Forest Landscapes in Rhode Island ■ *Tingting Liu, Nathaniel H. Merrill, Arthur J. Gold, Dorothy Q. Kellogg, and Emi Uchida*

Published by the
Northeastern Agricultural and
Resource Economics Association

42 / 1
April 2013

The *Agricultural and Resource Economics Review* (ISSN 1068-2805) (formerly the *Northeastern Journal of Agricultural and Resource Economics*, ISSN 0899-367X) is the official publication of the Northeastern Agricultural and Resource Economics Association (NAREA). The purpose of the *Review* is to foster and disseminate professional thought and literature relating to the economics of agriculture, natural resources, and community development. It is the editorial policy of the *ARER* to encourage manuscript submission without regard to author affiliation and/or location. The *ARER* is published three times a year. In addition to normal refereed articles, it also publishes invited papers presented at the annual meetings of the NAREA as well as abstracts of selected papers presented at those meetings. It periodically calls for articles written on a specific topic. Membership in the NAREA is open to all persons having an interest in agricultural and resource economics. Membership dues include a subscription to the *Review* and are \$25.00 per year for regular membership and \$5.00 per year for students. The single-copy price is \$15.00 per issue. The library (or institutional) subscription price is \$125 per year.

Address all manuscripts and editorial material to Dr. Kent Messer, Managing Editor.

AGRICULTURAL AND RESOURCE ECONOMICS REVIEW

Volume 42 / Number 1 ■ April 2013

Contents

Foreword

The Economics of Rural and Agricultural Ecosystem Services: Purism versus Practicality ■
Dana M. Bauer and Robert J. Johnston iii

Invited Papers

Using Ecological Production Theory to Define and Select Environmental Commodities for
Nonmarket Valuation ■ *James Boyd and Alan Krupnick* 1

Demand-side Value for Ecosystem Services and Implications for Innovative Markets:
Experimental Perspectives on the Possibility of Private Markets for Public Goods ■
Stephen K. Swallow 33

Economics and Environmental Markets: Lessons from Water-Quality Trading ■
James Shortle 57

Sustainability Science: A Call to Collaborative Action ■ *David D. Hart and
Kathleen P. Bell* 75

Economic Science and Public Policy ■ *Katherine R. Smith* 90

Selected Papers

Stated Preferences for Intermediate versus Final Ecosystem Services: Disentangling
Willingness to Pay for Omitted Outcomes ■ *Robert J. Johnston, Eric T. Schultz,
Kathleen Segerson, Elena Y. Besedin, and Mahesh Ramachandran* 98

The Value of Forever Wild: An Economic Analysis of Land Use in the Adirondacks ■
Carrie M. Tuttle and Martin D. Heintzelman 119

Applying the Ecosystem Services Concept to Public Land Management ■
Jeffrey D. Kline, Marisa J. Mazzotta, Thomas A. Spies, and Mark E. Harmon 139

Valuing Environmental Assets on Rural Lifestyle Properties ■ *Maksym Polyakov,
David J. Pannell, Ram Pandit, Sorada Tapsuwan, and Geoff Park* 159

Social Cost of Biomass Energy from Switchgrass in Western Massachusetts ■
David Timmons 176

Tradeoffs among Ecosystem Services, Performance Certainty, and Cost-efficiency in
Implementation of the Chesapeake Bay Total Maximum Daily Load ■ *Lisa A. Wainger,
George Van Houtven, Ross Loomis, Jay Messer, Robert Beach, and Marion Deerhake* 196

Prioritizing Ecosystem Service Protection and Conservation Efforts in the Forest
Plantations of the Red Hills ■ *Rebecca Moore* 225

Modeling the Production of Multiple Ecosystem Services from Agricultural and
Forest Landscapes in Rhode Island ■ *Tingting Liu, Nathaniel H. Merrill, Arthur J. Gold,
Dorothy Q. Kellogg, and Emi Uchida* 251

ARER GUIDELINES FOR MANUSCRIPT SUBMISSION

Manuscripts must be submitted electronically as PDFs. To upload a PDF manuscript, cover letter, and other supporting documentation, please go to www.narea.org/journal/guidelines.html. The information will be transmitted securely and anonymity will be maintained as your submission is transmitted to referees. Questions for the editors may be addressed to Kent Messer, Managing Editor, at messer@udel.edu.

SPECIAL EXPEDITED REVIEW FOR PAPERS CO-AUTHORED BY GRADUATE STUDENTS

The ARER editors have established an expedited review process for manuscripts that include graduate students as co-authors. The process is designed to take less than four months from submission to final decision. For example, a paper submitted at the start of a semester could go through the entire review process before the semester ends. The three-step process works as follows.

1. Upon submission, the manuscript will undergo an expedited review such that the authors will receive a decision and reviews within two months (60 days). The same rigorous review process will be applied.
2. If revisions are requested, authors will be asked to complete their revisions and response to reviewers within 45 days.
3. Upon receipt of the revised manuscript, the ARER editor will make a decision on whether to publish the paper based on its current condition. There will not be a second or third round of revisions.

Authors who wish to be considered for this expedited review process should indicate a preference for the "Special Expedited Review" in the box entitled "Brief Comments/Instructions to Editor" that is part of the ARER online submission process and in the cover letter to the editors.

COVER LETTER

The cover letter should indicate that the material is original work, is not being offered for publication elsewhere, is not published elsewhere, and, so far as the author(s) knows, does not infringe on other published material protected by copyright.

TITLE PAGE and ABSTRACT

On the first page, list the title of the paper, an abstract not to exceed 100 words, and up to eight key words or short phrases (in alphabetical order) describing the content of the manuscript. Funding attribution statements should be placed here.

TEXT PREPARATION

The manuscript should be submitted as an 8.5 × 11 inch document with 1-inch margins and all material, including references and footnotes, double-spaced. Number footnotes consecutively throughout the manuscript using superscript numbers. Do not number headings and subheadings and avoid third-level headings. Refer to the most recent copy of the ARER for basic style and format (www.narea.org/journal/issues.html).

TABLES and FIGURES/GRAPHICS

Each table should be placed on a separate page. Table titles should be short and descriptive. Do not use color in figures and graphics as it will not be reproduced in the printed copy. Do not include figure captions in the graphic itself. After a manuscript has been accepted, the corresponding author will consult with the technical editor in preparing an acceptable electronic version of the figure or graphic.

PERMISSIONS

Authors are responsible for obtaining necessary permissions to quote or reproduce material, including figures, from already published works and/or any copyrighted material. Please supply an appropriate line of credit where necessary. Personal communication citations are not encouraged, and author(s) using them should have a letter sent to the editors from the source acknowledging agreement with the text.

MATHEMATICAL NOTATION

Use only essential mathematical notation. Avoid using the same character for both superscripts and subscripts, using capital letters as superscripts and subscripts, and using overbars, tildes, carets, and other modifications of standard type. Use character formatting, not equations, for bold (vectors and matrices), italics (variables), and superscript and subscript styles. Do not italicize numbers or Greek letters.

REFERENCES

List references alphabetically and unnumbered at the end of the manuscript with the heading "References." List only those actually cited. Cite references in the text by the name(s) of the author(s) and the year of publication (Author 2013). Use letters (e.g., 1999a and 1999b) if there is more than one source by the same author or authors in a given year. A style sheet on references and citations is available at www.narea.org/journal/guidlines.html. Provide volume and issue number for journal articles.

PAGE CHARGE

A page charge of \$65 per printed journal page is billed to the corresponding author's department, agency, or institution after the article is accepted for publication.
