INTRODUCTION

This is the third in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935.²

The year 1937-38 was a relatively favorable one for tobacco farmers. Growers of flue-cured tobacco produced nearly 855 million pounds that sold at an average price of 23 cents a pound. This was the largest crop on record with the exception of 1930, the highest price per pound since 1926 with the exception of 1934, and the value of the crop was only 7 percent less than the 1919 peak.

¹ Under the direction of the committee on tobacco statistics, Charles E. Gage, chairman; J. V. Morrow, secretary; O. C. Sime, B. S. White, Jr., L. A. Wheeler, John A. Hicks, M. M. Sandstrom, and W. G. Flinn, this bulletin has been compiled by Alice Wolfe, Claudia Thomson, Vivian M. Behenna, and Louise Moore Coleman.

² The first two are U. S. Dept. of Agr. Sta. Buls. 58 and 63; obtainable from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents a copy.

The season was a good one for growers of light air-cured types, Burley, and Maryland. Prices of Burley showed more than the usual seasonal decline during the closing weeks of the marketing season but the season average price of 20.1 cents was, with the exception of 1936-37, the highest average since 1929-30. The crop was the second largest on record and had the largest value of any production since 1928-29.

Stationary domestic demand for snuff and manufactured tobacco and a further shrinkage in foreign markets prolonged the generally unfavorable situation, which has featured fire-cured and dark air-cured tobaccos during recent years, into 1937-38. Producers of cigar types started the season with comparatively low stocks, and received satisfactory prices and returns for their crops.

The generally favorable relationship between demand and supply from the standpoint of growers is well indicated by a comparison of the crop-value figures for 1937-38 with those for earlier years. The value of all tobacco crops is preliminarily estimated at nearly 319 million dollars, or 17 percent more than in 1936-37, nearly three times as large as in 1932-33, and the highest for any year since the 1919-20 peak.

One of the principal reasons for the large gross returns to tobacco farmers during the past season has been the comparatively stable and in some respects growing demand for tobacco products by domestic consumers. Although the manufacture and distribution of tobacco products is one of the major industries of the country, the decrease of economic activity during the 12 months ended June 30 was not participated in by the tobacco industry. Tax-paid withdrawals of cigars and manufactured tobacco were slightly lower than in the corresponding period a year earlier, but withdrawals of cigarettes which account for nearly two-thirds of all the leaf used in the manufacture of tobacco products in the United States were slightly greater than a year earlier. They established a new record high.

The fact that cigarette consumption did not decline during the period of decreased business activity had several causes. Among these were the reluctance of consumers to curtail purchases of a habitually used commodity and the persistence of a significant long-time upward trend in cigarette consumption. Several new 10-cent brands were put on the market and, according to trade sources, the share of total cigarette manufacture and consumption represented by these brands increased considerably. Apparently consumers who altered their cigarette habits in response to lower incomes shifted to lower priced ready-made cigarettes rather than to light smoking mixtures or to hand-rolled cigarettes.

A significant factor in the high prices and the large returns from the flue-cured crop in 1937-38 was the strong foreign demand. Exports to oriental countries declined as a result of military operations in those countries, but this decrease was more than offset by larger shipments to Europe, especially to the United Kingdom. These larger shipments were to meet an increase in the consumption of cigarettes made from flue-cured and to aid in a building up of stocks that were considerably below normal at the beginning of the season.

A further increase occurred in 1937-38 in the production of foreign-grown tobaccos of types that compete with those exported from the United States. The largest increases were in flue-cured tobacco. That part of the total expansion which took place within the British

Empire was of particular importance to the foreign market for United States flue-cured. As a result of the increase in Empire crops and the tariff preference enjoyed by Empire tobacco in the British market, the share of total British consumption of flue-cured represented by

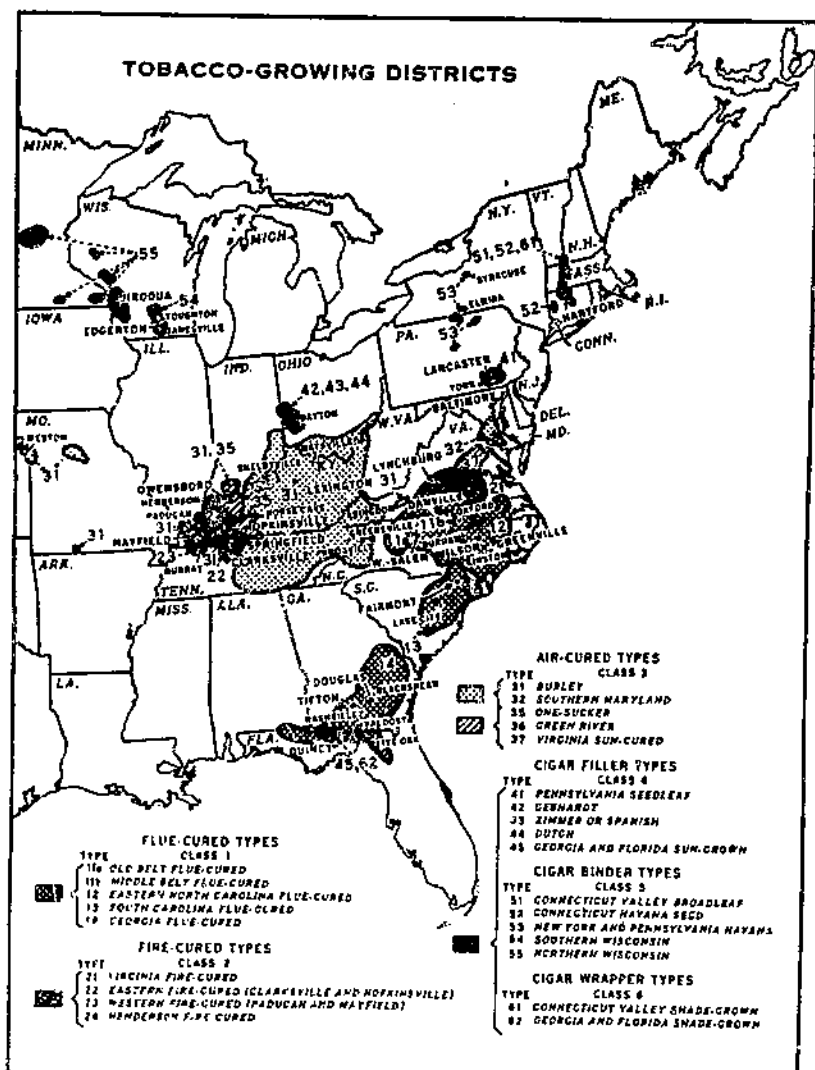

FIGURE 1.

BAE 31726

these growths showed a further increase in 1937-38. Although the crops were considerably larger, the producers as a whole received higher prices than during preceding years, thus creating a situation favorable to a still larger production and consumption of Empire flue-cured in later seasons.

The continuation of the downward trend in exports from the United States of fire-cured and dark air-cured tobaccos was due not

only to the operation of trade barriers and decreased foreign consumption of dark tobaccos but also to the continued expansion in the production of these types in the importing countries of continental Europe.

Among the new material included in this bulletin are detailed estimates, by years, of quantities used and expenditures made by consumers for various tobacco products in the United States. Wholesale and retail prices of tobacco produced in the United States also appear for the first time. Additional series on international trade are included, and estimates of production of tobacco for certain foreign countries by classes have been revised and figures for new countries added. Sales of leaf tobacco by markets, warehouse sales fees, wages in tobacco-manufacturing establishments, and receipts from taxes levied on tobacco produced by the various States have been included. A new table shows cash income from tobacco by classes and types in the United States for the calendar years 1909-37. Cash income by States for calendar years covering the same period may be obtained from the multilith publication of the Bureau of Agricultural Economics entitled "Income Parity for Agriculture, Part I, Section 2."

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes, types, and groups)

CLASS 1. FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

Groups applicable to types 11, 12, 13, and 14:

A, wrappers.	X, lugs and primings.
B, leaf and smoking leaf.	S, scrap.
C, cutters.	N, nondescript.

CLASS 2. FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky, and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, Murray, and Paducah; produced in a section between the Tennessee, Ohio, and Mississippi Rivers in western Kentucky and northwestern Tennessee.

Type 24: Henderson Stemming or northern fire-cured; produced in Webster, Hopkins, McLean, Union, and Henderson Counties of Kentucky.

Groups applicable to types 21, 22, 23, and 24:

A, wrappers.	X, lugs.
B, heavy leaf.	S, scrap.
C, thin leaf.	N, nondescript.

CLASS 3. AIR-CURED TYPES

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Groups applicable to type 31:

- | | |
|-------------------------------------|-----------------------|
| A, wrappers. | X, trash and flyings. |
| B, bright leaf, red leaf, and tips. | S, scrap. |
| C, lugs and cutters. | N, nondescript. |

Type 32: Southern Maryland; produced in five counties of southern Maryland—Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

Groups applicable to type 32:

- | | |
|------------------------------|-------------------------------|
| B, heavy leaf or dull crop. | X, seconds and ground leaves. |
| C, thin leaf or bright crop. | S, scrap. |
| | N, nondescript. |

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

Groups applicable to types 35, 36, and 37:

- | | |
|----------------|-----------------|
| A, wrappers. | X, lugs. |
| B, heavy leaf. | S, scrap. |
| C, thin leaf. | N, nondescript. |

CLASS 4. CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.

Groups applicable to type 41:

- | | |
|-----------------------------|-----------------------------------|
| B, binders or tops. | Y, farm fillers or ground leaves. |
| C, fillers (farm wrappers). | S, scrap. |
| X, stemming grades. | N, nondescript. |

Type 42: Gebhardt; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 43: Zimmer; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 44: Dutch; produced in the Miami Valley section of Ohio.

Groups applicable to types 42, 43, and 44:

- | | |
|-----------------------------|-----------------------------------|
| C, fillers (farm wrappers). | Y, farm fillers or ground leaves. |
| X, stemming grades. | S, scrap. |
| | N, nondescript. |

Type 45: Georgia and Florida sun-grown; produced in southwestern Georgia and north-central Florida.

Groups applicable to type 45:

- | | |
|---------------------|-------------------|
| B, binders. | Y, ground leaves. |
| C, fillers. | S, scrap. |
| X, stemming grades. | N, nondescript. |

Type 46: Puerto Rican sun-grown (including primed (Deshojado) and stalk-cut (Mata)); produced on the island of Puerto Rico.

Groups applicable to type 46:

C, superior (tripas, medios, coronas, etc.).

X, inferior (pie inferior, tripa inferior, pajizas, rezagos, etc.).

Y, defectuoso (boliche, sentido, cacho duro, amarillo, salchochado, etc.).

S, scrap (pedazos and picadura).

N, nondescript (averiado and mohoso).

CLASS 5. CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Groups applicable to types 51, 52, and 53:

A, wrappers.

B, binders, seconds, and brokes.

C, fillers and short darks.

X, stemming grades.

Y, sand-leaf fillers or ground leaves.

S, scrap.

N, nondescript.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

Groups applicable to types 54 and 55:

B, binders.

C, fillers.

X, stemming grades.

Y, sand-leaf fillers or bottom leaves.

S, scrap.

N, nondescript.

CLASS 6. CIGAR-WRAPPER TYPES

Type 61: Connecticut shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida shade; produced in southwestern Georgia and north-central Florida.

Groups applicable to types 61 and 62:

A, wrappers.

B, stout wrappers and binders.

C, fillers or tips.

X, filler brokes.

S, scrap.

N, nondescript.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 71: Eastern Ohio (flue-cured, fire-cured, or air-cured).

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

Type 81: Cuba (Havana).

Type 82: Sumatra and Java.

Groups applicable to types 81 and 82:

A, wrappers.

C, fillers.

S, scrap.

Type 83: Philippine Islands (Manila).

Groups applicable to type 83:

C, fillers.

S, scrap.

Type 84: All foreign-grown cigar leaf not otherwise classified.

Type 90: Foreign-grown cigarette tobacco (Turkish and other).

¹ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 11 and in the multifold publication, Income Parity for Agriculture, pt. I, sec. 2.

² Pounds of types not marketed is included as follows: Fire-cured 6,500,000, Burley 16,000,000, and dark air-cured 2,000,000.

³ Subject to revision.

Estimated World ⁵	6,066,000	6,076,000	6,406,000

¹ The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1933, for example, are for crops harvested in summer and fall of 1933; in Southern Hemisphere they are for crops harvested in spring of 1934. For many countries bordering on the Equator, harvest started late in 1933 and was completed in early months of 1934. Countries listed in this table produce approximately 95 percent of the tobacco of the world.

² Preliminary. Data for earlier years may be revised on basis of later information.

³ Data shown are for 20 Provinces only, but missing data are of slight importance.

⁴ British India and reporting native States.

⁵ Exclusive of Burma, which normally produces about 100,000,000 pounds, and which is included in other years shown in this table.

⁶ Native production bought up by European estates from natives on estates plus official estimate of exports of native production (krossok) produced off estates.

⁷ Including China.

Compiled from official sources, International Institute of Agriculture, and reports of United States consuls, commercial attachés, agricultural attachés, and commodity specialists in foreign countries.

¹ The year beginning July includes harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1933, for example, are for crops harvested in summer and fall of 1933; in Southern Hemisphere they are for crops harvested in spring of 1934. For many countries bordering on the Equator, harvest started late in 1933 and was completed in the early months of 1934. Types shown for each country do not in all cases add to production of that country (table 3). For some monopoly countries, the only available data for type production are reported in redried weight, whereas the official estimate of total production is undried weight, and miscellaneous types, component parts of the official totals, are not included in this table. For the Union of South Africa, production by types appears to include estimates of native production, whereas official totals include European production only. Two of the classifications have not been previously used, namely, dark sun-cured and light sun-cured. These tobaccos were previously included in the air-cured groups. The dark sun-cured group includes native tobaccos used principally for smoking tobacco and cigarettes with mouth-pieces in the Japanese Empire, and for cheroots, cigars, and chewing tobacco in India and for cigars in China. The light sun-cured tobacco is very different in appearance, due to its bright color, and appears to be used mainly in cigarettes.

² Preliminary. Earlier data may be revised on the basis of later information.

³ Includes some air-cured.

⁴ Estimated.

⁵ Fire-cured and dark air-cured, a part of which was reported as large pipe and small pipe.

⁶ Undried weight, analogous to farm-sales weight. Not comparable with previous years, data for which were approximately equivalent to redried weight.

⁷ Redried weight. Includes nicotine tobacco for previous years as follows: 1926, 538,000 pounds; 1927, 661,000 pounds; 1928, 777,000 pounds; 1929, 1,015,000 pounds; 1930, 604,000 pounds; 1931, 1,041,000 pounds; 1932, 1,250,000 pounds.

⁸ Redried weight.

⁹ Includes dark air-cured and pit-cured.

¹⁰ Revised estimates not comparable with data for previous years. Types heretofore classified as air-cured are principally sun-cured.

¹¹ Includes fine-cured.

¹² Burley.

¹³ Includes small quantities of light air-cured.

¹⁴ Includes small quantities of bakewell.

¹⁵ Cigar types in China are used principally for pipe tobacco.

¹⁶ Wrapper and filler.

¹⁷ Filler and smoking grades; data incomplete as the actual production of native krossok is not known.

¹⁸ Wrapper and binder.

¹⁹ Mostly filler.

²⁰ Includes small quantities of cut tobacco grades grown on the Sumatra west coast.

Compiled from official sources, reports of United States consuls, commercial attachés, agricultural attachés, and commodity specialists in foreign countries.

¹ Based on 20 or more lots of each grade. For types 21, 22, and 23, averages calculated on basis of rejections eliminated plus inclusion of association deliveries at advance prices.

² Key to standard grade marks for fire-cured tobacco:

<i>Group</i>	<i>Quality</i>	<i>Color</i>	<i>Special factor</i>
A, wrappers.	1, first.	L, lemon	K, off color.
B, leaf.	2, second.	F, orange.	M, mixed.
H, smoking leaf.	3, third.	R, mahogany.	T, tips.
C, cutters.	4, fourth.	D, dark red.	V, greenish tinged.
X, lugs.	5, fifth.	G, green.	U, unsound.
P, primings.	6, sixth.		W, doubtful keeping order.
N, nondescript.			

³ Key to standard grade marks for fire-cured tobacco:

<i>Group</i>	<i>Quality</i>	<i>Color</i>	<i>Length</i>
A, wrappers.	1, choice.	L, light.	43, under 16 inches.
B, heavy leaf.	2, fine.	F, brown.	44, 16 to 20 inches.
C, thin leaf.	3, good.	D, dark.	45, 20 to 24 inches.
X, lugs.	4, fair.	T, greenish tinged.	46, 24 to 28 inches.
N, nondescript.	5, common.	M, mixed.	
		G, green.	

⁴ Key to standard grade marks for Burley tobacco:

<i>Group</i>	<i>Quality</i>	<i>Color</i>	<i>Special factor</i>
A, wrappers.	1, choice.	L, buff or straw.	K, variegated.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	V, greenish tinged.
C, lugs or cutters.	4, fair.	D, dark red.	U, unsound or damaged under 20 percent.
X, flyings.	5, low.	G, green.	W, doubtful keeping order.
N, nondescript.

¹ Key to standard grade marks for fine-cured tobacco:

Group	Quality	Color	Special factor
A, wrappers.	1, first.	L, lemon.	K, off color.
B, leaf.	2, second.	F, orange.	M, mixed.
H, smoking leaf.	3, third.	R, mahogany.	T, tips.
C, cutters.	4, fourth.	D, dark red.	V, greenish tinged.
X, lugs.	5, fifth.	G, green.	U, unsound.
F, primings.	6, sixth.		W, doubtful keeping order.
N, nondescript.			

² Government grading of type 11 (a) was discontinued on Dec. 12, 1935.

³ Prices are not exactly comparable with prices for previous years, as figures have been rounded. For types 21, 22, 23, 24, and 36, beginning 1936 averages calculated on basis of rejections eliminated plus inclusion of Association deliveries at advance prices.

⁴ Key to standard grade marks for fire-cured tobacco:

Group	Quality	Color	Length
A, wrappers.	1, choice.	L, light.	43, under 16 inches.
B, heavy leaf.	2, fine.	F, brown.	44, 16 to 20 inches.
C, thin leaf.	3, good.	D, dark.	45, 20 to 24 inches.
X, lugs.	4, fair.	T, greenish tinged.	49, 24 to 29 inches.
N, nondescript.	6, common.	M, mixed.	
		G, green.	

⁵ Key to standard grade marks for Burley tobacco:

Group	Quality	Color	Special factor
A, wrappers.	1, choice.	L, buff or straw.	K, variegated.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	V, greenish tinged.
C, lugs or cutters.	4, fair.	D, dark red.	U, unsound or damaged
X, flyings.	5, low.	G, green.	under 20 percent.
N, nondescript.			W, doubtful keeping order

⁶ Prior to 1936 tip grades were indicated by special factor or length.

⁷ Key to standard grade marks for Green River tobacco:

Group	Quality	Color	Length
B, heavy leaf.	1, choice.	L, light.	44, 16 to 20 inches.
T, tips.	2, fine.	F, brown.	45, 20 to 24 inches.
C, thin leaf.	3, good.	R, red.	49, over 24 inches.
X, lugs.	4, fair.	D, dark.	
N, nondescript.	5, common.	M, mixed.	
		G, green.

¹ Prices were obtained from approximately 4 dealers in each of 32 large cities as of the 15th of the month, for the brand and/or package size most in demand in their stores, and have been weighted by population of the metropolitan areas and of adjacent areas, where the retail prices were obtained. Sales taxes are included wherever applicable.

Compiled from reports of the Bureau of Labor Statistics.

¹ Subject to revision.¹ Warehouse not included for December 1937.² Warehouses not included for October 1937.³ No market.⁴ Includes sales to associations.⁵ Data on first-hand sales are not available by separate markets for types 22, 23, and 31. Gross market sales are reported for type 22, first-hand market sales for type 23, and gross sales for type 31.⁶ Includes country sales.⁷ Estimated.

Compiled from reports of State departments of agriculture; tobacco growers' association reports; trade reports; and information received direct from markets and from field representatives.

TABLE 10.—Auction sales warehouse charges, by States, in effect July 1, 1938

State	Type	Type No.	Auction sales warehouse charges
Florida	Flue-cured	14	Auction fee 20 cents per basket; weighing fee 25 cents per basket weighing 100 pounds or less and 25 cents per 100 pounds on baskets weighing over 100 pounds; 2½ percent commission on gross sales.
Georgia ¹	do.	14	For auction fees 15 cents on all piles of 100 pounds or less and 25 cents on all piles over 100 pounds. For weighing and handling, 10 cents per pile on all piles of 100 pounds and 10 cents for each additional 100 pounds. For commissions on gross sales of leaf tobacco in said warehouses not to exceed 2½ percent of said gross sales.
Indiana	Burley	31	Auction fee 35 cents per 100 pounds (including grading fee of 10 cents); 2½ percent commission on gross sales. Minimum charge 85 cents per 100 pounds.
	do.	31	Lexington: Auction fee 25 cents per 100 pounds; 2½ percent commission on gross proceeds. Shelbyville, etc.: Auction fee 25 cents per 100 pounds or less and an added selling fee of 10 cents; 2½ percent commission on gross proceeds. Minimum charge 85 cents per 100 pounds. Bloomfield, Springfield, Lebanon, etc.: Flat rate of 85 cents per 100 pounds. Glasgow, Horse Cave, Bowling Green, etc.: On some crops flat rate of 85 cents per 100 pounds, and on other crops sales fee 30 cents and 3 percent commission on gross proceeds.
Kentucky	Flue-cured	22 and 23	Hopkinsville, Madisonville, Murray, Mayfield, Paducah: Flat rate of 50 cents per 100 pounds or sales fee 30 cents and 3 percent commission on gross proceeds.
	One Sucker	35	Franklin, Russellville, Scottsville: Sales fee 30 cents and 3 percent commission on gross proceeds.
	Green River	30	Henderson, Owensboro: Flat rate of 50 cents per 100 pounds or sales fee 30 cents and 3 percent commission on gross proceeds.
Missouri	Burley	31	Flat rate of 75 cents per 100 pounds when gross return to farmer is less than \$20 per 100 pounds; auction and weighing fee 25 cents per 100 pounds and 2½ percent commission when gross return to farmer is \$20 or more per 100 pounds.
North Carolina ¹	Flue-cured	11, 12, and 13	For auction fees, 15 cents on all piles of 100 pounds or less, and 25 cents on all piles over 100 pounds; for weighing and handling, 10 cents per pile for all piles less than 100 pounds, for all piles over 100 pounds at the rate of 10 cents per hundred pounds; for commissions on the gross sales of leaf tobacco in said warehouses not to exceed 2½ percent.
Ohio	Burley	31	Warehouse charges 25 cents per 100 pounds (minimum crop lot charge 25 cents per basket where crop averages less than 100 pounds per basket); 2½ percent commission. Minimum total charges and commissions 75 cents per 100 pounds.
South Carolina ¹	Flue-cured	13	For auction fees 15 cents on all piles of 100 pounds or less, and 25 cents on all piles over 100 pounds. For weighing and handling 10 cents per pile for all piles of less than 100 pounds and 10 cents for each additional 100 pounds; for commission on the gross sales of leaf tobacco in said warehouses not to exceed 2½ percent.
Tennessee	Flue-cured	22 and 23	Sales fee 40 cents per 100 pounds and 3 percent commission on gross sales.
	Burley	31	Flat rate of \$1 per 100 pounds or 25 cents per basket and 4 percent commission on gross sales.
	do.	31	Basket charge 25 cents per basket; 4 percent commission.
Virginia	Flue-cured	21	Warehouse charge 25 cents per pile up to 200 pounds and 50 cents per pile over 200 pounds; weighing charge 10 cents per 100 pounds; 2½ percent commission.
	Flue-cured	11	Warehouse charges and auction fees 25 cents per pile; weighing charge 10 cents per 100 pounds; 2½ percent commission.
	Sun-cured	37	Auction fees 25 cents per pile; weighing fees 15 cents per 100 pounds; 3 percent commission.

¹ State law.

Compiled from information received from State officials and warehousemen.

¹ No A group in this type.

² Includes crops unsuitable for sorting.

³ Prior to 1936 included in the X group.

⁴ No A or B group in this type.

⁵ B group added in October 1937 to include stocks of binder type sun-grown tobacco produced in Georgia and Florida.

⁶ Stocks on the island of Puerto Rico are not included.

1935.....	2.1	4.7	6.8	2.6	65.0						

¹ Data for earlier years are published in the First Annual Report on Tobacco Statistics, Statistical Bull. 58.² Stocks as of July 1 and disappearance beginning July 1.³ Stocks shown represent those held by dealers and manufacturers who are required by law to file quarterly reports. Farm-sales weight is calculated by converting stemmed to unstemmed and storage weight to farm-sales weight, by allowing for normal losses of dirt, sand, moisture, and stem in handling and preparing tobacco.⁴ Preliminary.⁵ Stocks as of Jan. 1 of year following production, and disappearance beginning Jan. 1 of year following production.⁶ Since the bulk of the crop is harvested prior to Oct. 1, stocks reported as of that date include a large part of the current season's production. As a result of this degree of double counting (exactly how much, it is difficult to determine) the supply figures shown here are larger than actual supply.TABLE 18.—Leaf tobacco used in the manufacture of cigars, cigarettes, and tobacco and snuff in the United States, 1933-37¹

Year	Cigars		Cigarettes		Tobacco and snuff	Total
	Large	Small	Large	Small		
	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.
1933.....	103,951	745	17	326,070	279,576	710,668
1934.....	110,203	920	852	374,501	289,034	775,530
1935.....	113,666	876	14	390,444	292,732	775,932
1936.....	125,875	708	12	453,315	297,462	847,367
1937.....	127,880	773	10	479,943	291,309	872,924

¹ The quantities given are unstemmed processing-weight equivalent of all kinds of tobacco used. Stemmed leaf and scraps, etc., used in manufacturing have been converted to unstemmed equivalent at the ratio of 3 pounds stemmed to 4 pounds unstemmed.

Compiled from annual reports of the Commissioner of Internal Revenue.

¹ Pounds of cigars and cigarettes represent unstemmed equivalent of tobacco used in the manufacture of these products, as reported in the annual reports of the Commissioner of Internal Revenue. Both large and small cigars and large and small cigarettes are included.

² Tax-paid withdrawals of manufactured tobacco have been separated into chewing tobacco and smoking tobacco in proportion to production of these 2 products.

³ Preliminary.

Compiled from tax-paid withdrawals in the United States (including tax-paid withdrawals of tobacco products from the Philippine Islands and Puerto Rico) reported in monthly statements by the Commissioner of Internal Revenue and July population from reports of the Bureau of the Census.

¹ Includes cost of materials, containers, fuel, and purchased electric energy; beginning 1921 includes also cost of internal revenue stamps.

² Includes establishments manufacturing cigars, cigarettes, or both; for 1859 and 1869 the industry designation did not specify cigarettes, which at that time were not made to any considerable extent.

³ Includes cigarettes.

⁴ Prior to 1909 included with cigars.

⁵ Includes establishments manufacturing both cigars and cigarettes, as follows: 23 in 1909, 21 in 1914, 12 in 1916, 2 in 1921, and 4 in 1923.

⁶ Included with cigars.

Compiled from United States Census and Census of Manufactures, Bureau of the Census.

Total.....	20,890	18,552	16,240	17,491	20,519	

¹ The export statistics in this table are on the basis of crop years. Crop years are as follows: Fire-cured, year beginning July; Maryland, year beginning January of year following production; all other types, year beginning October. These figures do not include shipments to Puerto Rico; no shipments were made to Alaska and Hawaii.

² Preliminary.

³ Includes Hong Kong and Kwantung.

⁴ Includes Gold Coast, Nigeria, and other British West Africa.

⁵ Includes Canary Islands.

⁶ Includes eastern Ohio, type 71.

⁷ Black fat, water baler, and dark African are composed principally of fire-cured and One Sucker tobacco, which have been treated with oils and greases, packed in boxes, bales, and bales, and subjected to heavy pressure. Approximate percentages are two-thirds One Sucker and one-third fire-cured. In some cases a small amount of fire-cured might be substituted for part portion of one of the other types.

⁸ Less than 500 pounds.

Compiled from Monthly Summary of Foreign Commerce of the United States and official records of the Bureau of Foreign and Domestic Commerce. Export weight.

¹ Imports for consumption beginning 1933-34.² Preliminary.³ Less than 500.⁴ None reported from Alaska and Hawaii; nor from Virgin Islands in 1935 and 1936.⁵ Included with all other tobacco products.⁶ Includes snuff and snuff flour; stems-cut, ground, or pulverized and manufactures of tobacco not specially provided for.

Compiled from Monthly Summary of Foreign Commerce of the United States and official records of the Bureau of Foreign and Domestic Commerce.

TABLE 34.—Rates of State tax on tobacco products in effect January 1938

State	Date effective	Product and rate of tax
Alabama	Oct. 1, 1927 (Amended July 10, 1935)	Cigars weighing more than 3 pounds per 1,000, retailing for— <i>a.</i> 3 cents each or less, \$1 per thousand, <i>b.</i> 4 to 5 cents, \$2 per thousand, <i>c.</i> 6 to 8 cents, \$3 per thousand, <i>d.</i> 9 to 10 cents, \$5 per thousand, <i>e.</i> 11 to 20 cents, \$10 per thousand, <i>f.</i> More than 20 cents, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10. Cigarettes, 1 cent for each 5 cents of retail price. Smoking tobacco, 1 cent for each 5 cents of retail price.
Arizona	June 28, 1933	Cigars weighing more than 3 pounds per 1,000, retailing for— <i>a.</i> 5 cents each or less, 1 cent for each 3. <i>b.</i> More than 5 cents, 1 cent each. Weighing not more than 3 pounds per 1,000, 2 cents for each 20 or fraction thereof. Cigarettes, 2 cents for each 20 or fraction thereof. Smoking tobacco and snuff, 1 cent per ounce. Chewing, plug, or twist, 1/2 cent per ounce. Cigarettes, \$2.50 per thousand. Cigarettes, 1 mill each. Cigars, 10 percent of retail price of each cigar. Cigarettes, 10 percent of retail price of each package. Cigarette weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each.
Arkansas	Mar. 27, 1924	Papers, 1/2 cent for each 50 or fraction thereof.
Connecticut	July 1, 1935	Tubes, 1 cent for each 50 or fraction thereof.
Georgia	Aug. 15, 1933	Cigarettes, 2 cents for each 20 or fraction thereof.
Iowa	July 4, 1921	Papers, 1 cent for each 50 or fraction thereof.
Kansas	June 1, 1927	Cigarettes, 1 cent for each 10 cents or fraction thereof of retail price.
Kentucky	May 26, 1930	Cigars weighing more than 3 pounds per 1,000, retailing for— <i>a.</i> 5 cents each or less, \$2 per thousand. <i>b.</i> 6 to 8 cents, \$3 per thousand, <i>c.</i> 9 to 15 cents, \$5 per thousand, <i>d.</i> 16 to 20 cents, \$8 per thousand, <i>e.</i> More than 20 cents, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 75 cents per thousand. Cigarettes, 1/2 cent each. Smoking tobacco, 1 cent for each 5 cents or fraction thereof of retail price.
Louisiana	Sept. 1, 1932	All tobaccos, 1 cent for each 5 cents or fraction thereof of retail price.
Mississippi	June 1, 1930	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 1/2 mills each.
North Dakota	Jan. 1, 1925	Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof. Snuff, 2 cents for each 10 ounces or fraction thereof.
Ohio	Sept. 1, 1931	Cigarettes, 1 cent for each 10 or fraction thereof.
Oklahoma	Mar. 7, 1935 (Re-enacted May 3, 1937)	Cigarettes— 1 cent per package of not more than 10, 3 cents per package of more than 10 and not more than 20, 7 1/2 cents per package of more than 20 and not more than 50, \$1.50 per thousand.
Pennsylvania	July 1, 1935	Cigarettes, 1 cent for each 10 or fraction thereof.
South Carolina	May 1, 1923	Cigars weighing more than 3 pounds per 1,000, retailing for more than 5 cents, \$9 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10 or fraction thereof. Cheroots, cigars, etc., weighing more than 3 pounds per 1,000, retailing for 3 cents each or less, \$4 per thousand. Cigarettes, 1 cent for each 5 cents or fraction thereof of retail price. Smoking tobacco, 1 cent for each 5 cents or fraction thereof of retail price. Chewing tobacco and snuff, 1 cent for each 3 ounces or fraction thereof.
South Dakota	July 1, 1937	Cigarette weighing more than 3 pounds per 1,000, 4 mills each. Weighing not more than 3 pounds per 1,000, 1 1/2 mills each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.
Tennessee	Jan. 1, 1925 (Re-enacted Mar. 5, 1935)	Cigars, 10 percent of retail price. Cigarettes, retailing for 1 cent each or less, 18 cent. More than 1 cent, 20 percent. Smoking and chewing tobaccos, 10 percent of retail price. Snuff, 10 percent of retail price.
Texas	Sept. 1, 1931	Cigarette weighing more than 3 pounds per 1,000, \$1.60 per thousand. Weighing not more than 3 pounds per 1,000, \$1.50 per thousand.
Utah	May 8, 1923	Cigarette weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.
Vermont	July 1, 1937	Cigarettes, 1 mill each.
Washington	May 1, 1935	Cigarettes, 1/20 cent each.

¹ Cigar tax repealed in 1937.

Compiled from report of proceedings, Eleventh Annual Convention of the National Tobacco Tax Conference, Nov. 15-16, 1937.

¹ Under provisions of the 1937 agricultural conservation program, the maximum acreage with respect to which payment was made was 15 percent for cigar-leaf types 51 and 52 grown in Connecticut, Massachusetts, New Hampshire, and Vermont, 30 percent for fire-cured and dark air-cured types, and 25 percent for all other types. These data are preliminary.

² Does not include cigar wrapper, type 61.

Compiled from records of the Agricultural Adjustment Administration.

TABLE 38.—Apportionment of the national marketing quota for blue-cured tobacco for the 1938-39 marketing year, under provisions of the Agricultural Adjustment Act of 1938, as amended¹

State and new farm ²	Apportionment of national quota proclaimed Feb. 15, 1938	Increase required to bring State quota to minimum of 7 percent of the 1937 production	Increase of 4 percent authorized by amendment to act	Increase required to provide minimum State quota equal to 5-year national average yield × 700 acres	Total quota as apportioned among States and for new farms
