FEED STATISTICS

Including Wheat - Rye - Rice

This edition of Feed Statistics, the tenth edition published by the Bureau of Agricultural Economics, contains basic information on stocks, distribution, production, utilization, commercial movement, foreign trade, and prices of grains and feeds. Most of the data included are from the records of the Bureau of Agricultural Economics, although other available sources are drawn on freely. Sources of data other than the Bureau of Agricultural Economics are noted.

The primary purpose of this handbook is to supplement The Feed Situation and The Wheat Situation, which carry current data for many of the series published here. The 1947 and 1948 editions of Feed Statistics were limited to short-time series, in order to reduce the size of the publications. This edition includes many longer-time series, and for all practical purposes it supersedes the earlier issues. The section on grains has gradually been expanded to include more complete coverage of food grains, and now includes wheat, rye, and rice. This is the first year that it has carried data regarding rice.

Prepared in the Bureau of Agricultural Economics.

1/ Data for 1926 through 1934 are, for the most part, comparable with the data for later years. Items which are not strictly comparable with data for years subsequent to 1934 include stocks at beginning of crop year, supply and utilization of byproduct feeds for feed, and livestock production. 2/ Farm, terminal market, and Government-owned stocks, 1926-42. Corn on basis of October 1, and oats July 1. Barley on basis of August 1 for 1926-33, and July 1 for 1934-48. Stocks in all positions, including interior mill, elevator, and warehouse stocks, 1943 to date. 3/ Imported grain and domestic wheat and rye. 4/ Exclusive of brewers' and distillers' dried grains, 1926-34, and rice millfeeds, 1926-33. 5/ Less than 50,000 tons. 6/ Total of animal units computed by States. For current years the weights for converting United States livestock numbers to grain-consuming animal units are as follows: Number on January 1 of milk cows and heifers 2 years old and over, 1.00; heifers and heifer calves, 0.40; beef cows, 0.16; cattle on feed, 2.1; all other cattle, 0.14; stock sheep 0.022; sheep and lambs on feed, 0.12; horses and mules 2 years old and over, 1.3; colts, 0.15; hens and pullets, 0.055; number of hogs fed during the year, 0.70; chickens raised, 0.018; commercial broilers raised, 0.0114; and turkeys raised, 0.076. 7/ One unit of livestock production is equal to the following: 4400 pounds of milk, 288 pounds of hogs, liveweight, 256 pounds of chickens raised, liveweight, 311 pounds of broilers raised, liveweight; 246 pounds of turkeys raised, liveweight, and 183 dozen eggs. In addition it is equal to the following: livestock on farms January 1: 0.45 cattle on feed, 2.60 heifers and heifer calves kept for milk on farms, 6.10 cattle other than cattle on feed, milk cows and heifers, and heifer calves kept for milk, 8.0 sheep and lambs on feed, 37.5 stock sheep, 0.75 horses and mules 2 years old and over, and 6.5 colts. 8/ Preliminary. 9/ Exclusive of grain at interior mills, elevators, and warehouses.

1/ Includes corn harvested for grain, and grain equivalent of corn utilized as silage, hogged, grazed, and in forage.

2/ Includes production of corn for all purposes.

3/ Preliminary.

Table 5.- Corn, oats, and barley: Acreage harvested, yield, and production, North Atlantic Region, 1900-49

| Year | Corn, all | | | Oats | | | Barley | | |
|------|-------------|----------------|---------------|-------------|----------------|---------------|-------------|----------------|---------------|
| | Acreage | Yield per acre | Production | Acreage | Yield per acre | Production | Acreage | Yield per acre | Production |
| | 1,000 acres | Bushels | 1,000 bushels | 1,000 acres | Bushels | 1,000 bushels | 1,000 acres | Bushels | 1,000 bushels |

1/ Commercial stocks at terminal markets.

2/ Owned by the Commodity Credit Corporation at country points; additional Government stocks are included in reports for other positions.

3/ Not available prior to 1943.

4/ Compiled from reports of the Bureau of Foreign and Domestic Commerce and Bureau of the Census. Imports include grain equivalent of cornmeal and flour; exports are grain only.

5/ Preliminary.

6/ Estimated quantities (based on census data) used in making prepared breakfast foods.

7/ Revised series. Estimated quantities used in producing cornmeal, flour, hoary grits, and flakes for human food and for the production of fermented malt liquors. Based on reports of the Bureau of the Census and the Bureau of Internal Revenue. Does not include corn processed for livestock feed.

8/ Starch, sirup, sugar, etc. Compiled from data of Price, Waterhouse, and Company, New York.

9/ Compiled from data of the Bureau of Internal Revenue. Does not include corn products used in the production of fermented malt liquors.

10/ Based on acreage planted to corn the following year.

11/ Residual, mostly feed.

12/ Total disappearance, minus exports of corn and grain equivalent of cornmeal and flour.

13/ Stocks at the end of the 1942-43 marketing year, excluding grain at interior mills, elevators, and warehouses, are used in computing 1942-43 disappearance.

14/ Includes exports for military civilian feeding abroad.

1/ Compiled from reports of the Grain Branch, Production and Marketing Administration.

2/ Not available prior to 1943.

3/ Compiled from reports of the Bureau of Foreign and Domestic Commerce and Bureau of the Census. Imports include grain equivalent of oatmeal; exports are grain only.

4/ Preliminary.

5/ Used in production of oatmeal and other cereal preparations. Based on data published in calendar year biennial reports of the Census of Manufactures.

6/ Based on area seeded to the following crop.

7/ Residual, including small quantities for other uses for which data are not available, and waste.

8/ Total disappearance, minus exports of oats and grain equivalent of oatmeal exported.

9/ Stocks at interior mills, elevators, and warehouses, not included in computing 1942-43 disappearance.

10/ Includes exports for military relief feeding abroad.

1/ Compiled from reports of the Grain Branch, Production and Marketing Administration.

2/ Not available prior to 1943.

3/ Compiled from reports of the Bureau of Foreign and Domestic Commerce and Bureau of the Census. Both imports and exports include grain equivalent of malt.

4/ Preliminary.

5/ Compiled from reports of the Bureau of Internal Revenue. Includes small quantities of barley grain.

6/ Estimated on basis of total malt production and quantities exported, imported, and used in alcohol and alcoholic beverages.

7/ Based on acreage seeded to the following crop.

8/ Residual, mostly feed.

9/ Total disappearance, minus exports of barley grain and grain equivalent of malt exported.

10/ Stocks at interior mills, elevators, and warehouses not included in computing 1942-43 disappearance.

11/ Includes exports for military relief feeding abroad.

Derived from data reported by the Bureau of Internal Revenue.

1/ Principally corn products. Converted to corn grain equivalent, using the factor of 56 pounds of products equal to one bushel of corn.

2/ Used principally for distilled spirits.

3/ Used principally for alcohol and distilled spirits.

1/ Additional quantities, particularly of wheat, are purchased and fed to livestock.

2/ Includes rice fed on all farms in California and rice fed on farms where produced in other States.

3/ Includes loss.

4/ Cottonseed "left on farms." Includes cottonseed fed, minor quantities used for fertilizer, and quantities used for planting the following crop. Approximately 312,200 tons of such seed are estimated to have been used for planting the 1948 crop.

5/ Liquid whole milk. Calendar year basis.

6/ Preliminary.

Table 22.- Corn: Receipts at 12 primary markets, by months, 1924-49 1/

- ^{1/} Average loan rates in the United States. During 1933 through 1940 there was a flat loan rate for all eligible producers. During the years 1941 through 1949 the loan rates varied by counties.
- ^{2/} Average loan value of corn sealed during each marketing year.
- ^{3/} The national average loan rate at the farm as a percentage of the parity price of corn at the beginning of the marketing year. Loans were based on parity price in the years 1938 through 1948.
- ^{4/} Includes stocks at interior mills, elevators, and warehouses for the years 1943 to date.
- ^{5/} Loans were in the process of being repaid. Corn under seal on September 30 was redeemed by farmers early in the next marketing year.
- ^{6/} Does not include 14 million bushels of 1937 corn sealed for the first time in 1938 under a short-term loan program.
- ^{7/} Total quantity of 1948 corn placed under loan and purchase agreement.

Table 40.- Oats, barley, and grain sorghums: Average farm loan rate and quantity placed under price support, United States, 1940-49 ^{1/}

| 1949 | .69 | --- | 1.09 | --- | 2.09 | --- |

Compiled from reports of the Grain Branch, Production and Marketing Administration.

- ^{1/} Loan program for oats started in 1945. Loans on all three grains varied by counties from 1945 through 1949.
- ^{2/} Total quantity placed under loan and purchase agreement.

1/ Includes flour and products in terms of wheat.

2/ Prior to 1937 some new wheat included; beginning with 1937 only old crop wheat is shown in all stocks positions. The figure for July 1, 1937, including the new wheat, is 102.8 million bushels, which is used as year-end carry-over in the 1936-37 marketing year.

3/ Imports include full-duty wheat, wheat imported for feed, and dutiable flour in terms of wheat. They exclude wheat imported for milling in bond and export as flour, also flour free for export.

4/ Includes procurement for both civilian relief feeding and for military food use; military takings for civilian feeding in occupied areas measured at time of procurement, not at time of shipment overseas.

5/ Exports as here used, in addition to commercial exports, include U.S.D.A. flour procurement rather than deliveries for export. Beginning with 1941-42, deliveries for export (actual exports, including those for civilian feeding in occupied area) of wheat, flour, and other products, in million bushels, were as follows: 27.9; 28.0; 42.4; 144.0; 395.1; 401.6; 485.9; and for 1948-49, 502.9.

6/ Shipments are to Alaska, Hawaii, Puerto Rico, and Virgin Islands.

7/ Preliminary.

*Asterisk indicates imports and exports from reports of the Department of Commerce. Figures for the Army Civilian Supply Program are from the National Military Establishments.

1/ Includes flour expressed in wheat equivalent. Exports of wheat products other than flour, not shown in the table, expressed in thousand bushels wheat equivalent, beginning with 1941-42, were as follows: 343; 1,475; 2,077; 2,182; 6,726; 3,492; 6,666; and for 1948-49, 1,301.

2/ Classified as "unfit for human consumption" or imported for special feeding programs.

3/ Includes some flour imported in bond for reexport, which for 1939-49 was 214,777 bushels and in 1940-41 was 170,000 bushels.

4/ Includes wheat and wheat products used for livestock and poultry feed, imported duty-free by the Commodity Credit Corporation.

5/ Usually all from imported wheat, although in some years small quantities of United States wheat were added.

6/ 14,776,000* plus 822,000 unreported exports to British Services.

7/ 142,356* plus 11,358,000 unreported January-June 1947 exports to Germany financed by the United Kingdom.

8/ 154,493,000* plus 10,595,000 unreported January-June 1947 exports to Germany financed by the United Kingdom.

9/ 324,688,000* minus the included Army Civilian Supply Program of 97,328,000.

10/ 174,552,000* minus the included Army Civilian Supply Program of 41,461,000.

Data from U. S. D. A. Production and Marketing Administration, Department of Commerce, Department of National Defense, as well as from the Bureau of Agricultural Economics.

* Unmilled rice is converted on the basis of pounds of milled rice (heads, second heads, and screenings, excluding brewers'), produced annually from 100 pounds of rough rice, converted separately for the Southern States and for California. For the 5 years ended July 1949, 100 pounds of rough rice produced an average of 66.13 pounds of such milled rice, or a 45-pound bushel produced about 29.8 pounds.

1/ Includes California on an October 1 year.

2/ Stocks on farms, in country warehouses, and in mills, and in addition includes U. S. D. A. holdings outside of mills. In million bags as follows: 1.06 in 1943, 1.79 in 1944, 0.25 in 1945, 0.37 in 1946, 0.16 in 1947, 0 in 1948 and 1949.

3/ Civilian food disappearance of commercially milled rice produced from domestic grain plus rice used on farms where grown and by custom mills for local consumption, adjusted for military procurement and use of broken rice by brewers. Thus, consumption data represent the year rice enters trade channels rather than the time of actual human consumption. In some years large stocks are held by wholesalers and retailers, while in other years such stocks are small.

4/ Rice used by brewers other than brewers' rice as such, which is not included in this table.

5/ Bag equals 100 pounds.

6/ Preliminary.

7/ Beginning with 1941, exports and shipments are on a July year. Complete figures are available for such a year, whereas they are not for an August year. Insofar as the figures for the month of July are not much different from one year to another, the use of the July year is justifiable.

8/ Includes exports of rough rice in terms of milled equivalents.

9/ Excludes shipments by military for civilian relief feeding.

10/ Procured for both civilian relief feeding and for military food use; military takings for civilian feeding in occupied areas measured at time of procurement, not at time of shipment overseas.

11/ Balancing item results from drying loss, waste, and errors in data and conversions.

1/ From reports of the Grain Branch, Production and Marketing Administration.

2/ Data not available by quarters for October 1, prior to 1934, or for January 1 and April 1, prior to 1935.

3/ Estimated total based upon Bureau of Census report of item "In mills and mill elevators attached to mills," for 1927 through April 1945. Data not available by quarters for October prior to 1931, or for January and April prior to 1932.

4/ Beginning July 1, 1942, owned by Commodity Credit Corporation in transit and in steel and wooden bins. Additional Government stocks are included in reports for other positions.

5/ Beginning with 1937 only old crop wheat shown in all positions. For the years 1927-36 inclusive, some new wheat is included in terminal and merchant mill stocks. The figure for July 1, 1937, including the new wheat, is 102,842,300 bushels.

Compiled as follows: January 1899 - December 1900, Kansas City Daily Price Current.
 January-December 1901, Kansas City Star.
 January 1902 - Kansas City Grain Market Review. (Prior to November 1920 called Kansas City Daily Price Current).
 Average of daily prices weighted by carlot sales.

1/ Average for 11 months.

2/ Beginning July 1947, sales of Dark Hard and Hard Winter wheat combined--reported as Hard Winter.

1/ U. S. monthly prices are the result of weighting monthly State prices by production. U. S. marketing-year prices are the result of (1) weighting State monthly prices by monthly sales to obtain State marketing-year averages, and (2) weighting the State marketing-year averages by total sales for each State.

2/ Monthly figures prior to 1923 are not available. Annual calendar year averages for 1912 to 1922 are respectively as follows: 79.4, 66.3, 78.8, 89.3, 89.1, 89.3, 83.9, 98.7, 192.0, 180.0, 245.5, 112.0, 98.0, 98.5, 112.0, 135.0, 148.0, 113.0, 90.8, and 91.1.

3/ Preliminary.

1/ The national average loan rate at the farm as a percentage of the parity price of wheat at the beginning of the marketing year.

2/ Includes open market purchases beginning 1943, and accordingly may include some new crop wheat.

3/ Includes 113.4 million bushels of 1948 crop wheat put under marketing agreements.

4/ Includes 54.2 million bushels of purchase agreement wheat delivered to CCC.

| 1950 ^{3/} | | 210.0 | | | |

Data from Office of Foreign Agricultural Relations.

^{1/} From previous crops.

^{2/} Six-year average; stocks prior to 1924 reported as of September 1.

^{3/} Preliminary. Estimated stocks for 1949, all on July 1 bases, are as follows, in million bushels: Canada 130, Argentina 120, Australia 95.

^{4/} When combined, figures for Argentina are usually used with those of the previous year for Northern Hemisphere countries. For example, the January 1950 Argentine production is combined with the 1949 production of the United States and Canada.

1/ Production plus imports; excluding exports, utilization for food, and other nonfeed uses. Adjusted for changes in stocks for the following feeds for which stock data have been compiled: Cottonseed cake and meal and brewers' and distillers' dried grains, 1935-49, peanut cake and meal 1938-49, alfalfa meal 1944-49, soybean, linseed, and copra cakes and meals, February 1949 to date.

2/ Preliminary.

3/ Includes dried and concentrated skim milk, buttermilk, and whey manufactured for animal feed.

4/ Dry equivalent of milk, skim milk, buttermilk, and whey fed in liquid form.

5/ Tentative estimate of hominy feed, oat millfeeds, molasses, and screenings.

Table 67.- Production of specified byproduct feeds, United States, 1919-48

1/ Calendar year following.

2/ Preliminary.

3/ Partly estimated.

Compiled as follows: Wheat millfeeds and cottonseed cake and meal, and beginning January 1949, soybean, linseed, and copra cakes and meals, Bureau of the Census; prior to January 1949, soybean, linseed, and copra cakes and meals, Grain Branch, Production and Marketing Administration, derived from Census crushings reports; brewers' and distillers' dried grains and rice millfeeds, Production and Marketing Administration; fish cake and meal, Fish and Wildlife Service, Department of the Interior; gluten feed and meal derived from reports of Price, Waterhouse, and Company, New York.

Table 70. - Wheat millfeeds: Production, United States, by months, 1931-49.

| Year beginning October | Oct. | Nov. | Dec. | Jan. | Feb. | Mar. | Apr. | May | June | July | Aug. | Sept. | Total |

1/ In certain States, contains small quantities formerly classified as wild hay and grains cut green for hay; also includes sweetclover hay for all States.

2/ Production in all States 1919-49, but only in the 22 principal producing States, 1939-49.

3/ Included under "Other".

4/ Preliminary.

Table 98.- Hay: Production by regions, 1909-49 ^{1/}

Table 101.- Commercially prepared poultry and livestock feeds: Shipments from plants, United States, 1947

| Kind | Shipments 1/ | |
|--|--------------|--|
| | Quantity | Percentage of total feeds specified by kinds |
| | 1,000 tons | Percent |
| Poultry feeds | | |
| Scratch feed | 1,755 | |
| Chicken mash (under 25 percent protein) | | |
| Layer and breeder | 4,318 | |
| Starter | 960 | |
| Grower | 1,173 | |
| Broiler | 1,522 | |
| Turkey mash (under 25 percent protein) | 547 | |
| Other poultry feed (under 25 percent protein) | 612 | |
| Supplements and concentrates (over 25 percent protein) | 832 | |
| Total | 11,719 | 60.1 |
| Dairy feeds | | |
| Under 25 percent protein | 4,664 | |
| Over 25 percent protein | 608 | |
| Total | 5,272 | 27.9 |
| Pig and hog feed | | |
| Under 25 percent protein | 771 | |
| Over 25 percent protein | 707 | |
| Total | 1,478 | 7.6 |
| Beef and range cattle feed | 436 | 2.2 |
| Sheep and goat feed | 71 | .4 |
| Horse and mule feed | 534 | 2.7 |
| Total feed of specified kinds | 19,510 | 100.0 |
| Other feeds not specified by kind | | |
| Grain (ground, rolled, chopped, crimped) | 1,584 | |
| Poultry and livestock feed (kinds not specified) | 447 | |
| Other livestock feeds 2/ | 771 | |
| Total all prepared feeds | 22,298 | |

Compiled from a report of the Bureau of the Census on "Prepared Animal Feeds".

1/ Does not include byproduct feeds sold for direct consumption as such, nor feed mixed on farms or by small farm supply dealers.

2/ Includes feed for rabbits, mink, foxes, laboratory animals, etc.

Table 102.- Selected materials used in the "Prepared animal feeds industry," United States, 1947 1/

| Material | Quantity used | Material | Quantity used |
|---------------------------------------|---------------|-----------------------------------|---------------|
| | 1,000 bushels | | 1,000 tons |
| Grains | | Byproduct feeds | |
| Corn | 137,503 | Millfeeds and screenings | 2,769 |
| Oats | 112,591 | Cottonseed cake and meal | 287 |
| Barley | 30,553 | Soybean cake and meal | 2,392 |
| Sorghum grains | 16,637 | Linseed cake and meal | 205 |
| Wheat | 41,384 | Other oilseed cake and meal | 159 |
| Other grains | 2,004 | Meat scraps | 560 |
| Soybeans | 7,230 | Tankage | 103 |
| Byproduct feeds | 1,000 tons | Fish meal and scrap | 187 |
| Gluten feed and meal | 667 | Dried milk and whey | 90 |
| Hominy feed and meal | 346 | Beet pulp | 68 |
| Brewers' and distillers' grains | 462 | Citrus pulp | 39 |
| | | Alfalfa meal | 1,019 |
| | | Molasses | 528 |
| | | Corn meal | 695 |

1/ Quantities of materials reported used by establishments in the "Prepared animal feeds industry". That industry accounted for 89 percent of the total of all feeds shipped by manufacturers shown in table . The data in this table are not directly comparable with those in table 101, since not all manufacturers reporting shipments of prepared feeds are included and because this table includes some materials consumed in the manufacture of certain non-feed items.

Table 103.- Estimated value per 100 pounds of concentrate rations fed to milk cows for production of commercial milk and cream, United States, by months, 1910-49 ^{1/}

| Year | Jan. | Feb. | Mar. | Apr. | May | June | July | Aug. | Sept. | Oct. | Nov. | Dec. | Av. |

^{1/} Based on regional estimates of concentrate ration values combined in proportion to the amount of concentrates fed for producing milk sold as both milk and cream in each region. For data by regions see "Rations Fed to Milk Cows", Bureau of Agricultural Economics, January 1948, and earlier issues.

1/ Simple average of monthly ratios.

2/ New series 1938 to date. Number of bushels of No. 3 Yellow corn at Chicago equivalent in value to 100 pounds of all purchases of hogs, 1915-37, and packer and shipper purchases of hawks and gilts, 1938-49.

3/ Number of bushels of corn equal in value to 100 pounds of hog, liveweight, based on local market prices.

Table 108.- Milk-feed and butterfat-feed-price ratios, United States by months, 1915-49 1/2

| Year | January | February | March | April | May | June | July | August | September | October | November | December | Average 2/ |
