INTRODUCTION

This edition of Livestock Market News Statistics and Related Data, representing the seventeenth of a series of statistical handbooks pertaining to the livestock, meat, and wool industries, has been compiled by the Livestock Branch of the Production and Marketing Administration, United States Department of Agriculture, for the use of producers, distributors, and others who are interested in statistics relating to these industries.

Most of the statistics included herein have been collected by field offices of the Market News Division, Livestock Branch, in connection with its market reporting activities. The estimates of numbers of livestock on farms, cattle and lambs on feed, lambs and pigs produced, prices received by farmers, and income data, originated in the Bureau of Agricultural Economics. Data showing the number of animals slaughtered and meats processed under Federal inspection are from the records of the Bureau of Animal Industry. Foreign trade, and basic income data are from the official records of the Department of Commerce; retail meat prices for the United States are from the official publications of the Bureau of Labor Statistics; and market-price data on livestock for years prior to 1918 were obtained from the Statistical Yearbook of the Chicago Daily Drovers Journal.

Data for earlier years have been dropped from many of the historical tables in order to improve readability. The statistics in this edition include the 1949 calendar year. Current data on many of the series included are carried in the weekly Market News, a mimeographed publication of the Livestock Branch.

3/ The classification "stock sheep and lambs" does not include sheep and lambs on feed for market.

4/ Includes colts.

Compiled from reports of the Bureau of Agricultural Economics.

Table 2.—Annual units of livestock: Estimated numbers, by classes, fed annually, year beginning October 1, 1919-50/

Table with columns for Year beginning Oct. 1, Units of grain consuming livestock (Dairy cattle, Beef cattle, Hogs, Sheep, Horses, Poultry, Total), and Units of roughage consuming livestock (Dairy cattle, Beef cattle, Sheep, Horses, Poultry, Total). Rows show data from 1919 to 1950.

1/ These two series of animal units on farms replace those heretofore compiled and published by the Bureau of Agricultural Economics. The previous series were based on the numbers of livestock and chickens on farms January 1, and did not include the many hogs and poultry fed during the year which are not on hand on January 1. The new series are intended to include all livestock fed during a year rather than only those on hand January 1. Another difference is that the new series are based on computations for each State separately. The units for each State are computed by multiplying the number of livestock in the State by a constant factor of feed consumption for that State, for each kind and class of stock. The factors vary as between States in accordance with differences in feeding practices commonly used. The feeding year commencing October 1, is the year to which the animal units relate. The "average" milk cow in the United States is used as the base determinant of 1 unit for both grain consuming and roughage consuming livestock. The factors used for grain consuming livestock represent the per-head consumption of grain and byproducts feeds by each class and kind of livestock in relation to that consumed by the average milk cow. Similarly the factors used for roughage consuming livestock represent the per-head consumption of total hay, silage, pasture and other roughage by each kind and class compared with that of the average milk cow.

^{1/} Estimates include only cattle being fattened for market as a more or less distinct agricultural enterprise, and excludes small operations incidental to dairy and general farming. Cattle thus fed are presumed to produce carcasses that will grade Commercial or better.

In addition there have been a number of cattle finished on distillery slop, mostly in Kentucky, and on byproduct feeds in other States not shown, as well as large numbers being winter fed in West Virginia, Virginia, Kentucky and some other States, to be marketed as grass fat in late summer.

^{1/} Data in this report are obtained from offices of State veterinarians. Under "Shipments from Public Stockyards" are included stockers and feeders which were bought at stockyards markets. Under "Direct Shipments" are included stockers and feeders coming from other States from points other than public stockyards. Some of these animals are inspected at public stockyards while stopping for feed, water, and rest en route.

Table 18. Feeder and stocker cattle: Number, and weighted average weight and cost of animals shipped from Chicago, Kansas City, Omaha, Sioux City, and South St. Paul, 1949

Table with columns for Month, Number shipped from 5 markets (Steers, Cows, Heifers, Calves), Average weight, and Average cost per 100 lb. Rows include monthly data from Jan to Dec and a total row, followed by daily data for each month.

^{5/} Commercial slaughter only during 1934, 1935, and 1936.

Compiled from meat inspection records of Bureau of Animal Industry.

Table 25.--Livestock: Federally inspected slaughter by regions, 1942-49
[In thousands, i.e., 000 omitted]

Table with 16 columns (Region and year, months Jan-Dec, Total) and 16 rows (Regions: North Atlantic, North Cent.-East, North Cent.-S.W., South Atlantic, South Central, Mountain, Pacific). Each row contains data for years 1942 through 1949, split into CATTLE and CALVES.

See footnotes at end of table.

Table 25.--Livestock: Federally inspected slaughter by region, 1942-49--Continued [In thousands, i. e., 000 omitted.]

Table with columns for Region and year, and rows for HOGS and SHEEP. The table is divided into 8 regional sections: North Atlantic, North Cent.-East, North Cent.-S. W., North Cent.-S. E., South Atlantic, South Central, Mountain, and Pacific. Each section contains monthly and annual totals for years 1942 through 1949.

1/ Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Delaware, and District of Columbia. 2/ Ohio, Indiana, Illinois, Michigan, and Wisconsin. 3/ North Dakota, South Dakota, Minnesota, Iowa, and Nebraska. 4/ Missouri and Kansas. 5/ Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, and Virgin Islands. Effective January 1947, slaughter in Virgin Islands is excluded from South Atlantic States. 6/ Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, and Texas. 7/ Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, and Nevada. 8/ Washington, Oregon, California, and Hawaii. Effective January 1947, slaughter in Hawaii is excluded from Pacific States.

Note: Monthly totals of less than 500 head not shown. This accounts for apparent discrepancies between yearly totals and sum of monthly figures listed. Data prior to 1942 may be found in earlier editions of this publication.

1/ Data for years prior to 1930 may be found in earlier editions of this publication.

2/ These series were computed by reducing to a 1910-14 base the Bureau of Labor Statistics' series, 1926=100. The list of farm products includes more than 50 items. The list of all commodities included 784 items from 1930-37 and over 800 items from 1938 to the present time.

^{1/} Data prior to 1935 may be found in earlier editions of this publication.

^{2/} Pork figures include all the dressed hog carcass but exclude head bones and all carcass fat rendered into lard. Lard figures from January 1937 represent amount rendered in federally inspected plants, as reported by Meat Inspection Division, Bureau of Animal Industry. Earlier figures were estimated by applying an average yield to the number of hogs passed for food.

^{3/} Includes rendered pork fat.

1/ Consumption of different types of meat converted to a retail weight and multiplied by retail price of each type to obtain retail value.

2/ Computed from income data of the U. S. Dept. of Commerce, 1929-49. Estimates for 1913-28 by Bureau of Agricultural Economics.

3/ Relationships in war years were greatly affected by price control and other circumstances. Data were included in order to provide a continuous series.

1/ Hair of angora goat, alpaca, and other like animals included in exports for years 1920-49. 2/ General imports less re-exports, 1920-33, inclusive. 3/ Computed from wool consumption reports of the Bureau of the Census. 4/ For the years 1930-35 the item "not finer than 40's" has been deducted from carpet wool totals reported by the Department of Commerce and added to apparel wool, thus making entire series comparable. 5/ Revised. 6/ Excludes 222,222,000 pounds in 1942; 275,476,000 pounds in 1943; 2,726,000 pounds in 1944; 5,373,000 pounds in 1945; and 15,000 pounds in 1946. Imported free of duty as an act of international courtesy. Wool so imported consisted almost entirely of wool stored in this country for the British Government. This wool was not available to United States mills. 7/ Not available.

Data for years prior to 1920 may be found in earlier editions of this publication.

1/ Based on shorn wool purchases of 288.6 million pounds, grease basis, or 122.4 million pounds, clean content, from April 1946 through February 1947, and pulled wool purchases of 39.6 million pounds, clean basis, from April 1946 through March 1947. These sales to Commodity Credit Corporation represent approximately the annual production of shorn and pulled wools at that time.

^{1/} Based on estimated weight of carcasses and meat products. Includes all gradings for the Commodity Credit Corporation. On Sept. 18, 1942, Office of Price Administration RMFR 169 required all Choice beef and veal to be graded by a U. S. official grader, and on Dec. 16, 1942, the order was revised to include all grades of beef except Cutter and Canner, and of veal except Cull. On Apr. 3, 1943, the order was again revised to include Cutter and Canner beef and Cull veal. On Apr. 10, 1943, RMFR 239 required grading of all lamb and mutton carcasses. On Oct. 16, 1946, grading of all meats was restored to a voluntary basis.
