Prepared by the Agricultural and Trade Outlook Branch, Market and Trade Economics Division, Economic Research Service, U.S. Department of Agriculture. The principal coordinator is Mary L. Fant. Ms. Fant also provides word processing and table formatting support. Carolyn L. Whitton is the reviewer. Editorial support is furnished by Martha R. Evans, Publishing and Communications Branch, Information Services Division, Economic Research Service. Data processing support is provided by Karen L. Mizer, Applications Development Branch, Information Services Division.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building. 14th and Independence Avenue, SW, Washington, DC 20250-9410, or call 202-720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

FOREIGN AGRICULTURAL TRADE OF THE UNITED STATES, CALENDAR YEAR 2000 SUPPLEMENT. Market and Trade Economics Division, Economic Research Service, U.S. Department of Agriculture.

ABSTRACT

This statistical reference summarizes current and historical data on U.S. foreign trade in agricultural products. Tables highlight commodity and country information, including values, quantities, markets for agricultural exports, and import sources.

Note to Subscribers

Monthly and annual export and import data are available electronically on the ERS web site. The Internet address is http://www.ers.usda.gov/data/fatus. The data files are spreadsheets with the WK1 or XLS extension or HTML format. The files are located under "other FATUS data".

Washington, DC 20036-5831 September 2001

SPECIAL NOTICE

This statistical report presents tables showing current and historical data on U.S. foreign trade in agricultural products. Commodity and country information are for the most recent 2-year period. Statistics for calendar year 2000 are preliminary.

U.S. foreign agricultural trade statistics in this report were derived from official data released by the Bureau of the Census. Agricultural commodities are defined as (1) nonmarine food products and (2) other products of agriculture, including fibers, raw hides and skins, fats and oils, and beer and wine, which have not passed through complex processes of manufacture. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and in-transit through the United States from one foreign country to another when documented as such by the U.S. Customs Service.

Trade statistics for selected nonagricultural products, including fertilizer, fish, agricultural chemicals, farm machinery, and manufactured tobacco, are presented at the end of the commodity group tables.

Exports

Exports data include "exports of domestic merchandise," defined as commodities grown, produced, or manufactured in the United States, and commodities of foreign origin that have been changed from the form in which they were imported. The export value is generally equivalent to a free-alongside-ship (f.a.s.) value at the United States port of export, based on the transaction price and including inland transportation, insurance, and other costs. Agricultural exports have been adjusted for transshipments through Canada based on information provided by the Grain Inspection, Packers and Stockyards Administration. More than 100 revisions have been incorporated into the 1999 and 2000 tables.

Imports

Import data are "imports for consumption," which include entries for immediate consumption and withdrawals from bonded customs warehouses. The import value is defined as the "customs value," based on the foreign market value, export value, or constructed value, and excludes import duties, freight, insurance, and other charges incurred in moving the commodity to the United States port.

1/ Calendar years ending December 31.
2/ Based on 40 major commodities comprising 86 percent of total U.S. agricultural import value in calendar 1987.
3/ Competitive agricultural imports consist of imports similar to agricultural commodities produced commercially in the United States, together with all other agricultural imports interchangeable to any significant extent with such U.S. commodities. All other commodities are considered noncompetitive.
4/ Preliminary.
