## INTRODUCTION

The Annual Report on Tobacco Statistics is a compilation of the most frequently used statistics relating to tobacco. Most of the data in this issue covers only the last 5 years; averages are included for earlier periods in some instances. Data covering longer periods may be found in the Annual Report on Tobacco Statistics for 1947.

Tobacco is a commodity that is important to agriculture and business and as a source of revenue for Federal, State, and local governments. Growers received \$1,166 million for the 1955 crop, and, in cash receipts to farmers, tobacco ranked fourth among the field crops. Total revenue derived from direct Federal and State tobacco taxes during the 1955-56 fiscal year exceeded \$2,000 million.

In 1955 leaf tobacco exports were valued at \$356 million and ranked third in value among agricultural export classifications. Cigarette consumption, as indicated by tax-paid removals, totaled 382 billion cigarettes in 1955. Estimated consumer expenditures for all tobacco products in the United States were about \$5.6 billion.

# BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes, types, and groups)

<sup>1</sup> This table is on a crop-year basis for 12 months beginning as follows: Types 11-14, 61 & 62, July 1; all other types, October 1. These crop years begin before any of the new crop for the current year has entered stocks. Disappearance for any crop year is the sum of the stocks at the beginning of the year plus the current crop minus stocks remaining at the end of the crop year.

<sup>2</sup> Estimated farm-sales weight of exports is subject to revision. Total exports of Black fat have been added to exports of the types which normally are used in making this type of "rehandled" tobacco. Exports of cigar leaf are not reported as to type, except for the binder class, in which types 51, 52, and "Wisconsin and other types" (53 - 55) are reported separately, beginning January 1952. Other export figures for cigar-leaf types are estimates.

<sup>3</sup> Domestic disappearance is total disappearance minus exports. Domestic disappearance includes leaf used by manufacturers in the United States, losses or wastage, and differences which may result from errors in estimates and conversions of weights.

<sup>4</sup> Preliminary.

<sup>5</sup> Exports and domestic disappearance shown under type 23 are combined totals for types 22-24. Production for type 24 not reported since 1949; see 1951 Annual Report for separate data for type 24.

<sup>6</sup> Includes type 45 in the 1934-38 average.

<sup>7</sup> Puerto Rican type 46 production is that which is planted in the fall of the crop year shown and harvested the following spring. Stocks consist of holdings in the United States and on the Island of Puerto Rico. Stocks on the Island estimated prior to 1936.

<sup>8</sup> Includes type 56 production from 1936 through 1948; disappearance through 1951.

Production and price statistics compiled from reports of the Agricultural Estimates Division, AMS (Puerto Rico excepted); stocks, Tobacco Division, AMS. Puerto Rican production and price data compiled from reports of the Bureau of Agricultural Economics of Puerto Rico.

<sup>1</sup> Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937.

<sup>2</sup> Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage.

<sup>3</sup> The general instructions for filing the tobacco stocks reports require dealers and manufacturers to indicate the weight basis on which stocks of unstemmed cigar leaf of the domestic types are reported, namely, farm-sales-weight, market weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amounts reported in these three categories.

<sup>4</sup> Foreign-grown stocks not converted to farm-sales-weight equivalent.

<sup>1</sup> Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consisted of cuttings, clippings, and trimmings. This is the result in most instances of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong. Also, includes stocks formerly reported as Type 71.

<sup>2</sup> Includes Type 77 Domestic Aromatic since April 1, 1951.

Compiled from quarterly Tobacco Stocks Reports, Tobacco Division, AMS. Consult the reports for further detailed information.

<sup>1</sup> Stocks of foreign-grown tobacco are not converted to farm-sales weight but are shown on an import-weight basis. However, for comparability, stemmed stocks have been converted to an unstemmed equivalent, and for this purpose a tentative factor of 1.205 has been used.

<sup>2</sup> Does not include stocks of Sumatra and Java leaf held in the Free Trade Zone.

Compiled from quarterly Tobacco Stocks Reports, Tobacco Division, AMS.

<sup>1</sup> The number of days on which sales were held. The regular auction sales week is Monday through Friday and is generally observed on the majority of markets.

<sup>2</sup> This market sells more than one type of tobacco and is listed under each type sold.

<sup>3</sup> Same set of buyers used for two or more markets as follows: Type 31 - Bowling Green and Horse Cave, Ky., third set alternating; Franklin and Russellville, Ky., one set; Louisville, Ky., and New Albany, Ind., two sets; Mayfield and Paducah, Ky., one set; Athens and Sweetwater, Tenn., one set; Columbia and Mt. Pleasant, Tenn., one set; Mountain City, Tenn., and Boone, N. C., one set in 1954-55; Type 35 - Franklin, Mayfield, Murray, Russellville, Ky., and Springfield and Westmoreland, Tenn., two sets.

<sup>4</sup> Same buyers used as for dark air-cured (Type 36), at Henderson, Ky.

<sup>5</sup> Sales of Southern Maryland occur in the year following production.

<sup>1</sup> Includes all disposals through November 30, 1956.

<sup>2</sup> Includes 70,187 thousand pounds, net packed weight (78,416 thousand pounds green weight), representing quantities purchased for British manufacturers, which they have since bought and shipped.

<sup>3</sup> Total does not include quantity of 1956 crop of flue-cured tobacco.

<sup>4</sup> Not available on a green-weight basis.

<sup>5</sup> Price support not in effect for 1951, 1952, 1954, and 1955 crops because growers disapproved market quotas.

<sup>6</sup> Includes Puerto Rican filler, type 46. Percentages are calculated on total cigar-leaf production basis.

<sup>7</sup> Comprised of Puerto Rican, type 46 only.

Note: Cumulative totals for the various groups do not in each case include quantities for all intervening years.

Compiled from official records with respect to Commodity Credit Corporation operations and Tobacco Division, CSS.

<sup>1</sup> Loan levels as shown indicate availability of loans, whether a program was in operation or not. Loan levels are based on 90 percent of the parity price, with the following exceptions: Fire-cured and dark air-cured classes, which are 75 percent and 66-2/3 percent respectively of the Burley loan rate; types comprising the filler and binder group, which are adjusted-type differentials based on the parity price for the group; Maryland and the cigar filler and binder types in 1950, which were 86 percent of parity; loan rates as shown for the 1952 to 1955 crops (excepting Puerto Rican) are minimum levels as announced in March, which were higher than 90 percent of parity as of the beginning of the marketing year (according to legislation, loan levels shall be the higher of the two); Puerto Rican 88 percent of parity in 1955, and 89 percent in 1956.

<sup>2</sup> The marketing year begins as of July 1 for flue-cured and cigar wrapper, and October 1 for all other types.

<sup>3</sup> Announced "no support." Growers disapproved quotas.

<sup>4</sup> Includes type 46 through 1950.

<sup>5</sup> Mandatory loans not applicable.

<sup>6</sup> Beginning in 1951 type 46 is a separate kind of tobacco.

Compiled from records of the Tobacco Division, CSS.

<sup>1</sup> As imposed by the Internal Revenue Act of February 26, 1926.

<sup>2</sup> Rates under the Internal Revenue Act of 1951, effective November 1, 1951, remain unchanged from those imposed by the Internal Revenue Act effective November 1, 1942, except as follows: Cigarettes weighing not more than 3 pounds per 1,000, increased to \$4.00 per thousand from \$3.50 per thousand (under the Internal Revenue Act of 1951 the 8-cent-per-pack rate (\$4.00 per thousand) for small cigarettes will continue in effect until April 1, 1957, and then will revert to 7 cents (\$3.50 per thousand)); smoking and chewing tobacco and snuff lowered to 10 cents per pound from 18 cents per pound.

<sup>3</sup> Cigarettes weighing more than 3 pounds per 1,000 which are more than 6 1/2 inches in length are taxable at the rate imposed on cigarettes weighing less than 3 pounds per 1,000, counting each 2 3/4 inches or fraction thereof of the length of each as one cigarette. This provision was first imposed by the Revenue Act of May 10, 1934, amending the Revenue Act of February 26, 1926.

<sup>4</sup> Rate effective July 1, 1940, changed tax on large cigarettes from \$7.20 to \$7.80, and on small cigarettes from \$3.00 to \$3.25.

<sup>1</sup> Rate increased from 3 to 4 cents for a nine month period beginning February 1, 1956, and terminating October 31, 1956.

Notes:

About half the States listed under Cigarettes impose varying tax rates for cigarettes of other quantities, sizes, weights, etc.

Some States having general sales taxes, but no specific tax on tobacco, include tobacco in the base of sales tax. Some cities also levy taxes on cigarettes; for example, the New York City tax rate is 1 cent per package, effective May 26, 1952. The Chicago tax of 1 cent per package, effective October 1, 1953, was abated on August 1, 1955, upon the adoption of a municipal retailers' occupation tax.

Compiled principally from Tax Systems, Commerce Clearing House, Inc., and brought up to date from records of the National Tobacco Tax Association.

<sup>1</sup> Does not include locally imposed and collected tax receipts, or locally imposed tax amounts collected by the State and returned to local governments.

<sup>2</sup> Preliminary.

<sup>3</sup> Beginning 1955-56, figures are for fiscal years ending June 30. Prior year figures are on former fiscal-year bases (Alabama, September 30; and Texas, August 31).

<sup>4</sup> Fiscal year ending March 31. <sup>5</sup> Fiscal year ending May 31.

<sup>6</sup> Beginning 1953-54, figures are for fiscal years ending June 30. Prior year figures are on former fiscal-year bases (Washington, March 31; and Wyoming, September 30).

<sup>7</sup> The total revenue derived from taxes on tobacco products by States and local governments amounted to 508 million dollars during fiscal year 1954-55. (This is the first year this information has been compiled and the figure including local governments is not yet available for the fiscal year 1955-56.)

Note: Totals for several of the States include related license taxes.

Compiled from reports of the Bureau of the Census, Department of Commerce; data for the District of Columbia from the Office of the Collector of Taxes.

<sup>1</sup> The Philippine Trade Agreement Revision Act of 1955, Public Law 196, 84th Congress, approved August 1, 1955, eliminates the absolute quotas of 200 million cigars and 6-1/2 million pounds of scrap and filler tobacco. For duty purposes, an amount equivalent to 95 percent of the former absolute quotas in each case may be admitted duty free during the calendar years 1956-58, with quantities in excess of 95 percent of the base figure dutiable at the Cuban rate.

<sup>2</sup> Rates shown are those which were in effect as of November 1956. Rates for imports from countries or areas under Communist domination or control are those as listed under the Tariff Act of 1930, effective varying dates by countries from Sept. 1, 1951, to Jan. 5, 1952, under Section 5 of the Trade Agreement Extension Act of 1951.

<sup>3</sup> Effective June 30, 1957, rate will be 13-1/2 cents per pound, and will be lowered to 12-3/4 cents per pound effective June 30, 1958.

<sup>4</sup> Effective June 30, 1957, rate will be \$2.02 per pound, plus 11% ad valorem; effective June 30, 1958, rate will be \$1.91 per pound, plus 10-1/2% ad valorem.

<sup>5</sup> Effective June 30, 1957, rate will be \$1.12 per pound plus 5-1/2% ad valorem; effective June 30, 1958, rate will be \$1.06 per pound, plus 5% ad valorem.

<sup>6</sup> Effective June 30, 1957, rate will be \$1.35 per pound plus 9% ad valorem; effective June 30, 1958, rate will be \$1.27 per pound, plus 8-1/2% ad valorem.
