Milk Marketing Orders Division
Agricultural Marketing Service
UNITED STATES DEPARTMENT OF AGRICULTURE
Washington, D. C.

1962 SUMMARY OF FEDERAL MILK ORDER MARKET STATISTICS

Federal milk marketing orders are established under the authority of the Agricultural Marketing Agreement Act of 1937, as amended. The Secretary of Agriculture is authorized by this statute, under certain conditions and with producer approval, to issue milk marketing orders which require handlers to pay at least the minimum specified prices for milk purchased from producers. The complete orders are published in the United States Code of Federal Regulations, Parts 1,000 through 1,159.

The data in this compilation have been compiled from reports made by market administrators who administer these orders in the respective markets. The data for 1962 are preliminary; those for 1961 are revised.

Similar data for 1947-56 and an explanation of terms may be found in Federal Milk Order Market Statistics, Statistical Bulletin No. 248, issued May 1959. Revised data for 1957 and preliminary data for 1958 are contained in the supplement to Statistical Bulletin No. 248 which was issued January 1960. Revised data for 1958 and preliminary 1959 data are contained in the supplement which was issued October 1960; revised 1959 and preliminary 1960 data are shown in the supplement issued December 1961, and the supplement issued in November 1962 contained preliminary 1961 and revised 1960 data.

The following corrected data should be substituted as indicated on the pages and tables of the 1961 supplement to Statistical Bulletin No. 248:

Page No. 28 Table No. 12	Philadelphia	May	1960	Average Deliveries	713 lb.
Page No. 57 Table No. 24	Texas Panhandle	Nov.	1960	Class I Price	\$5.56
	Texas Panhandle	Dec.	1960	Class I Price	\$5.67
Page No. 35 Table No. 34	Austin-Waco	July	1960	Blend Price	\$5.42

This is an annual summary of statistical data published in the monthly report which also is entitled "Federal Milk Order Market Statistics." Previously, these annual data were published as a supplement to Statistical Bulletin No. 248.

Issued August 1963

1/ Economic index times base price or manufacturing milk price used as base.

2/ Annual average of differentials specified in order to be added to the manufacturing milk price.

3/ Zero indicates seasonal variation did not affect annual average, dash indicates no seasonal adjustment in the order, and figures indicate order effective part of year, amended during year, or seasonal factor is expressed as a percentage.

4/ Computed amount per formula.

5/ Effective amount of adjustment varied by suspension, temporary increase, floor based on another market, limit on supply-demand adjustment, bracketing, or conversion of basic formula to 3.5 percent butterfat test by direct ratio.

6/ Economic index.

7/ Class I price specified in order.

1/ Includes whole milk equivalent of concentrated milk: 1961: .8 thousand pounds, 3.39 percent. 1962: .7 thousand pounds, 3.27 percent.

2/ Not reported or insignificant; assumed to be zero in computing total percentage. 3/ Less than 0.05 thousand pounds. 4/ Buttermilk includes small quantities of yogurt and cultured specialties, except in Boston, Springfield, and Worcester for which yogurt data were not available.

5/ Includes estimates of sales not currently reported for Boston, Springfield, and Worcester. 6/ Included with light cream.

7/ Included with fortified skim. 8/ Included with plain skim. 9/ Annual sales based on marketing area as defined after April 1, 1961,

Cincinnati; May 1, 1961, Fort Wayne. 10/ Annual sales based on marketing area as defined prior to March 1, 1962, Central Arkansas, and Inland Empire; June 1, 1962, Milwaukee; August 1, 1962, Fort Wayne. 11/ Sales represent the combined area of Ohio Valley and Louisville-Lexington as they were defined prior to the merger and area expansion of March 1, 1962.

12/ Included with plain whole milk. 13/ Included with mixtures.

END
