1966 SUMMARY OF FEDERAL MILK ORDER MARKET STATISTICS

Federal milk marketing orders are established under the authority of the Agricultural Market Agreement Act of 1937, as amended. The Secretary of Agriculture is authorized by this statute, under certain conditions and with producer approval, to issue milk marketing orders which require handlers to pay at least the minimum specified prices for milk purchased from producers. The complete orders are published in the United States Code of Federal Regulations, Parts 1,000 to 1,199.

This is an annual summary of statistical data published in a monthly report which also is entitled, "Federal Milk Order Market Statistics." These data have been compiled from reports made by market administrators who administer these orders in the respective markets. The data for 1966 are preliminary; those for 1965 are revised.

Similar data for the 1947-65 period may be found in the following publications:

Federal Milk Order Market Statistics: Statistical Bulletin No. 248, issued in May 1959, contained an explanation of statistical terms and data for 1947-56. Supplements to this statistical bulletin were issued in:
