UNITED STATES DEPARTMENT OF AGRICULTURE

1968 SUMMARY OF FEDERAL MILK ORDER MARKET STATISTICS

Federal milk marketing orders are established under the authority of the Agricultural Marketing Agreement Act of 1937, as amended. The Secretary of Agriculture is authorized by this statute, under certain conditions and with producer approval, to issue milk marketing orders which require handlers to pay at least the minimum specified prices for milk purchased from producers. The complete orders are published in the United States Code of Federal Regulations, Parts 1,000 to 1,199.

This is an annual summary of statistical data published in a monthly report which also is entitled, "Federal Milk Order Market Statistics." These data have been compiled from reports made by market administrators who administer these orders in the respective markets. The data for 1968 are preliminary; those for 1967 are revised.

Similar data for the 1947-67 period may be found in the following publications:

1/ Revised data for 1966 and preliminary for 1967.

2/ Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders. In most markets yearly deliveries by State are based on the relationship of deliveries in one month.

3/ Computed from data contained in "Milk Production, Disposition, and Income," 1966-67.

4/ Percentage Federal order deliveries are of milk sold to plants and dealers that is eligible for fluid use ("Grade A" in most States).

5/ Less than one-half of one percent.

6/ Not published to avoid disclosing individual operations for manufacturing grade milk.

7/ Less than 500 thousand pounds.
