1/ This table is on a crop-year basis for 12 months beginning as follows: types 11-14 and 61-62, July 1; all other types, October 1. Disappearance for any crop year is the sum of the stocks at the beginning of the year plus the current crop minus stocks remaining at the end of the crop year. Exports are on a farm-sales-weight basis. Domestic disappearance is total disappearance minus exports, and includes leaf used by manufacturers in the United States, losses or wastage, and differences which may result from errors in estimates and conversions of weights.

2/ Preliminary.

3/ Producers' sales substituted for production.

4/ Puerto Rican type no production is that which is planted in the fall of the crop year shown and harvested the following spring.

Production and price statistics (except Puerto Rican) compiled from reports of the Agricultural Estimates Division, SRS (Puerto Rican from reports of the Bureau of Agricultural Economics of Puerto Rico); stocks from reports of the Tobacco Division, AMS, and exports from reports of the Bureau of the Census, U. S. Department of Commerce.

Legislation approved February 20, 1960, provided that price supports for the 1960 crop be the same as for 1959, and that for subsequent crops they be adjusted according to the percentage change between (1) the 1959 parity index and (2) the average of the parity indexes for the three calendar years just preceding the year for which the supports are being determined.

1/ The marketing year begins as of July 1 for flue-cured and cigar wrapper, and as of October 1 for all other types.

2/ Announced "no support." Growers disapproved quotas.

Compiled from records of ASCS.

1/ A two-thirds majority of farmers voting is required to place marketing quotas in effect. Legislation approved in August 1955 required that voting be for a 3-year period only. For record of crops covered for the years 1938, 1939, and 1940, see previous editions of this publication. 2/ Special referendum on acreage-poundage program. 3/ Redetermined quotas for Burley for the 1955 crop. 4/ Flue-cured (21-24) and dark air-cured (35-36): referendums for both kind combined for the crops of 1938 and 1939; quotas for the 1943 crop terminated August 14, 1943; and quotas were not in effect for the crops of 1944 and 1945.

1/ Number burley poundage quotas; included in grand total.

2/ The control program for burley, the second largest type, is now based entirely on pounds, therefore a grand total acreage without burley would be misleading. For information on burley acreage see table number 1.

3/ Quotas disapproved by growers.

Compiled from records of Agricultural Stabilization and Conservation Service.

1/ Type 73 is defined as all domestic tobacco not otherwise classified.

2/ Separate reporting of Mexican stocks was not required until October 1968. In previous quarters Mexican totals were included as other foreign-grown cigar-leaf. Other foreign-grown leaf is now type 89.

3/ These tobaccos were previously grouped together and reported as type 90. Beginning January 1, 1971, they were reclassified as: oriental and aromatic, type 91; foreign-grown flue-cured, type 92; and foreign-grown burley, type 93.

Compiled from quarterly Tobacco Stocks Reports, Tobacco Division, AMS.

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Consult official tariff schedules for a complete listing of rates. 2/ Staged rates as the result of the Kennedy round, other items unchanged. 3/ Section 3 of the Trade Agreement Extension Act of 1951 requires imports from most Communist Countries to enter at the 1930 rates. 4/ The Philippine Trade Agreement Revision Act of 1955 eliminated the absolute quotas of 300 million cigars and 6-1/2 million pounds of scrap and filler tobacco. Specified amounts are admitted duty free each year, through 1971, with the excess entering at regular or preferential rates. The duty free quotas for 1969-1973 were 2.6 million pounds of scrap and filler and 60 million cigars. For 1971-73 they are 1.3 million pounds and 40 million cigars. Foreign Agricultural Service. Compiled from U. S. Tariff Commission, U. S. Department of Commerce.
