STATISTICAL BULLETIN NO. 533
JULY 1974

UNITED STATES DEPARTMENT OF AGRICULTURE
Agricultural Marketing Service
Fruit and Vegetable Division
Washington, D. C.

P R E F A C E

This summary reports shipments of fresh fruits and vegetables by States of origin. States for which shipments are reported in limited volume are reported in a single table outlining rail shipments by commodities, waybilling stations and months and truck shipments by commodities and months. Two tables are shown for those States which originate substantial rail shipments of the reported products. Table A summarizes rail and truck shipments by commodities and months for each State. Table B reports rail shipments by commodities, counties, waybilling stations and months. A third table - Table C - for Arizona, California, Florida, Texas and Washington shows segregation of rail-truck (*piggyback*) shipments by commodities, counties, waybilling stations and months. *These rail-truck shipments are included in the totals by commodities and months, and counties and stations as reported in Tables A and B and should not be interpreted to be in addition to total rail shipments shown in those tables.* Rail-truck from other States is identified by R/T adjacent to station name. Rail-truck is reported by actual van or trailer count. Each van is counted the same as a standard refrigerator car.

Truck shipments for all commodities and origins are not available. Those obtainable are reported, *but should not be interpreted to represent complete truck movements.* Arizona and Florida truck represent interstate movement only. Truck reported for all other States is collected at shipping points and includes both *inter* and *intrastate* movements.

A list of commodities reported in this summary and an index of the State tables are shown on page 4. A table outlining representative factors used to convert truck, boat and air to rail carlot equivalents is shown on page 5.

The detail tables by commodities and waybilling stations identify boat shipments as such. Air shipments of California, Oregon and Washington products are identified in these tables.

Cooperation of transportation agencies in reporting rail and air movements and State officials assisting in reporting all truck data is hereby gratefully acknowledged.

1/ The monthly carlot values in this table were computed from representative average prices including both private sales and auction transactions, and average quantities per carload of each leading fruit and vegetable. For each commodity this average monthly carlot value was weighted by domestic carload, boat and available truck unloads in obtaining a monthly average carlot value for all commodities. Estimated values for the year were obtained by weighting the monthly figures shown in the table by the monthly unloads.

Fruits include: apples, blueberries, cantaloups, cherries, cranberries, grapefruit, grapes, honeydew melons, lemons, oranges, peaches, pears, plums and fresh prunes, strawberries and watermelons.

Vegetables include: asparagus, snap beans, beans, broccoli, cabbage, carrots, cauliflower, celery, corn, cucumbers, eggplant, escarole, lettuce, mushrooms, onions, peas, peppers, potatoes, radishes, spinach, sweetpotatoes and tomatoes.

The ratio of the volume used each month to total domestic unloads varied generally from 85 to 95 percent. Some of the minor commodities were not used in the computations. Their inclusion would make little difference in the average value per car.

Table 4. --Index of wholesale value of fresh fruits and vegetables at New York City and Chicago, by months, 1954-1973 1/

Corresponding month 1967 = 100

1/ THE INDEX OF WHOLESAL VALUEs presented in this table were computed from prices representing private and auction sales weighted according to the unloads of each fruit and vegetable for that month. Index numbers for the year were obtained by weighting the monthly data by the unloads for the respective months.

The following fruits and vegetables are included: apples, blueberries, cantaloups, cherries, cranberries, grapefruit, grapes, honeydew melons, lemons, oranges, peaches, pears, plums and prunes, strawberries, watermelons, asparagus, snap beans, beets, broccoli, cabbage, carrots, cauliflower, celery, yellow corn, cucumbers, eggplant, escarole, lettuce, mushrooms, onions, peas, peppers, potatoes, radishes, spinach, sweetpotatoes and tomatoes.
