STOCKS OF GRAINS, OILSEEDS, AND HAY: FINAL ESTIMATES BY STATES, 1978-83.  
Crop Reporting Board, Statistical Reporting Service, U.S. Department of  
Agriculture. Statistical Bulletin No. 707.

#### ABSTRACT

This publication presents final estimates of stocks of U.S. grains, oilseeds and hay during 1978-83. Some estimates have been revised slightly since they first appeared in Crop Reporting Board releases. Estimates contained in this publication provide a historic record and a benchmark for current estimates.

## STOCKS OF GRAINS, OILSEEDS, AND HAY

Final Estimates by States, 1978-83

This bulletin presents final estimates of stocks of grains, oilseeds, and hay in the United States during the years 1978-83. Preliminary estimates were published currently during that period in quarterly and other periodic Crop Reporting Board releases.

Estimates of farm stocks are made in the form of percentages of production, i.e., the amount of each commodity on farms expressed as a percentage of the previous year's production. These percentages are then converted to actual quantities by applying the adopted percentages of each crop to the estimated production. The farm stocks revisions published herein result primarily from 1979-82 production revisions as published June 1984 in "Field Crops: Final Estimates by States, 1978-82, Preliminary 1983," Statistical Bulletin No. 708. However, some revisions came after review of original data, export data, quantities processed data, and U.S. Department of Agriculture farm program administrative records.

Estimates of off-farm stocks, which are based on quarterly surveys of mills, elevators and warehouses, are largely a re-issue of the latest quarterly tables, although a few revisions were made on the basis of data that became available since the previous issuance.

Stocks estimates for earlier years are available in Statistical Bulletin No. 649 for 1974-79, No. 592 for 1969-75, No. 508 for 1964-70, No. 395 for 1959-65, No. 304 for 1954-60, and No. 203 for 1949-55. Statistical Bulletin No. 203 also presents U.S. estimates back to October 1, 1935.
