Livestock and Meat Statistics, 1983

INTRODUCTION

Data published in Livestock and Meat Statistics originate in the Livestock Division, Agricultural Marketing Service (AMS); Estimates Division, Statistical Reporting Service (SRS); and National Economics Division, Economic Research Service (ERS). Data compiled by these divisions from other Government sources include statistics on the number of animals slaughtered under Federal inspection and the quantity of meat processed. The Animal and Plant Health Inspection Service (APHIS) prepared these data. The Department of Commerce's Bureau of the Census provided foreign trade data.

Figures for continuing most of the tables in this edition on a weekly or monthly basis are published currently, principally in the statistical releases of SRS and the Livestock, Meat, and Wool Market News, issued weekly by AMS. The Livestock and Poultry Situation, issued bimonthly by ERS, includes up-to-date information on meat consumption and other selected statistical series.

This publication is the tenth supplement to Statistical Bulletin No. 522, Livestock and Meat Statistics, which was first published in 1973. (The 1974 issue was published as Statistical Bulletin No. 543.) The original bulletin, Statistical Bulletin No. 230, was published in 1958 and should be referred to for historical information prior to 1950. Statistical Bulletin No. 333 was published in 1963 and contains long-term historical series starting with 1950. Annual supplements to that publication were published from 1964 to 1972.

- 1/ NUMBER OF FEEDLOTS WITH 1,000 HEAD OR MORE CAPACITY IS NUMBER OF LOTS OPERATING ANYTIME DURING YEAR. NUMBER UNDER 1,000 HEAD CAPACITY IS NUMBER AT END OF YEAR.
- 2/ INCLUDED WITH OTHER SIZE GROUPS TO AVOID DISCLOSING INDIVIDUAL OPERATIONS.
- 3/ THE 13 STATE TOTALS SHOW ACTUAL NUMBER OF FEEDLOTS AND NUMBER OF ANIMALS MARKETED IN EACH SIZE GROUP. THE SUM OF NUMBERS SHOWN BY STATES UNDER A SPECIFIED SIZE GROUP MAY NOT ADD TO 13 STATE TOTAL FOR THAT SIZE GROUP, SINCE FOR SOME STATES SIZE GROUPS ARE COMBINED TO AVOID DISCLOSING INDIVIDUAL OPERATIONS.
- * LOTS AND MARKETINGS FROM OTHER SIZE GROUPS ARE INCLUDED TO AVOID DISCLOSING INDIVIDUAL OPERATIONS.

1/ Revised series. 2/ Estimated weighted-average price of retail cuts from Choice yield grade 3 carcass. 3/ Value of carcass-quantity equivalent to 1 pound of retail cuts. A wholesale-carcass equivalent of 1.464 pounds was used prior to 1970. It was increased gradually to 1.476 pounds in 1976 and later years. 4/ Portion of gross carcass value attributed to fat and bone trim. 5/ Gross carcass value minus carcass byproduct allowance. 6/ Market value to producer for quantity of live-animal equivalent to 1 pound of retail cuts. The farm-product equivalent of 2.36 pounds was used prior to 1970; it was increased gradually to 2.40 pounds in 1976 and later years. 7/ Portion of gross farm value attributed to edible and inedible byproducts. 8/ Gross farm value minus farm byproduct allowance. 9/ Percent net farm value is of retail price. 10/ ERS data through May 1981, BLS series since June.

1/ Revised series. 2/ Estimated weighted-average price of retail cuts from pork carcass. 3/ Value of wholesale-quantity equivalent to 1 pound of retail cuts. A wholesale-carcass equivalent of 1.06 pounds is used for all years. 4/ Market values to producer for quantity of live-animal equivalent to 1 pound of retail cuts. The farm-product equivalent of 2.12 pounds was used prior to 1959; it was decreased gradually to 1.70 pounds in 1977 and later. 5/ Portion of gross farm value attributable to edible and inedible byproducts. 6/ Gross farm value minus byproduct allowance. 7/ Percent net farm value is of retail price. 8/ ERS data through May 1981, BLS series since June.

1/ For explanation of procedures, see the August 1978 Livestock and Meat Situation (LMS-222) special article. 2/ Average price per 100 pounds of barrows and gilts at seven leading public stockyards. Yearly average is a weighted average rather than a simple monthly average. 3/ Wholesale value of fresh and cured wholesale cuts and byproducts per 100 pounds live weight. 4/ Average price of 100 pounds wholesale cuts for Midwest plus transportation differential. 5/ Values calculated from retail prices reported to USDA-ERS meat survey by a group of retail chains until June 1981; later values are based on BLS retail price statistics. From 100 pounds of wholesale pork cuts, 94.3 pounds are sold at retail.

RELATED REPORTS

Characteristics of Farmer Cattle Feeding examines the decline in the number of farmers feeding cattle and the rise of commercial cattle feeding operations. August 1983. 48 pp. \$3.75. Order SN: 001-000-04361-7.

U.S. Hog Industry examines the rapid move to fewer and larger hog operations that draw on more capital-intensive technologies, like special housing with automated cleaning and feeding equipment. Although there were 78 percent fewer hog farmers in 1978 than in 1950, they produced about as much pork, and were located in the same regions of the country. About 40 percent of all hogs in 1980 were produced in operations selling 1,000 or more head (accounting for 3 percent of total U.S. hog farms). June 1984. 116 pp. \$4.50. Order SN: 001-000-04408-7.

The U.S. Beef Cow-Calf Industry looks at the structure and operating practices of U.S. beef cow-calf operations. The number of beef cows in the four major U.S. cow-calf production regions fell by about one-fifth between 1975 and 1980 in response to sharp reductions in feeder cattle prices and increases in production costs during the midseventies. September 1984. 72 pp. \$2.75. Order SN: 001-000-00352-9.

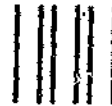

The U.S. Poultry Industry: Changing Economics and Structure examines why per capita consumption of poultry meat in 1981 nearly doubled since 1960, but retail prices rose only 74 percent for broilers, 67 percent for turkeys, and 59 percent for eggs. July 1983. 32 pp. \$3.25. Order SN: 001-000-04342-1.
