An electronic database containing the data in this report is available. This database is in the form of ASCII files on a DOS-compatible, 3.5", 1.44 Mb diskette.

To order, just dial 1-800-999-6779. Toll free in the United States and Canada. Other areas, please call 1-703-834-0125.

Ask for *Foreign-owned Agricultural Land*, order #87015, \$35. For non-U.S. addresses (including Canada), add 25 percent. Charge your purchase to your VISA or MasterCard. For further information on this database, write to J. Peter DeBraal, Room 438, 1301 New York Avenue, NW, Washington, DC 20005-4788 or phone 202-219-0425.

This database is also available on the worldwide Internet through a cooperative project between ERS and the Albert R. Mann Library at Cornell University. For access:

1. Gopher client--gopher usda.mannlib.comell.edu 70.
2. Telnet--telnet usda.mannlib.comell.edu and login as "usda" (no password is needed). This will connect you to the Gopher with the basic Unix client.
3. FTP--ftp usda.mannlib.comell.edu, login as "anonymous" with your ID name or e-mail address as the password, then cd usda.

For further information about Internet access methods, please write to Oya Rieger, Albert R. Mann Library, Cornell University, Ithaca, NY 14853-4301 (oyr1@comell.edu) or phone 607-255-7960.

Foreign Ownership of U.S. Agricultural Land Through December 31, 1993, by J. Peter DeBraal, Resources and Technology Division, Economic Research Service, U.S. Department of Agriculture. Statistical Bulletin No. 879.

Abstract

Foreign persons owned 14.6 million acres of U.S. agricultural land as of December 31, 1993. This is slightly more than 1 percent of all privately held agricultural land and 0.65 percent of all land in the United States. These and other findings are based on an analysis of reports submitted in compliance with the Agricultural Foreign Investment Disclosure Act of 1978.

Keywords: Agricultural land, foreign landownership, landholdings, land acquisitions, land dispositions.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA Office of Communications at (202) 720-5881 (voice) or (202) 720-7808 (TDD).

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, DC 20250, or call (202) 720-7327 (voice) or (202) 720-1127 (TDD). USDA

Preface

This report is made pursuant to section 5 of the Agricultural Foreign Investment Disclosure Act of 1978, which, among other things, requires the Secretary of Agriculture to prepare an analysis of foreign ownership of U.S. agricultural land. The act requires an annual report to the President and the Congress on a calendar-year basis. This report covers information received through December 31, 1993.

Summary

Foreign persons reported that they owned 14.6 million acres, or slightly more than 1 percent of the 1.3 billion acres of privately owned U.S. agricultural land (farm and forest land) as of December 31, 1993. This is an increase of 140,141 acres from the 1992 data. These and other findings are based on an analysis of reports submitted to the U.S. Department of Agriculture under the Agricultural Foreign Investment Disclosure Act of 1978.

Information received at the time of reporting shows that forest land accounts for 48 percent of all foreign-owned acreage, cropland for 17 percent, pasture and other agricultural land for 32 percent, and nonagricultural land for 3 percent.

Corporations own 71 percent of the acreage; partnerships, 21 percent; and individuals, 6 percent. The remaining 2 percent is held by estates, trusts, institutions, associations, and others.

U.S. corporations in which foreign persons have a significant interest or substantial control reported owning 53 percent of the foreign-held acreage. The remaining 47 percent was reported as held by foreign persons not affiliated with a U.S. corporation.

Foreign persons from Canada, the United Kingdom, Germany, France, Switzerland, the Netherlands Antilles, and the Netherlands account for 72 percent of the foreign-held acreage. Foreign persons from Japan own only 3 percent of the foreign-owned acres.

A number of parcels are owned only in part by foreign investors; that is, the foreign interest in some parcels is less than 100 percent, with the remaining percentage being owned, for example, by a U.S. partnership. When the 14.6 million acres are adjusted for these partial interests, the total foreign-owned acreage drops to an equivalent of 13.3 million acres.

The largest number of acres owned by foreign persons was reported in Maine. Foreign holdings in Maine account for 13 percent of Maine's privately owned agricultural land and 17 percent of all the reported foreign-owned agricultural land nationwide. Four companies own 88 percent of the foreign-held acres in Maine, all in forest land. Two companies are Canadian, the third is a U.S. corporation that is partially Canadian owned, and the fourth is a U.S. corporation that is partially French owned.

Except for Maine, foreign holdings are concentrated in the West (35 percent) and South (34 percent). Rhode Island is the only State with no reported foreign-owned agricultural land.

Foreign persons do not appear to be taking purchased agricultural land out of production. No change in intended use at the time of filing was reported for 94 percent of the acres.

No change in tenure was reported for 46 percent of the acres, while some change was reported for 26 percent of the acres. No

responses regarding tenure change were received for the remaining 28 percent of the acres.

Foreign ownership of U.S. agricultural land has remained relatively steady from 1981 through 1993, slightly above or below 1 percent of the privately owned agricultural land in the United States.

Data gathering and analysis cost the U.S. Department of Agriculture approximately \$465,000 for 1993.

Foreign Ownership Of U.S. Agricultural Land Through December 31, 1993

J. Peter DeBraal*

A Report to the President and the Congress
Under the Agricultural Foreign Investment Disclosure Act of 1978

Introduction

Foreign individuals and entities reported owning 14.6 million acres of U.S. agricultural land as of December 31, 1993. This is slightly more than 1 percent of all privately owned U.S. agricultural land and approximately 0.65 percent of all land in the United States.

Summary of the Act and Regulations

The Agricultural Foreign Investment Disclosure Act of 1978 (AFIDA) 1/, as implemented by the regulations 2/, required all foreign persons holding agricultural land as of February 1, 1979, to file a report of such holdings with the Secretary of Agriculture by August 1, 1979. All foreign persons who acquire or dispose of agricultural land on or after February 2, 1979, are required to report such transactions within 90 days of the transfer. In addition, any foreign person who holds land that subsequently becomes or ceases to be agricultural land or any person who holds agricultural land who subsequently becomes or ceases to be a foreign person must also file a report within 90 days of such change.

AFIDA specifies in detail the information to be supplied by the foreign person and provides that necessary additional information may be obtained by the Secretary. The information required to be reported consists of the legal name and address of the foreign person; citizenship, if an individual; if not an individual or a government, nature of the legal entity, including the entity's

*General Attorney, Resources and Technology Division, Economic Research Service. Gertrude Butler and Joyce Su provided the data processing assistance.

1/ Pub. L. No. 95-460, 7 U.S.C. §§ 3501-3508 (1988).

2/ 7 C.F.R. §§ 781.1-.6 (1993), 58 Fed. Reg. 48,274 (1993). See 7 C.F.R. §§ 2.21(b)(29), .27(a)(12), .65(a)(30), and .84(a)(7) (1993) for the delegation of authority.

country of creation and principal place of business; type of interest; legal description; acreage; purchase price or any other consideration given; intended use; where applicable, information about the representative of the foreign person; how the interest in the land was transferred; the relationship of the foreign owner to the operator; type of rental agreement, if any; and the date the interest in the land was transferred. In the case of a disposition, the party disposing of the interest is also required to give the legal name and address of the purchaser; citizenship, if the purchaser is an individual; and if the purchaser is not an individual or government, the nature of the entity, country of creation, and principal place of business. Any change in the legal name or address of the foreign person must also be reported within 90 days of such changes. Failure to comply with AFIDA subjects the foreign owner to a possible civil penalty of up to 25 percent of the fair market value of the interest held in the land in question.

In accordance with section 7 of the act, completed report forms are made available for public inspection in Washington, DC, within 10 days of receipt by the Secretary. Section 6 of the act requires that every 6 months the Secretary transmit to each State completed report forms for foreign-owned agricultural land in that State.

Definitions

For this report, the term "holdings" applies to all U.S. agricultural land owned by foreign persons as of December 31, 1993. For transactions that occurred in 1993, the terms "acquisitions" and "dispositions" refer to U.S. agricultural lands acquired or disposed of by foreign persons. These terms are used as the titles for the subsequent sections analyzing the data reported under the act.

"Agricultural land" is defined in the act as all land used for agricultural, forestry, or timber production. The regulations further define agricultural land as all land used for farming, ranching, or timber and include currently idle land if its last use within the past 5 years was for farming, ranching, or timber production. The regulations also exempt all agricultural land not more than 10 acres in the aggregate if the annual gross receipts from the sale of farm, ranch, or timber products from such land do not exceed \$1,000.

AFIDA requires reporting "any interest" in the land other than a security interest (a mortgage or other debt-securing instrument). The regulations exempt leaseholds of less than 10 years' duration, contingent future interests, noncontingent future interests that do not become possessory upon termination of the present estate, nonagricultural easements and rights-of-way, and interests solely in mineral rights.

A "foreign person," as defined in the act, includes any individual who (1) is not a U.S. citizen or national, (2) is not a citizen of the Northern Mariana Islands or the Trust Territory of

the Pacific Islands, or (3) is not lawfully admitted into the United States for permanent residence. Any person who holds an Immigration and Naturalization Service Form I-151 or I-551 (green card) is considered lawfully admitted for permanent residence and is exempt from the requirements of the act. Foreign governments, entities which are created under the laws of or have their principal place of business in a foreign country, and U.S. entities in which there is a significant foreign interest or substantial control are also defined as foreign persons under the act.

For this study, individuals are defined as one person or a husband and wife. The "partnership" category includes all legally defined partnerships, joint ventures, and tenancies in common that include two or more persons who are not married. The term partnership does not differentiate between joint tenancies and tenancies in common. In the interest of simplicity and brevity, fine legal distinctions, however important in an individual case, are ignored.

Each foreign entity holding land is required to file a report. Therefore, if two individuals own land as a partnership, the partnership is to file one report as a partnership, with the partners' names and citizenship listed on the back of the form. Occasionally, however, two people will file as individuals, each filing a separate report on the same land with a partial interest of, for example, 49 percent listed on each form. Because it is not always possible to distinguish separate reports for the same land, two such individuals cannot be differentiated from one partnership. This may occur when there is no legal partnership but individuals own the land as tenants in common. If they file together on one form, they are automatically considered a partnership. If they file separately, they are generally considered individuals. Therefore, the data on individuals and partnerships and the number of reported parcels should be used with caution.

The act is designed to impute foreign person status to certain U.S. entities holding direct and indirect interests in U.S. agricultural land. For purposes of the act, this is accomplished by defining each successive link in a chain of U.S. entities containing foreign interests as a foreign person. However, only the foreign person who actually holds the direct interest in the land (that is, the first layer or tier) is considered the reporting entity. This entity need not actually be foreign, but under the act, it is deemed a foreign person because another foreign person holds a significant interest or substantial control in it. In some instances, that second tier also may not actually be foreign but may be deemed foreign under the act for the same reason. The regulations define "significant interest or substantial control" to mean a 10-percent or more interest in the entity if held by a single foreign person or a group of foreign persons acting in concert, or a 50-percent or more interest if held by a group of foreign persons not acting in concert, none of whom individually holds a 10-percent or greater interest in that entity.

Under the regulations, the reporting entity (other than an individual or government), whether domestic or foreign, is required to provide information (names, addresses, citizenship, and the nature of the entity, if any) on the second-tier investments; that is, all foreign persons holding a significant interest or substantial control in the reporting entity. In turn, a second-tier entity may be required to provide information about foreign persons who hold a significant interest or substantial control in that entity.

When the foreign person is an individual from, or an entity created under the laws of, for example, Germany, the report is processed as "Germany." Where persons from many different countries hold direct and indirect interests in one piece of land, an attempt is made to identify the predominant country as the country of origin. When there is no predominant country--for example, an equal partnership between a Canadian and a German--the report is processed as "Multiple." Reports filed by U.S. corporations with foreign shareholders are classified "U.S./-(foreign country)." For example, a U.S. corporation with a Canadian shareholder who has a significant interest or substantial control is processed as "U.S./Canada." Similarly, a U.S. corporation owned by another U.S. corporation in which a Canadian corporation has a significant interest or substantial control is processed as "U.S./Canada." Where foreign shareholders with a significant interest or substantial control are from a number of countries, none of which predominates, the report is processed as "U.S./Multiple." If three or more tiers of U.S. corporations are listed with no foreign interest indicated, the report is processed as "U.S./Third Tier." Noncorporate entities with U.S. interests are processed under the predominant country of origin.

U.S. agricultural land owned by a U.S. entity deemed a foreign person under the act (the party legally responsible for providing the information required by the act) is reported from the standpoint of the U.S. entity rather than that of the foreign shareholder.

The AFIDA procedures provide for land to be reported by parcels. All land held in the same manner (type of interest), located in one county, and acquired at the same time, is considered a parcel and is to be reported on a single form. Land does not have to be adjacent to be considered part of one parcel. This parcel concept is intended to ease the reporting burden.

All parcels (and acres) for each owner have been combined under each owner. Therefore, the number of owners is less than the number of parcels. However, because owners do not always report their names in exactly the same way on each form, it is difficult to attribute these forms with great precision to one person or legal entity. Some foreign persons hold land in their own names and also hold interests in entities that own other lands. These entities are treated as separate owners.

The data in this report should be viewed in light of the foregoing caveats and those accompanying the tables. Reporters'

errors must also be considered in reviewing this study. Resulting data deficiencies are noted where appropriate. The "No Report" category in the tables means that a response to the particular question was not made. Note that the acreage figures reported do not mean that they are wholly owned by foreign investors. Of the 14.6 million foreign-owned acres, 53 percent are owned by U.S. corporations in which there is a significant interest or substantial control by foreign persons (table 8). In addition, a number of acres are owned only in part by foreign investors. See, for example, table 2, which gives the acreage equivalent for foreign owners reporting partial interests in the real estate. These partial interests reduce the 14.6 million acres to an equivalent of 13.3 million acres.

Analysis of Data Reported Under the Act

Holdings

Data in this section are derived from the 12,925 reports filed by foreign persons who held land as of December 31, 1993. These report forms account for 14,645,460 acres of all U.S. agricultural land. This is an increase of 140,141 acres from the 14,505,319 acres foreign owners reported owning as of the end of last year. ^{3/} This 140,141-acre increase is less than the 373,315 acres acquired during 1993, as reported in the "Acquisitions" section. The reason for this difference is because of dispositions made prior to December 31, 1992, the closing date of last year's report, that were reported after that date.

Concentration of Foreign Ownership of U.S. Agricultural Land

Foreign persons have reported acreage holdings in 49 States and Puerto Rico (table 1 and fig. 1). Rhode Island is the only State with no reported foreign-owned agricultural land. Except for Maine (described below), only a small percentage of privately held agricultural land in the other 48 States is foreign owned (table 1 and fig. 2). Deleting the acreage for Maine from the Northeast data, foreign investment in U.S. agricultural land is concentrated in the West (35 percent) and South (34 percent) (table 9).

Maine has the largest amount of foreign-owned U.S. agricultural land, 2,425,136 acres, or 13 percent of the privately owned agricultural land in the State and approximately 17 percent of the reported foreign-owned agricultural land in the United States. Most of the foreign-owned agricultural land in Maine, 2,145,589 acres, is timber land owned by four companies. One

^{3/} The 14,518,999 acres reported in last year's report overstated the amount of foreign-held U.S. agricultural land because of filing errors and reductions in the nonagriculture category. The 1992 figure has been adjusted downward to 14,505,319 acres.

Figure 1

State Concentration of Foreign Ownership of Agricultural Land, December 31, 1993

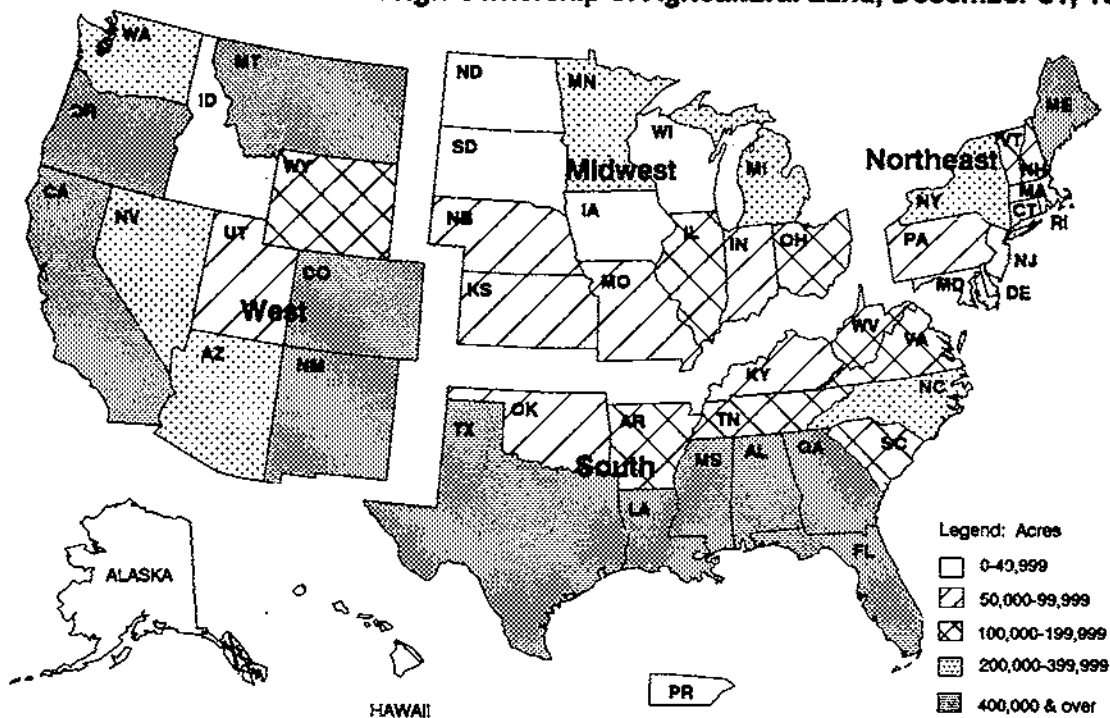

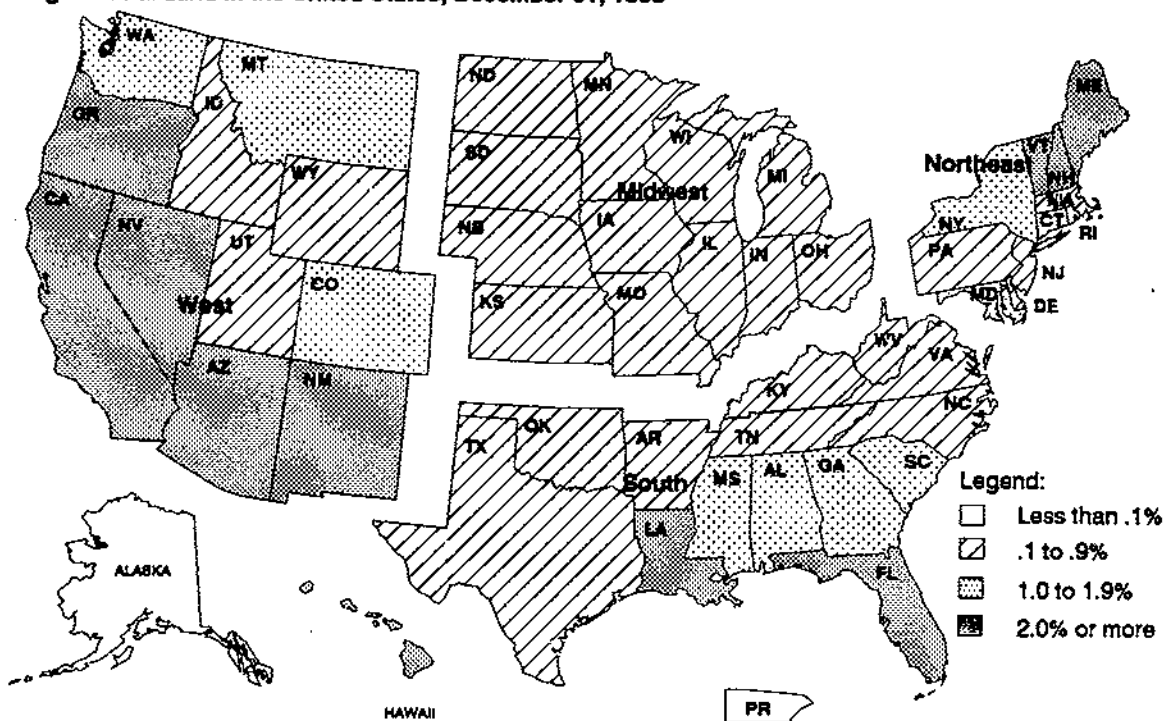

Figure 2

Proportion of Foreign-Owned Agricultural Land to All Privately Owned Agricultural Land in the United States, December 31, 1993

company owns various percentage interests in 869,291 acres, another company owns 266,023 acres, and the other two companies, accounting for 1,010,805 acres, are U.S. corporations in which there are substantial foreign interests.

Hawaii, Nevada, New Hampshire, and Arizona have the next largest proportions of reported foreign-owned agricultural land to all privately owned agricultural land in their States. Texas has the second largest amount of foreign-owned acreage, 1,185,931 acres, but that amounts to only 0.8 percent of the privately owned agricultural land in Texas.

Characteristics of Foreign Owners

Type of Foreign Owner. Corporations are the most common type of owner. They account for 42 percent of the owners, followed by individuals, 39 percent, and partnerships, 15 percent (table 2). The remaining 4 percent of the owners are estates, trusts, institutions, associations, and others such as real estate investment trusts, church groups, and foreign organizations not identifiable with the above categories.

Corporations own 55 percent of the parcels and 71 percent of the acreage; individuals, 28 percent of the parcels and 6 percent of the acreage; partnerships, 14 percent of the parcels and 21 percent of the acreage; and all others, 3 percent of the parcels and 2 percent of the acreage. When partial interests are taken into account, foreign-owned acreage drops from 14.6 million acres to 13.3 million, but distribution among the types of owners remains relatively the same.

Corporate-held parcels average 1,469 acres, or 3,306 acres per holder, while individual-held parcels average 249 acres, or 313 acres per holder. Partnership holdings average 1,755 acres per parcel, or 2,741 acres per holder, and all other holdings average 618 acres per parcel, or 980 acres per holder.

TABLE 2--U.S. AGRICULTURAL LANDHOLDINGS BY TYPE OF FOREIGN OWNER,
DECEMBER 31, 1993
(NUMBER)

OWNER	OWNERS	PARCELS	ACRES	PARCELS WITH PARTIAL INTERESTS ^{1/}	ACREAGE EQUIVALENT ^{2/}
INDIVIDUAL	2,923	3,681	916,228	254	831,711
CORPORATION	3,149	7,086	10,409,993	345	9,218,829
PARTNERSHIP	1,118	1,746	3,064,508	209	2,956,263

ASSOCIATION	2	3	9,402	2	7,610
OTHER	18	28	9,868	0	9,868
TOTAL	7,450	12,925	14,645,460	819	13,258,572

^{1/} PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

^{2/} ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

Size of Holding. Holdings are concentrated with smaller acreage held by individuals and larger acreage held by corporations (tables 2 and 3). Owners of parcels of less than 300 acres (61 percent of all of the foreign owners) hold only 3 percent of the land and owners of parcels with 300 acres or more (the remaining 39 percent) hold 97 percent of the land (table 4). Part of this concentration may be explained by the definition of agricultural land, which includes extensive uses of land such as ranching and forestry and intensive uses of land such as orchards and vegetable farms. The different unit sizes due to differences in use may also explain part of the acreage differences in foreign-held land among the States.

TOTAL	3,681	916,228	9,244	13,729,232

In States where foreign persons own few parcels, the possibility of one or two unusual situations prevents any generalization about concentration. For example, one large timber holding by a foreign person in a State with a large number of field-crop farms could easily be misinterpreted to suggest that a single foreign person was taking over the farming of the State.

Purchase Price and Value of Holdings. As noted earlier under "Type of Foreign Owner," corporations own 71 percent of the acreage. Corporate purchase price and nonpurchase price (estimated value) at time of acquisition account for 69 percent of the total price (table 5). The average per acre purchase price and nonpurchase price (estimated value) at time of acquisition was the lowest for partnerships at \$702; followed by corporations, \$708; individuals, \$915; and all others, \$1,150.

For recent acquisitions, purchase price generally will be close to, but not necessarily the same as, current value. As time passes, purchase price becomes a poor indicator of current value. For this reason, reported current value by date of acquisition was adjusted to January 1993 for all years prior to 1993 (table 6). The total adjusted current value indicates a 4-percent decrease from the reported current value. The adjustment factor

was based on the national average change in farmland value over time. The adjusted current values are not presented as absolute values for the foreign-owned land in this report but should be viewed as approximations of change in value.

The data in table 6 are not intended in any manner to indicate trends over time in the level of acquisitions by foreign persons.

1/ PURCHASE PRICE AND NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.

2/ REPORTED CURRENT VALUE REFLECTS VALUE AT TIME OF REPORTING AFTER FEBRUARY 1, 1979.

3/ REPORTED CURRENT VALUE ADJUSTED TO JANUARY 1, 1993. REPORTED CURRENT VALUE FOR HOLDINGS ACQUIRED IN 1993 IS UNADJUSTED.

(See table 40 for trends data.) Acreage owned in the years listed is the total amount of land that was reported purchased during that year and which remained foreign owned as of December 31, 1993. Because land is disposed of by foreign owners or there are changes in status from foreign to nonforeign or from agricultural to nonagricultural, acreage amounts in each year are decreased by these land dispositions or status changes.

Table 7 adjusts reported current value by State for the same reasons given in the discussion of table 6. Because the reported current value in table 7 is adjusted by each State's average annual change in farmland value, the total adjusted current value will differ from that of table 6. Simply explained, not all land values in table 6 would have changed at the national average. Therefore, the total adjusted current value in table 7 should be a better measure of value than that of table 6. The total adjusted current value by State indicates a 5-percent increase from the reported current value.

Country of Origin. Of the 14,645,460 acres of foreign-held agricultural land reported by foreign persons, 53 percent is held by U.S. corporations with foreign interests. The remaining 47 percent is held by foreign persons not connected with a U.S. corporation (table 8).

Foreign persons from Canada own the largest amount of reported foreign-held acres of U.S. agricultural land, 3,332,284 acres, or 23 percent. Foreign persons from the United Kingdom (U.K.), Germany, and France own 2,955,384 acres (20 percent), 1,494,552 acres (10 percent), and 1,079,998 acres (7 percent), respectively, an additional 37 percent. Foreign persons from Switzerland, the Netherlands Antilles, and the Netherlands own an additional 12 percent of the acres. These seven countries of origin own a total of 10,552,295 acres, or 72 percent of all reported foreign-owned holdings of U.S. agricultural land. Approximately 3 percent of the acreage, 453,178 acres, is owned by unidentifiable third-tier persons; that is, the acreage is not attributable to any foreign country of origin because no foreign country of origin is listed through the third tier of ownership.

Foreign persons from the United Kingdom, Germany, and Canada, own 2,055,242 acres or 41 percent of the foreign-held acres in the South (table 9). Eight percent of the acreage, 403,208 acres, is owned by unidentifiable third-tier foreign persons. An additional 26 percent, 1,290,191 acres, is owned by foreign persons from France, the Netherlands Antilles, Switzerland, and Mexico.

In the West, foreign persons from the United Kingdom own more acres than any other single group--29 percent. Much of the U.K. figure is attributable to a U.K. partnership that owns 48 parcels covering 716,903 acres and three U.S./U.K. corporations that own 21 parcels covering 509,800 acres. Foreign persons from Germany, Canada, and Japan reported owning 1,340,132 acres or 26 percent. An additional 1,095,210 acres, or 22 percent, were reported by

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

foreign persons from, the Netherlands, Mexico, Luxembourg, the Netherlands Antilles, and Panama.

In the Northeast, foreign persons from Canada and France own 2,685,975 acres, or 86 percent of the foreign-held acreage in the region. Seventy-five percent of this figure, 2,334,554 acres, is attributable to five companies with extensive forest holdings--one Canadian company with partial interests in 59 parcels covering 869,291 acres, one Canadian company with 9 parcels covering 266,023 acres, one U.S./Canada corporation with 41 parcels covering 727,207 acres, and two U.S./France corporations with 31 parcels covering 472,033 acres.

In the Midwest, foreign persons from Canada, Germany, and the United Kingdom reported owning 889,852 acres, 62 percent of the foreign held acreage in the region. An additional 10 percent of the acreage is owned by multiple entities (entities that have foreign owners from a number of countries, none of whom has a predominant interest).

Interest in Land

Of the 12,925 parcels of foreign-held U.S. agricultural land, 87 percent of the parcels, accounting for 83 percent of the reported acreage, is held in fee interest whole (that is, the owner holds the estate in its entirety). Partial interests are held in another 6 percent of the parcels covering another 14 percent of the acres (table 10).

Under the AFIDA regulations, leases of 10 years or longer are the only leases that need to be reported. 4/ Leases are treated separately because they represent a totally different type of interest. Questions on value, tenure, and method of acquiring land do not apply because the report form was not devised to deal with leases. Leases cover 1,352,316 acres of U.S. agricultural land. Timber land accounts for 679,780 acres, or 50 percent of the reported foreign leaseholds.

Method of Acquisition

More foreign investors reported paying cash for their U.S. agricultural landholdings than using any other method of acquisition--50 percent of the parcels, covering 34 percent of the acreage (table 10). This compares with 26 percent of the parcels, containing 16 percent of the acreage, that were acquired by credit only, and 8 percent of the parcels, containing 27 percent of the acreage, that were acquired by other method only. The other method only category includes mergers, corporations that became foreign because foreign persons obtained a significant interest or substantial control in the corporations, or an individual exchanging land for stock in a new corporation. The cash and credit only category covers an additional 8 percent of the parcels and 12 percent of the acres.

7 C.F.R. § 781.2(c) (1993).

Relationship of Foreign Owner to Representative

Forms were most commonly completed by the attorneys, accounting for 33 percent of the parcels and 38 percent of the acreage (table 10). The second largest group is the other category (accountants, family members, and people associated with or employed by corporations) with filings for 21 percent of the parcels and 20 percent of the acres, followed by managers with filings for 16 percent of the parcels covering 26 percent of the acres.

Land Use

Forty-eight percent of the reported foreign-owned holdings of agricultural land is timber or forest land (table 11); cropland accounts for only 17 percent. Foreign-owned cropland, pasture, and other agricultural land (which includes, for example, orchards and vineyards) total 49 percent of all foreign-owned holdings, but only 0.5 percent of all privately held agricultural land in the United States. The other nonagriculture category

1/ TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.
2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

accounts for 3 percent of the reported foreign-held acres. Nonagricultural land includes acreage such as the homestead and roads commonly reported as part of the agricultural landholding or land that is idle now but its last use within the past 5 years was for agriculture. These land-use figures should be used with caution because they reflect only information received at the time of filing and do not account for any changes in land use, which may have occurred subsequent to filing.

Foreign persons from Canada and the United Kingdom own 4,813,835 acres, or 69 percent, of the reported forest landholdings. Foreign persons from France hold an additional 11 percent of the forest land. Unidentifiable third-tier foreign persons own 3 percent of the forest land. The large Canadian and U.K. holdings are attributable to seven companies--two Canadian companies with 1,135,314 acres, three U.S./Canada corporations with 1,105,854 acres, and one U.S./U.K. corporation and one U.S./U.K. partnership with 1,728,933 acres.

Foreign persons from Germany own the most cropland, 470,047 acres, or 19 percent, followed by Canada, Switzerland, the United Kingdom, and the Netherlands Antilles, with an additional 35 percent of the acreage. Unidentifiable third-tier parties own 6 percent of the cropland.

Foreign persons from Germany, the United Kingdom, Mexico, and Canada own 45 percent, or 1,831,679 acres, of pasture land. Foreign persons from Japan, the British Virgin Islands, the Netherlands, the Netherlands Antilles, Panama, Luxembourg, Switzerland, and France own an additional 39 percent, or 1,570,988 acres.

The largest group of owners of other agricultural land are foreign persons from France, Canada, and the Netherlands Antilles, with 29 percent of the acres. They are followed by foreign persons from the Netherlands, Germany, Luxembourg, Japan, Switzerland, Sweden, and the United Kingdom who own 324,501 acres, or 46 percent.

Based on reports by foreign owners who reported owning only forest or forest and other nonagricultural land, these reports account for 44 percent of all the foreign-owned U.S. agricultural land (tables 1 and 12). The remaining 55 percent is primarily farmland, although it includes some forest and/or other nonagricultural land commonly reported as part of the farmland holding (table 11).

The average parcel size for parcels with forest or forest and other nonagricultural land is 2,749 acres (table 12). Except for Maine (with 37 percent of the acreage, the uniqueness of which has been noted previously), the forest or forest and other nonagriculture acres are concentrated in the South and West. Alabama, Georgia, Louisiana, Mississippi, South Carolina, Tennessee, and West Virginia account for 32 percent. California, Oregon, and Washington account for another 17 percent of the acres reported.

There are also notable holdings in Michigan, Minnesota, New Hampshire, and New York, accounting for another 11 percent of the acres.

Foreign persons from Canada own 40 percent of the foreign-owned U.S. forest or forest and other nonagricultural lands (table 13). Foreign persons from the United Kingdom and U.S./France corporations own an additional 33 and 13 percent, respectively.

Individuals own 21 percent of the parcels but less than 2 percent of the acres (table 14). Corporations reported holding 65 percent of the parcels, representing 72 percent of the acreage. The remaining 14 percent of the parcels and 26 percent of the acres are held by partnerships, estates, trusts, and others. When partial interests are taken into account, the acreage equivalent is 1,089,261 acres less than the acres for which reports were filed.

Owners of parcels with less than 1,000 acres, 80 percent of all the owners, own 37 percent of the parcels covering only 2 percent of the forest or forest and other nonagricultural land (table 15). The remaining 20 percent of the owners, owning parcels with 1,000 acres or more, own 63 percent of the parcels covering 98 percent of these lands.

Intended Use

Concern has been expressed about farmland being purchased and taken out of agricultural production. Foreign persons do not appear to be proceeding in this direction to any substantial degree. However, the following data on intended use and tenure, like much of the use and value data, are based on information at the time of filing; they do not reflect subsequent changes.

2/ TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

No change in intended use was reported for 94 percent of the acres (table 16). Intended use changes to other agricultural usage were reported for holders of 2 percent of the acres. Reports for 3 percent of the acres indicate that some change to nonagricultural use is intended. Such reports do not necessarily mean, however, that all of these acres will be changed. What the reports do mean is that the holders of these acres intended to change the use of some of the acreage. However, the report form does not ask how many acres will be involved. Reports representing 1 percent of the acres did not indicate intended use.

TABLE 14--U.S. FOREST AND OTHER NONAGRICULTURAL LANDHOLDINGS
BY TYPE OF FOREIGN OWNER, DECEMBER 31, 1993
(NUMBER)

OWNER	OWNERS	PARCELS	ACRES	PARCELS WITH PARTIAL INTERESTS ^{1/}	ACREAGE EQUIVALENT ^{2/}

PARCELS REPORTED	11,168	595	944	218	12,925
ACRES	13,774,483	309,410	382,291	179,276	14,645,460

Tenure

Tenants and foreign owners operate 39 percent and 30 percent of the parcels of foreign-held U.S. agricultural land, respectively, whereas managers operate only 10 percent of the parcels (table 17). No responses to the tenure question were received for the remaining 21 percent of the parcels. However, tenants operate 23 percent of the acres, while foreign owners directly operate 44 percent and managers 8 percent. No responses on tenure were received for the remaining 25 percent of the acres.

Rental agreements were reported for 4,364 parcels, or 34 percent, covering 19 percent of the acres. Of the rental agreements, cash agreements accounted for 70 percent and cropshare agreements for 28 percent of the parcels.

Tenure Change

No tenure changes were reported for 47 percent of the parcels, or 46 percent of the acres (table 17). Reports for 33 percent of the parcels containing 26 percent of the acres indicate a new tenure arrangement on at least part of the land. The acreage affected by the new tenure arrangements is not reported. Thus, the acreage may be overstated; that is, all acres in these parcels are not necessarily affected by new tenure arrangements. Nevertheless, reports for 0.5 percent of the parcels, accounting for 0.3 percent of the acres, indicated that some of the tenure arrangements would remain the same and some would change. No responses on tenure changes were received for 20 percent of the parcels containing 28 percent of the acres.

Acquisitions

Foreign persons reported that they had acquired 299 parcels of U.S. agricultural land, covering 373,185 acres during January 1-December 31, 1993 (tables 18 and 19). Included in these acquisitions data are reports filed by U.S. entities that became foreign during the period. This change occurs when a significant interest or substantial control in a U.S. entity is subsequently acquired by a foreign person. Consequently, all of the reported acres are not necessarily recent land purchases. These acquisitions could include land held for any length of time by a U.S. entity that recently came within the definition of a foreign person under the act.

The reported acquisitions data should be regarded as preliminary in that they understate the total acreage acquired by foreign persons during the reporting period. Because foreign persons have a statutory 90 days within which to report their acquisitions, not all the acquisitions acquired in the 90 days preceding the December 31, 1993, closing date of this report were received for processing by USDA. Therefore, a number of reports for October, November, and December are not included in this report. A further understatement of the acreage acquired by foreign persons during the reporting period may result from reports that are not timely filed and/or completed by the closing date of this report. Consequently, such reports would not have been processed for inclusion in this report.

			TOTAL	373,315	186,514

1/ VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

Concentration of Foreign Acquisitions of U.S. Agricultural Land

Fifty-six percent of the acres acquired during 1993 were in Nevada and Texas (table 18). Eighty-eight percent of the acquisitions were concentrated in the West and South (table 24). Much of this concentration is due primarily to foreign persons from the British Virgin Islands accounting for 52 percent of the acquisitions.

Characteristics of Foreign Owners

Type of Foreign Owner. Corporations reported acquiring 67 percent of the parcels and acres (table 19). Individuals account for 2 percent of the acres; partnerships, 25 percent; and trusts and associations, 6 percent. When partial interests of foreign investors are taken into account, the 373,315 acres drop to an acreage equivalent of 372,485 acres.

Corporations acquired an average of 1,261 acres per parcel, or 2,967 acres per owner, compared with individuals who acquired an average 145 acres per parcel, or 152 acres per holder. Partnerships reported acquisitions averaging 2,326 acres per parcel, or 4,228 acres per owner; and trusts reported 1,448 acres per parcel and 2,716 acres per owner.

The largest acreage acquired by individuals during the period was reported for Texas (table 20). Organizations reported acquiring the largest acreage in Nevada, Texas, California, and Colorado.

Size of Acquisition. Owners of parcels with 300 acres or more (43 percent of the owners) acquired approximately 98 percent of the acres, and owners of parcels with less than 300 acres (57 percent of the owners) acquired the remaining 2 percent of the acres (table 21). All parcels of 300 or more acres accounted for 83 percent of the total value. The value per acre, however, is concentrated in the reports of holders of less than 300 acres--\$3,699 per acre, compared with \$425 per acre for holdings of 300 or more acres.

TABLE 19--U.S. AGRICULTURAL LAND ACQUISITIONS BY TYPE OF FOREIGN OWNER,

1000 OR MORE	29	118	343,356	127,748
TOTAL	157	299	373,315	186,514

^{1/} VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE).

Purchase Price and Value of Acquisitions. Corporations account for 62 percent of the purchase price and nonpurchase price (estimated value) at time of acquisition (table 22). The average per acre purchase price and nonpurchase price (estimated value) is lowest for trusts at \$282; followed by corporations, \$459; partnerships, \$601; and individuals \$1,358.

Equity is frequently used to measure net foreign investment transfer. To approximate equity, debt was subtracted from current value for all reports that provided information on debt and current value. The 299 reports providing information on debt (\$12,543,000) and current value (\$186,701,000) resulted in an equity figure of \$174,158,000 (table 22). These figures reveal an equity figure of 93 percent in relation to current value.

Country of Origin. U.S. corporations with foreign interests acquired 60 percent of the acreage. Foreign persons not affiliated with a U.S. corporation acquired the remaining 40 percent (table 23). Foreign persons from the British Virgin Islands acquired 196,340 acres, 52 percent of the total.

Eighty-eight percent of the acres acquired during 1993 were in the South and West (table 24). Foreign persons from the British Virgin Islands and U.S./France corporations acquired 68 percent of the acres in the South. U.S./British Virgin Islands corporations acquired 67 percent of the acres in the West and foreign persons from Canada acquired 91 percent of the acres in the Northeast.

Interest in Land

Ninety-four percent of the parcels, accounting for 99 percent of the reported acres, were acquired in fee interest whole (table 25).

Method of Acquisition

Sixty-four percent of the parcels, covering 46 percent of the acres, were acquired for cash only (table 25). This compares with 6 percent of the parcels, covering 37 percent of the acres, acquired by other method only.

Land Use

Of the acres acquired in 1993, 66 percent were in pasture, 14 percent in forest, 12 percent in crop, 6 percent in other agriculture, and 2 percent in other nonagriculture (table 26). Foreign persons from Germany and U.S./Canada and U.S./Japan corporations acquired 57 percent of the cropland. Foreign persons from the British Virgin Islands acquired 79 percent of the pasture land and foreign persons from Canada and U.S./France corporations acquired 82 percent of the forest land.

Separating data on reports for only forest or forest and other nonagricultural land shows that 12 percent of the acquisitions

^{2/} TOTAL INTERESTS EXCLUDING U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

^{3/} TOTAL INTERESTS OF U.S. CORPORATIONS WITH FOREIGN SHAREHOLDERS.

Corporations account for the largest number of owners reporting acquisitions of forest or forest and other nonagricultural land-- 67 percent of the owners reported acquiring 69 percent of the parcels covering 87 percent of the acres (table 29).

Owners of parcels with less than 1,000 acres, 74 percent of the owners, reported acquiring 40 percent of the parcels covering only 9 percent of the forest or forest and other nonagricultural lands (table 30). The remaining 26 percent of the owners, owning parcels with 1,000 or more acres, reported acquiring 60 percent of the parcels covering 91 percent of these lands.

Intended Use

Reports for 98 percent of the acres indicated no change in land use (table 31). Intended changes to other agricultural and nonagricultural uses were reported for holders of 1.9 percent of the acquired acres. Because the form asks for changes by parcels and not acres, all of these acres may not be affected by the indicated changes. No reports on intended use were received for 0.1 percent of the acres.

Tenure

Tenants operate 35 percent of the parcels acquired during the period and 14 percent of the acres, whereas foreign owners operate 27 percent of the parcels and 41 percent of the acres (table 32). Managers, operate 5 percent of the parcels and 28 percent of the acres. No responses on tenure were received for 33 percent of the parcels covering 17 percent of the acres. Rental agreements applied to only 34 percent of the parcels covering 14 percent of the acres.

Tenure Change

Reports for 31 percent of the parcels acquired during the period indicate no tenure change for 54 percent of the acreage (table 32). Reports for 40 percent of the parcels, containing 34

percent of the acres, indicated a tenure change. Because the number of acres affected by new tenure arrangements was not reported, the acreage may be overstated; that is, all of these acres are not necessarily affected by new tenure arrangements. No responses on tenure change were made for 29 percent of the parcels accounting for 9 percent of the acres.

Dispositions, Land-Use Changes, and Changes in Status

Data in this section are derived from reports filed by foreign investors who disposed of 558 parcels of U.S. agricultural land covering 498,458 acres between January 1 and December 31, 1993. In addition to these dispositions, there were reports of land-use changes out of agriculture affecting 21 parcels covering 928 acres, land-use change to agriculture for 1 parcel with 13 acres, and reports of change in status from foreign to nonforeign affecting 97 parcels covering 28,691 acres.

For the same reasons noted at the outset of the "Acquisitions" section, the reported data for dispositions, land-use changes, and changes in status should be regarded as preliminary. Reports that were not timely filed and/or completed or were statutorily not required to be filed by the closing date for this report are not included.

Characteristics of Foreign Owners Disposing of Land

Type of Foreign Owner. The largest amount of acres disposed of was in Maine and New Mexico, accounting for 55 percent of the dispositions acreage (table 33).

Transfers by foreign investors to U.S. purchasers accounted for 51 percent of the parcels and 39 percent of the acres (table 34). Reports for 6 percent of the parcels and 5 percent of the acres indicated that they were transferred to other known foreign persons. Reports for 40 percent of the parcels covering 55 percent of the acres indicated dispositions to persons of unknown citizenship.

Corporations were the most active type of foreign owner disposing of land, accounting for 63 percent of the owners, 82 percent of the parcels, and 93 percent of the acres (table 35). In comparison, individuals and partnership accounted for 34 percent of the owners, 16 percent of the parcels, and 6 percent of the acres.

Size of Disposition. The most acreage disposed of was for parcels with 1,000 or more acres, accounting for 94 percent of

^{1/} PARCELS WITH PARTIAL INTERESTS ARE THOSE PARCELS WHICH ARE OWNED ONLY IN PART BY THE FOREIGN INVESTOR; THAT IS, A PERCENTAGE INTEREST LESS THAN 100 PERCENT.

^{2/} ACREAGE EQUIVALENT EQUALS THE TOTAL ACREAGE REPORTED MULTIPLIED BY THE PERCENTAGE HELD BY THE FOREIGN OWNER.

the acres (table 36). As should be expected, sales prices per acre were higher for smaller parcels. Average selling price for parcels of less than 20 acres was \$25,299 per acre, compared with \$253 per acre for parcels of 1,000 or more acres. Average selling price of all reported dispositions was \$342 per acre.

Country of Origin. Foreign persons from Canada and U.S./France and U.S./Mexico corporations disposed of most of the acreage--80 percent (table 37). Most of the dispositions occurred in the Northeast, 47 percent of the acres (table 38). Foreign persons from France and Canada accounted for 99.6 percent of the dispositions in the Northeast.

Land Use

Twelve percent of the dispositions were cropland; 33 percent, pasture; 53 percent, forest; and 1 percent each, other agriculture and other nonagriculture (table 39). U.S./France corporations disposed of 28 percent of the cropland; U.S./Mexico corporations disposed of 67 percent of the pasture land; and foreign persons from Canada and U.S./France corporations disposed of 95 percent of the forest land.

Trends

The data for 1993 are generally biased toward the first part of the year, whereas the data for 1981 through 1992 are generally more evenly distributed throughout the year (table 40). This has also been the case for current year data in past AFIDA reports. This can be explained primarily in terms of the AFIDA reporting requirements, which allow persons 90 days to report their transactions to the U.S. Department of Agriculture (USDA). Consequently, not all transactions occurring in the 90 days preceding the closing date of the report are reported to USDA by that date. Some of the bias is also due to reports that are not timely filed and/or completed by the closing date. The foregoing discussion also means that the 1993 data and, in some instances, data for prior years are understated and should be regarded as preliminary.

Foreign ownership of U.S. agricultural land has remained relatively steady from 1981 through 1993--slightly above or below 1 percent of all privately owned agricultural land in the United States (fig. 3). Most of the fluctuation is attributable to changes in the forest holdings, rising from 7.2 million acres in 1981 to 8.1 million in 1984, dropping to 6.0 million in 1989, rising to 7.3 million in 1991, and dropping slightly to 7.0 million in 1993. These changes are mainly due to million-acre-plus transactions by large timber companies. Looking at the crop, pasture, and other agriculture figures reveals a steady but relatively small increase in the numbers. Cropland rose from 1.7 million acres in 1981 to 2.5 million in 1993; pasture, from 2.8 to 4.0 million acres; and other agriculture, from 0.5 to 0.7 million acres.

^{1/} VALUE IS PURCHASE PRICE OR NONPURCHASE PRICE (ESTIMATED VALUE) AT TIME OF ACQUISITION.

Program Costs and Penalties

Administration of the Agricultural Foreign Investment Disclosure Act of 1978 for obtaining and analyzing the data required an estimated 9.5 staff-years at a cost of approximately \$465,000 to USDA for the past year, of which the Agricultural Stabilization and Conservation Service contributed approximately 8.3 staff-years at an estimated cost of \$410,000. The remaining costs and staff-years are attributable primarily to the Economic Research Service, with some contributions by the Office of the General Counsel and the Office of Public Affairs.

During 1993, USDA assessed 97 penalties for late filings, totaling \$56,900.

NOTE →

The following statements are made in accordance with the Privacy Act of 1974 (5 USC 552a). P.L. 95-460 authorizes collection of the data on this form. The data will be used to determine the effects of foreign persons acquiring, transferring and holding agricultural land, and the effects of such activity on family farms and rural communities. Furnishing the data is mandatory. Failure to comply or falsification of reporting is subject to civil penalty, not to exceed 25 percent of the fair market value of the interest held in the tract on the date of the assessment of such penalty. The data may be furnished to any Agency responsible for enforcing the provision of the Act and to the public. Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Officer, OIRM, Room 404-W, Washington, D.C. 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB No. 0560-0097), Washington, D.C. 20503. **RETURN COMPLETED FORMS TO YOUR ASCS COUNTY OFFICE.**

DETERMINATION OF "FOREIGN PERSON" STATUS

DEFINITION: "Person" means any individual, corporation, company, association, firm, partnership, society, joint stock company, trust, estate, or any other legal entity.

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "NO" to all the statements numbered 1, 2, and 3 below.

	YES	NO
1. I AM a citizen of the United States.		
2. I AM a citizen of the Northern Mariana Islands or the Trust Territories of the Pacific Islands.		
3. I AM lawfully admitted to the United States for permanent residence, or paroled into the United States, under the Immigration and Nationality Act.		

You are a "foreign person" under the provisions of P.L. 95-460 and must complete the front side of this form (ASCS-153) if your answer is "YES" to any of the statements numbered 4a, 4b, and 5 below.

	YES	NO
4. I AM a "person" other than an individual or government, which is created or organized under the laws of:		
a. A foreign government of which has its principal place of business located outside the United States.		
b. Any State of the United States, and in which significant interest or substantial control ^{1/} is held directly or indirectly by any foreign individual, government, or person.		
5. I AM a foreign government.		

GENERAL INSTRUCTIONS

Complete this form in an original and three copies for each tract of land. Insertion of carbons is necessary. Report as a tract all acreages under the same ownership in each county or parish acquired or transferred on the same date. Land in different counties or parishes and land acquired or transferred on different dates must be reported as separate tracts.

Return the original and two copies to the County Agricultural Stabilization and Conservation Service (ASCS) Office where the tract of land is located. Retain the last copy (Foreign Person Copy) for your records. **DO NOT SEND THIS FORM DIRECTLY TO WASHINGTON, D.C.**

After the original disclosure on ASCS-153 on the tract(s) of land owned by the same person within a county or parish, each subsequent change of ownership or use must be reported by filing another ASCS-153.
