Report Nos: USDA/SB-885

Title: Red Meats Yearbook, 1994. Supplement to Livestock, Dairy, and Poultry Situation and Outlook.

Date: Aug 94

Authors: P. Cochran.

Performing Organization: Economic Research Service, Washington, DC.

Type of Report and Period Covered: Statistical bulletin.

NTIS Field/Group Codes: 98B (Agricultural Economics), 96C (International Commerce, Marketing, & Economics)

Price: PC A10/MF A03

Availability: Available from the National Technical Information Service, Springfield, VA. 22161

Number of Pages: 118p

Keywords: \*Statistical analysis, \*Meat, \*Agricultural economics, \*United States, Exports, Food inspection, Livestock, Cattle, Sheep, Hogs, Production, Weight(Mass), Retail prices, Wholesale prices, Imports, Mexico, Canada, Tables(Data), Market value, Poultry, Quality control, NASS(National Agricultural Statistical Service), AMS(Agricultural Marketing Service), Slaughter.

Abstract: The report includes data published in the Red Meats Yearbook which originates in the Livestock Division, Agricultural Marketing Service (AMS); Estimates Division, National Agricultural Statistics Service (NASS); and Commodity Economics Division, Economic Research Service (ERS). Included are data compiled by these divisions from other Government sources, such as statistics on the number of animals slaughtered under Federal inspection and on the quality of meat processed, prepared by the Animal and Plant Health Inspection Service (APHIS); and foreign trade data, provided by the Bureau of Census, U.S. Department of Commerce.

## **Effects of the Uruguay Round Agreement on U.S. Agricultural Commodities**

On December 15, 1993, the United States reached an historic agreement concluding the Uruguay Round of Multilateral Trade Negotiations under the auspices of the General Agreement on Tariffs and Trade (GATT). Benefits arising from the agreement include:

- U.S. farmers will gain from the increase in world income that will arise from the Uruguay Round agreement.
- U.S. agricultural exports are expected to increase by between \$1.6 billion and \$4.7 billion in 2000 and between \$4.7 billion and \$8.7 billion in 2005.
- Increased exports mean more export-related jobs, particularly for high-value and value-added products.
- Increased exports will raise farm prices, increase farm income, and lower Government outlays on price and income support programs.
- Perhaps even more important for the *future* is the discipline the Uruguay Round will apply to countries that might otherwise choose closed markets, production-inducing internal supports, and subsidized exports. This agreement has important con-

sequences for our large trading partners that are currently outside the GATT: China, Taiwan, and the nations of the former Soviet Union.

### **Provisions of the Agreement**

The Uruguay Round (UR) Agreement is an historic effort to open world agricultural markets, prompting increased trade and dynamic growth. The agricultural agreement covers four areas implemented over a 6-year period, 1995-2000, export subsidies, market access provisions, internal supports, sanitary and phytosanitary measures.

## Introduction

Data published in the *Red Meats Yearbook* originate in the Livestock Division, Agricultural Marketing Service (AMS); Estimates Division, National Agricultural Statistics Service (NASS); and Commodity Economics Division, Economic Research Service (ERS). Included are data compiled by these divisions from other Government sources, such as statistics on the number of animals slaughtered under Federal inspection and on the quality of meat processed, prepared by the Animal and Plant Health Inspection Service (APHIS); and foreign trade data, provided by the Bureau of the Census, U.S. Department of Commerce.

Figures for continuing most of the tables in this edition on a weekly or monthly basis are published principally in the statistical releases of NASS and the *Livestock, Meat, and Wool Market News*, issued weekly by AMS. The *Livestock, Dairy, and Poultry Situation and Outlook*, issued

monthly by ERS, includes up-to-date information on meat consumption and other selected statistical series.

Other Statistical Bulletins in the series include Statistical Bulletin No. 522, *Livestock and Meat Statistics*, published in 1973. The 1974 issue was published as Statistical Bulletin No. 543. The original bulletin, Statistical Bulletin No. 230, published in 1958, should be referred to for historical information prior to 1950. Statistical Bulletin No. 333, published in 1963, contains long-term historical series starting with 1950.

These data were compiled by Polly Cochran.

Approved by the World Agricultural Outlook Board.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited bases apply to all programs). Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA Office of Communications at (202) 720-5881 (voice) or (202) 720-7808 (TDD).

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, D.C., 20250, or call (202) 720-7327 (voice) or (202) 720-1127 (TDD). USDA is an equal opportunity employer.

1/ Estimated weighted-average of BLS prices of retail cuts from Choice Yield Grade 3 carcass.

2/ Value of wholesale quantity equivalent of 1 lb of retail cuts.

3/ Market value to producer for 2.4 lb of live animal, equivalent to 1 lb of retail cuts.

4/ Portion of gross farm value attributed to edible and inedible by-products.

5/ Portion of gross farm value minus farm by-product allowance.

6/ Percent net farm value is of retail price.

1/ Estimated weighted-average of BLS prices of retail cuts from pork carcass.

2/ Value of wholesale quantity equivalent of 1 lb of retail cuts.

3/ Market value to producer for 1.7 lb of live animal, equivalent to 1 lb of retail cuts.

4/ Portion of gross farm value attributed to edible and inedible by-products.

5/ Portion of gross farm value minus farm by-product allowance.

6/ Percent net farm value is of retail price.

Herndon, VA 22070

---

For further information about the database on red meats, please write to Steve Reed, ERS/USDA, Room 837, 1301 New York Avenue, NW, Washington, DC 20005-4788 or phone 202-219-1285.

ERS electronic databases are also available on the worldwide Internet through a cooperative project between ERS and the Albert R. Mann Library at Cornell University. For access:

1. Gopher client--gopher usda.mannlib.cornell.edu 70.
2. Telnet--telnet usda.mannlib.cornell.edu and login as "usda" (no password is needed). This will connect you to the Gopher with the basic Unix client.
3. FTP--ftp usda.mannlib.cornell.edu, login as "anonymous" with your ID name or e-mail address as the password, then cd usda.

For further information about Internet access methods, please write to Oya Rieger, Albert R. Mann Library, Cornell University, Ithaca, NY 14853-4301 (oyr1@cornell.edu) or phone 607-255-7960.
