### Abstract

This publication presents the final 1988-93 estimates of rice stocks on and off farms for the six major producing States--Arkansas, California, Louisiana, Mississippi, Missouri, and Texas.

### Rice Stocks Final Estimates by States, 1988-93

This bulletin presents the final 1988-93 estimates of rice stocks on and off farms for the six major producing States--Arkansas, California, Louisiana, Mississippi, Missouri, and Texas. The report continues the program of reviewing and revising estimates of rough and milled rice stocks by positions following each Federal Census of Agriculture.

Rice stock estimates were originally based on surveys of producers, rice millers, and warehousemen and reported periodically by the Agricultural Statistics Board of the National Agricultural Statistics Service. Revisions in this publication were made on the basis of data that became available since the previous issuance. Estimates for previous years are available in Statistical Bulletins Nos. 429, 599, 652, and 795.
