Vision

To be a one-stop on best practices in Farm and Agribusiness Management in Africa.

Mission

Provide stakeholders in Farm and Agribusiness Management in Africa a platform for policy dialogue and sharing experiences in order to advance agriculture in the continent.

About AFMA

The Africa Farm Management Association is a society of people who are involved directly or indirectly in agricultural process and who have an interest in farm and Agribusiness Management. Membership encompasses

- corporate producers,
- managers,
- consultants,
- researchers,
- academia,
- policy-makers,
- agro-dealers,
- farming and marketing organizations,
- Agribusiness companies associated with agriculture, horticulture, livestock and rural enterprise.

The objectives of the AFMA include:

- 1) To advance the knowledge and understanding of farm business management and to exchange ideas and information about farm management theory and practice throughout the continent of Africa and the world;
- 2) To improve cooperation among stakeholders in farm management with an interest in African issues at the regional and international levels;

- 3) To promote capacity building, research, policy dialogue and interest of Farm Management in Africa;
- 4) To contribute to the wider objective of Agricultural productivity in an effort to reduce poverty, enhance food security, and sustainable use of farm resources in Africa.
