## SUMMARY OF REPORT FAER-253

# U.S. Investment in Mexican Agribusiness Quintupled From 1987 to 1992

July 1994

Contact: Christine Bolling, 202-219-0689

U.S. investment in Mexico's agribusiness increased five-fold from 1987 to 1992, and may, under the North American Free Trade Agreement (NAFTA), increase even more rapidly during the 1990's. Mexico ranked fifth among host countries for U.S. direct investment in food and agribusiness in 1992, with nearly \$2 billion, up from \$320 million in 1987. Changes in Mexico's land tenure and investment laws have driven the rapid growth. Other contributing factors include economic growth and increased consumption in Mexico, as well as the complementary Mexican production-U.S. consumption of many seasonal fruits and vegetables.

Most U.S. investments in Mexico's agribusiness are in food processing and beverage industries, farm machinery wholesale establishments, and textiles. Other U.S. investments include packing sheds, refrigeration for fresh fruit and vegetables, restaurants, and grocery stores. A new report by USDA's Economic Research Service, *The U.S. Presence in Mexican Agribusiness*, reviews U.S. investments in Mexico, the reasons for those investments, and their impact on U.S. and Mexican agriculture.

The United States accounts for approximately 70 percent of Mexico's total foreign investment. The more visible U.S. investments include ownership of fast food chains, poultry processing, tomato products, soft drinks, agricultural chemicals, and agricultural machinery.

The textile and apparel industries have attracted \$70 million in U.S. investment through the *maquiladora* system, importing raw materials to bonded warehouses and producing finished goods for export. *Maquiladoras* in the apparel industry grew from 117 plants employing 18,000 workers in 1981 to 304 plants employing 43,000 workers in 1990. Standardized apparel like bluejeans, underwear, and men's shirts are most often produced in *maquiladoras*, as are household products like sheets and towels.

Until 1992, foreign investment in Mexico's agricultural land was prohibited. As a consequence, the Mexican agricultural production sector attracted little foreign investment. According to the U.S. Department of Commerce, U.S. investment in Mexico's agricultural land was only \$5 million in 1992, with horticulture the largest recipient.
