Dannele E. Peck Bovine Brucellosis in the Greater Yellowstone Area: An Economic Diagnosis	27

The Western Economics Forum

A peer-reviewed publication from the Western Agricultural Economics Association

Purpose

One of the consequences of regional associations nationalizing their journals is that professional agricultural economists in each region have lost one of their best forums for exchanging ideas unique to their area of the country. The purpose of this publication is to provide a forum for western issues.

Audience

The target audience is professional agricultural economists with a Masters degree, Ph.D. or equivalent understanding of the field that are working on agricultural and resource economic, business or policy issues in the West.

Subject

This publication is specifically targeted at informing professionals in the West about issues, methods, data, or other content addressing the following objectives:

- ☐ Summarize knowledge about issues of interest to western professionals
- ☐ To convey ideas and analysis techniques to non-academic, professional economists working on agricultural or resource issues
- ☐ To demonstrate methods and applications that can be adapted across fields in economics
- ☐ To facilitate open debate on western issues

Structure and Distribution

The *Western Economics Forum* is a peer reviewed publication. It usually contains three to five articles per issue, with approximately 2,500 words each (maximum 3,000), and as much diversity as possible across the following areas:

- ☐ Farm/ranch management and production
- ☐ Marketing and agribusiness
- ☐ Natural resources and the environment
- ☐ Institutions and policy
- ☐ Regional and community development

There are two issues of the *Western Economics Forum* per year (Spring and Fall).
