Caribbean Agro-Economic Society  
1986

## EDITOR'S NOTE

The Seventeenth West Indies Agricultural Economics Conference sponsored by the Caribbean Agro-Economic Society was held on the St. Augustine Campus, The University of the West Indies. The main theme was "Agribusiness - The Way Forward for Caribbean Agriculture".

In the preparation of these Proceedings, we have had the assistance of several individuals. We are indeed grateful for this support. Special thanks are due to National Institute for Higher Education, Research, Science and Technology (NIHERST) for their contributions towards financing the preparation of these Proceedings and to the Department of Agricultural Extension for assistance with the printing work. Rajendra Rastogi and Helen Pyne-Timothy of the Departments of Livestock Science and Language & Linguistics, respectively, assisted with editorial matters. Editorial assistance was also received from Members of the Executive - Caribbean Agro-Economic Society.

Once more, I should like to express deep gratitude to the technical and supporting staff of the Department of Agricultural Economics & Farm Management for their contribution, especially Mrs. H. Mohammed for her patience and skills in typing these Proceedings.
