**YEAR BOOK OF LABOUR STATISTICS 1975**

What makes the thirty-fifth edition of this unique and acclaimed work different from its predecessors ?

For one thing, population statistics more strongly reflect 1970 census "bench mark" data. In addition, its 45 statistical tables (on some 190 countries) include, where possible data for the period from 1965-74, and in certain instances include part of 1975.

Researchers in business and industry, libraries, universities, employers' and employees' organisations, and government have found the previous editions of the *Year Book* essential in gaining and understanding of trends and developments in labour related areas which have an impact on modern society.

Approximately 900 pp., trilingual (English, French and Spanish).

ISBN 92-2-001426-2

Hardbound Price : Sw. frs. 95.

Publications may be obtained through major booksellers, or from **ILO Publications**, International Labour Office, CH-1211 Geneva 22, Switzerland, or from ILO Area Office, 7 Sardar Patel Marg, Chanakyapuri, New Delhi 21.

## Are you dreaming of a bigger harvest?

ULKA-PNB-10a

**We are a new kind of fortunetellers.**

**Show us your plan, not your palm.**

You can have a bigger harvest, if you plan all that is necessary. Make a list of the items you need for your farm and make an estimate of the cost. Bring it to us and we'll turn your dreams into reality.

PNB will finance your plans, by giving you loans for tractors, tubewells, pump-sets, high-yielding varieties of seeds, fertilisers and pesticides. You can rely on PNB for loans, even for bunding, levelling, irrigation and fencing of your land.

**Or if you need other assistance....**

PNB will also give you loans for dairy farming, poultry and horticulture. Unemployed engineers can also contact us for help, in setting up custom service units and agro-service centres.

Our repayment terms are very liberal. Visit our nearest branch and we'll explain all about them. Chances are, we'll agree on a plan that suits you best and helps you make your fortune.

The bank where your credit is high.

## GUIDELINES FOR SUBMISSION OF PAPERS BY AUTHORS

**1. Subjects:** The objective of the *Journal* is to provide a forum for dissemination and exchange of findings of research on agricultural economics. Purely descriptive material is not appropriate for such a journal. Papers dealing with (i) new developments in research and methods of analysis, or (ii) which apply existing empirical research methods and techniques to new problems or situations, or (iii) which attempt to test new hypotheses/ theoretical formulations or modifications of existing theories or policies to explain economic phenomena especially in the Indian context, or (iv) papers based on research done by the authors bringing out new facts or data presented in an analytical frame will be preferred. Younger economists are advised to seek guidance from their seniors in the preparation of the paper for the *Journal*. A one-page statement indicating the author's own assessment of the importance and relevance of the findings reported in his paper in the context of recent researches would be welcome.

**2. Size of Paper :** In view of the exorbitant increase in the cost of printing, it has become necessary to restrict the length of the papers accepted for publication to 20 (double space) typed pages (of the size 8½-by-11 inches) including tables and appendices (with margins on all sides of at least 1½ inches). Papers exceeding this size limit will be returned to the authors. The authors may however send along with their papers such "supporting material" as may be of help to the referees in evaluating them. Abstracts not exceeding 100 words should be submitted in duplicate along with the paper.

**3. Copies :** Two copies of each paper should be submitted along with a processing fee of Rs. 15/- either by M.O. or crossed I.P.O. (\$ 4.00 or £ 2.50) drawn in the name of the Indian Society of Agricultural Economics, to meet partly the postage and other incidental charges.

**4. Author's identification :** To protect the anonymity of authors while referring the Papers for expert opinion on their merits, authors are advised to avoid disclosing their identity in the text and to attach a separate page showing the name(s) and affiliation(s) of the author(s) along with any footnotes containing bibliographical information or acknowledgements.

**5. Mathematical notations :** Only essential mathematical notations may be used; it is prohibitively costly to typeset such notations. All statistical formulae should be neatly typed.

**6. Figures-Charts and Tables :** Professional assistance should be availed of while presenting figures and charts. They should be drawn in black ink which can be easily reproduced by photographic process. Typescript is not suitable for reproduction. Roman numerals may be used for tables.

**7. Footnotes :** Footnotes should be numbered consecutively in plain arabic superscripts.

**8. References and citations :** Only cited works should be included in the reference list. Please follow the style of citations as in previous issues of this *Journal*.

**9. General :** While sending papers the authors should state that the material has not been published elsewhere or is not being published or being considered for publication elsewhere.

**10. Reprints :** Ten free reprints of the paper would be given to the author; additional reprints, if required, are supplied at cost which may be ascertained from the Editor.
