WE BROUGHT THEM TOGETHER

Small farmers and the Agriculture Scientists. Our Agriculture Extension activity brought them together to detect the bottlenecks in farm productivity.

Meet the Scientists Programme, Farm Information Exchange Clubs, Future Farmers Clubs, Farm Clinics, Seminars on Agriculture and Animal Husbandry, training in bee keeping, poultry keeping, sheep rearing, hundreds of activities connected with Agriculture and allied occupations. Syndicate Bank blazed a new trail in educating the farmers on the profitability of Agriculture.

170 Farm Information Clubs, 280 Future Farmers Clubs are buzzing with activity—a wonder for many—but a normal activity for us. 50 Farm Clinics in 7 States are working to bring about integrated rural development. No wonder we are both pioneers and leaders in Agriculture Finance.

A one-page statement indicating the author's own assessment of the importance and relevance of the findings reported in his paper in the context of recent researches would be welcome.

How State Bank changed the fortunes of an entire village

Once there was a deserted village, solitary and sad. Today it thrives, progressive and prosperous. Thanks to State Bank's Gramodaya Project.

Under this Project, State Bank now covers about 300 villages all over the country. It does not

just finance economically viable schemes, but also sponsors a number of social activities.

These include organising literacy classes, constructing and repairing village roads and drains, providing drinking water and medical facilities,

assisting in low-cost housing for scheduled castes, organising programmes for rehabilitation of tribals and constructing open-air auditoria.

By motivating local leadership and active involvement of the villagers, Government and other voluntary

agencies, State Bank aims to ultimately transform these villages totally. So they will serve as models for others to emulate.

In this, as in many other ways, State Bank plays the all important role of a catalyst in the process of intensive rural development.
