An Application to the Bears Ears National Monument

Tackling Wicked Problems When Teaching Applied Economics

Amanda J. Harker Steele, John C. BreVision 2

INTRODUCTION

The Bears Ears National Monument is located in the heart of southern Utah, near the boundary between the counties of San Juan and Emery. The Bears Ears are a unique formation of sandstone cliffs and buttes that are home to cultural and natural resources. The Bears Ears National Monument was established on December 28, 2016, by President Barack Obama.

OBJECTIVE

The objective of this paper is to examine the designation and/or size of the Bears Ears National Monument, and to discuss the implications of these decisions on applied economics.

METHODS

A case study method is an effective tool that can be used to analyze the designation and size of the Bears Ears National Monument. The case study method allows for a detailed examination of the decision-making process and the factors that influenced the designation and size of the monument.

RESULTS & DISCUSSION

The Bears Ears National Monument was originally named after the rock formations that resemble bears ears. The Bears Ears were named in the 19th century by a group of explorers who were studying the area. The designation of the Bears Ears National Monument was made in 2016 by President Barack Obama.

CONCLUSIONS

The Bears Ears National Monument was designated in 2016 by President Barack Obama. The monument was originally named after the rock formations that resemble bears ears. The Bears Ears were named in the 19th century by a group of explorers who were studying the area. The designation of the Bears Ears National Monument was made in 2016 by President Barack Obama.

REFERENCES

The bears ears were named for the historic Bears Ears rock formations for which the monument was originally named. In December 2016, President Barack Obama established the Bears Ears National Monument, covering the historic Bears Ears rock formations for which the monument was originally named.

The monument was originally named after the rock formations that resemble bears ears. The Bears Ears were named in the 19th century by a group of explorers who were studying the area. The designation of the Bears Ears National Monument was made in 2016 by President Barack Obama.
