PREFACE

The 53rd Annual Conference of the Indian Society of Agricultural Economics is scheduled to be held from 2nd to 4th December, 1993 under the auspices of Punjab Agricultural University, Ludhiana. The subjects selected for discussion at this Conference are:

1. Oilseeds and Pulses.
2. Agricultural Wages and Employment.
3. Management of Renewable Natural Resources/
Sustainability of Agriculture.

One Keynote paper each on the first two subjects and two Keynote papers on the third subject are included in this issue of the Journal.

A large number of papers has been received on the first subject. The President of the Conference, on the recommendations of the Rapporteurs, has accepted in all 155 Papers for discussion at the Conference. Out of these, 13 papers are published in full, and 142 papers in the form of Summaries, in this issue which also includes two Rapporteurs' Reports.

We regret it has not been possible to publish, in full length, a large number of papers because of the exorbitant increase in the cost of printing. We do hope the paper-writers whose papers could not be published in full would appreciate our difficulty and bear with us. We are grateful to all the paper-writers for sending their papers and to the Rapporteurs for preparing their Reports embodying the main points made in the papers and also for outlining the issues for discussion.

October 11, 1993.
