**JOURNAL OF FINANCIAL MANAGEMENT AND ANALYSIS**  
International Review of Finance  
(Half Yearly)

**Aims**

**JFMA** focuses on financial management issues confronting 'MNC - controlled' developing countries and 'MNC - parented' developed countries, by investigating such crucial issues as:

- (i) In spite of massive techno-economic assistance from developed to developing countries, poverty gap within developing countries has continued to widen and they remain technologically overdependent on MNCs, rendering the rich richer and the poor poorer; and,
- (ii) Business ethical considerations or selfish motives associated with such capital transfers, etc., and attempts to provide a forum facilitating the development of the embryonic science of financial management.

The Journal--a refereed journal -- offers techniques and new concepts 'backed up by case studies and provides a bridge between financial management theory and practice. The Journal is a useful decision kit for finance practitioners, policy makers and scholars from throughout the world and offers a unique opportunity to contribute your own expertise to develop the financial management science.

**Recent Issues:** Each issue contains unique financial management issues like:

- World Bank Financing Methods Need Overhauling ■ Punctured Investment Tyre Widens Liquidity Gap ■ Banking Development: A Panacea for Stock Market Crash ■ Overcapitalisation (Locked-Up Capital) Breeds Inflation ■ India's 'Self-Reliance' Strategy Induces Venture Capital ■ Punctured Investment Cycle Tyre Leads to Bank Mergers ■ 'Priority Sector' Financing in India Needs Overhauling ■ Good 'Political Risk' Induces Foreign Investment
- Does Abnormal Profit - oriented Wage Differential Lead to Productivity Loss?
- Do MNCs Engage in Arbitrage Using Gamblers' Earnings Hypothesis?
- Are G-7 Countries Expatriates in G-15 Countries?

**Manuscripts for submission**
