Rural-Urban Continuum Codes for Metro and Nonmetro Counties. By Margaret A. Butler. Agriculture and Rural Economy Division, Economic Research Service, U.S. Department of Agriculture. Staff Report No. 9028.

Abstract

[This report provides a one-digit code for each of 10 classifications for all U.S. counties. The classifications describe a county by degree of urbanization and nearness to a metro area. These codes allow researchers to break county data into finer residential groups than the standard metro-nonmetro classification of the Bureau of the Census.]

Keywords: County, metro, nonmetro, urbanization, adjacent

Rural-Urban Continuum Codes for Metro and Nonmetro Counties

Margaret A. Butler

The 1983 rural-urban continuum codes form a classification scheme that distinguishes metropolitan counties by size, and nonmetropolitan counties by degree of urbanization or proximity to metro areas. The standard Bureau of the Census metro and nonmetro categories have been subdivided into four metro and six nonmetro categories, resulting in a 10-part county codification. The classification scheme was originally developed in 1975, updated in 1983, and slightly revised in 1988.¹ This scheme allows researchers to break county data into finer residential groups, beyond metro and nonmetro, particularly for the analysis of trends in nonmetro areas that are related to population density and metro influence.

All U.S. counties and county equivalents are grouped according to the official metro status announced by the Office of Management and Budget in June 1983, when the current population and commuting criteria were first applied to results of the 1980 Census of Population.² Metro counties are further distinguished by the population size of the Metropolitan Statistical Area (MSA) of which they are a part, with counties in MSA's of 1 million or more divided by whether they are central or fringe counties.

Nonmetro counties are classified according to the aggregate size of their urban population. Within the three urban size categories, counties adjacent to an MSA are identified. Adjacent counties are 1) physically adjacent to one or more MSA's and 2) have at least 2 percent of the employed labor force in the nonmetro county commuting to central metro counties. Nonmetro counties that do not meet the above criteria fall into the "not adjacent" category.

Overall, the rural-urban continuum code scheme includes 714 metro counties and 2,383 nonmetro counties. In Virginia, independent cites are combined with their counties of origin. Table 1 shows the regional distribution of the 10

¹See Fred K. Hines, David L. Brown, and John M. Zimmer, Social and Economic Characteristics of the Population in Metro and Nonmetro Counties, 1970. AER-272. U.S. Dept. Agr., Econ. Res. Serv., Mar. 1975. This scheme was updated and revised by Calvin Beale, U.S. Dept. Agr., Econ. Res. Serv., 1983 and 1988.

²A Metropolitan Statistical Area (MSA) is a county or a group of contiguous counties that contains at least one city with a population of 50,000 or more or including a Census Bureau-defined urbanized area of at least 50,000 with a total metro population of at least 100,000. In addition to the county containing the main city or urbanized area, an MSA may include other counties having strong ties to the central city. For a more thorough definition of metropolitan, see U.S. Department of Commerce, Bureau of the Census, State and Metropolitan Area Data Book, 1986, Apr. 1986.

Put Rural Development Research To Work For You

Rural Development Perspectives brings you information that will help you make your rural community or small town a better place to live, get more out of your budget, give you new ideas about developing your area's economy, and help you understand the forces influencing rural development in America in the 1990's.

In each issue:

Feature articles (8-10 of them) give you information you can put to use, not just put on a shelf;

Book Reviews tell you about good new books on rural and smalltown topics;

Short Subjects give you a digest of readings that will broaden your awareness of what matters to rural areas and small towns;

Rural Indicators give you a graphic snapshot of trends affecting you and your community.

Subscription includes three issues. Save money by subscribing for more than 1 year!
