Abstract

[U.S. imports of most fruits and vegetables are subject to regulations administered by the USDA's Animal and Plant Health Inspection Service. This statistical report summarizes imports of over 200 commodities by country of origin and port of entry from October 1, 1988, through September 30, 1989.] Data are incomplete for the ports of JFK Airport, NY, and New York, NY, because some monthly Station Reports were unavailable for those ports.

Keywords: U.S. imports, fruits, vegetables, plant quarantine regulations.

Acknowledgments

The author thanks the reviewers, Thomas A. Warden and Catherine R. Greene, Economic Research Service, and Donald R. Thompson and Ronald P. Sponaugle, Animal and Plant Health Inspection Service, for their comments and suggestions. The author also thanks Phillip Friend, Economic Research Service, for his computer expertise and Lisa Moultrie, a summer intern for the Economic Research Service, for her contribution in compiling the data.
